### **Our priority : Education & Healthcare**

Ngiti, which means smile in Filipino, promotes access to education and health for children in Bogo, Philippines.

2023 has been Ngiti's most successful year to date, focusing not only on the education of the children, but also continuing to improve access to healthcare for the newborns.

Our main project was the construction of 4 kindergarden classrooms in BCS2 and Nailon, benefiting a total of 120 children.

Founded in 2016 by Shiela Fontanoza and myself, Ngiti aims to improve the efficiency of the already existing but insufficient support services in Bogo's primary schools. Over the past 8 years, we have mainly focused on children's education, supporting more than 7000 children in 4 schools in Bogo.

We are also pleased to have continued to support the neonatal unit at Bogo Hospital, which we opened last year. One of our goals for the coming years is to improve the health system for the children of Bogo.

I would like to personally thank all the donors who have made these projects possible and all the volunteers who have helped over the years.

“  
Thank you!”

### Our priority : Education & Healthcare

We hope this newsletter finds you well and full of optimism for the upcoming school year. We are thrilled and excited to share some exciting updates and plans for our organization as we continue our mission to provide quality education and health to the city of Bogo.

NGITI foundation has been hard at work over the past year, making significant strides in educational infrastructure. Thanks to your generous contributions, we have successfully completed the construction of 4 new classroom buildings in BCS 2 and Nailon. These buildings are now fully equipped with state of the art furniture, creating conducive learning for the students.

The impact of these new facilities is profound. Not only they have increased the capacity of the classroom to accommodate more students, but they have also improved the overall quality of education provided. The children now have access to safe, comfortable, and inspiring classrooms where they can learn and grow. Our commitment to education doesn't stop here. As we look ahead to the next school year, we have ambitious plans to further education opportunities for underprivileged children.

Here some of the projects on our horizon. Classroom construction at BCS 2, 2 classroom buildings for Nailon, and hospital supplies for the city bogo'sof neonatal department. None of this would be possible without your unwavering support. Your donations, time and dedication make it possible for NGITI foundation to make a difference in the lives of these children. Stay tuned for updates on these projects and please feel free to reach out if you have any questions or would like to get more involved .

Together, we can bring about positive change and create a world where every child has access to quality education. Thank you for being a part of NGITI association family. Together, we can make dreams come true.
