Scheduled dates to choose from:

25 May 2022

2 November 2022

The primary aim of this virtual masterclass is to focus on coursework technique and knowledge for Insurance Law, a compulsory unit for the CII Diploma in Insurance. The masterclass is designed to help you to adopt the required mindset for coursework, which differs from CII exams. So let's tune into the CII wavelength to master what good looks like.

This virtual workshop will specifically focus on coursework techniques for M05. A separate virtual workshop will focus on the multi-choice exam component (E05).

Coursework is one of two required components for CII Mixed Assessment, with both components needing to be passed within 18 months of enrolment.

By the end of this event attendees will have gained an insight into:

- How to focus on the M05 syllabus and learning outcomes;
- How to deconstruct coursework questions;
- How to prepare an answer and aim to achieve good marks.

It will highlight a constructive approach to mastering the syllabus and preparing for the **E05** exam.

By the end of this event attendees will have gained an insight into:

- How to focus on the M05 syllabus and learning outcomes;
- How to attempt different styles of MCQ - standard format and multiple response questions;
- How to apply the knowledge and exam technique required for E05

ACT One workbooks for each component will be provided.
