

Dear Friends of Possibility Management,

A report from Portugal:

We gathered at Values University, which is the converted 18th Century residence of King João V while his palace at the town of Mafra, Portugal, was being built. In the words of Fernando Pessoa (from his book *Message*), the town of Mafra is “*a center dedicated to building the fifth era – a cultural era – one that does not consist of nationalistic expansion or the control of one nation over another, but rather a universalistic vision of the world and the mysteries of humanity.*”

Values University intends “*to educate for values and happiness, detaching from a materialistic perspective of life, privileging a spiritual dimension, learning through experience, discovering the mysteries of nature and the self-reflection capacities, in contact with individual and collective consciousness... which gathers qualities of character, harmonious relationships, and civic responsibility.*” In addition, the Values University property has a powerful gateway into the Earth. We felt welcomed and at home!

A mood of rejoicing erupted as 45 of us gathered for the first ever *Expand The Box* training of this size. It was also the first time Anne-Chloé Destremau and Clinton Callahan had met many participants in the flesh after over a year of Zoom calls. Together we built our ETB Team and we made it!

The celebration continued in the following week through a 41-person Possibility Lab...

Possibility Lab Mafra, June 2021

Celebrating became exceptional the week after that during a 40-person Intimacy Journeyer's specialty Lab when – through inconceivable coincidences – we could honor and give certificates for their 10th Possibility Lab to four unique individuals: Joana Cruz, Vera Luisa Franco, Sophia-Magdalena Hofmann, and Tanja Gerold.

Participating in ten Possibility Labs is the central and unifying commitment made by participants in Possibilitator Training. The joy and pride which the Possibilitators and the Trainer Guild share about the success of these four very special women exceeds the capacity of mere words to express.

Then we got to experience another first! A Team of 24 Possibilitators gathered in Portugal June 2021 for the first ever Possibilitator Training Live, with Vera Luisa Franco and Sophia-Magdalena Hofmann as spaceholders!

A total of 7 *Expand The Box* trainings and three Possibility Labs are being delivered live in July around the world, including:
