INFOPACK

Crossing the Threshold is an Erasmus+ project coordinated by Actions for Change association which includes a training course that will be held online due to the pandemic context, from 15th to 26th of March 2021.

The purpose of “Crossing the Threshold” is to discover and explore the resources of the human potential through nature-based activities and embodiment practices in order to contribute to a more sustainable and inclusive world for all humans.

Our minds and bodies possess astonishing resources, untapped potentials and depths that we might not even know exist until we discover how to access them, cultivate their powers, and eventually integrate them into our everyday lives. In this training course, we'll access these depths and potentials in order to cultivate and bring them to our community in order to contribute to a life enhancing world.

During the training course we intend to:

- discover the 4 facets connected to the 4 directions of the human psyche based on the model of The Nature based Map of the Human Psyche in order to live our life from wholeness.
- explore the inner soul gifts and resources based on the model of Soulcraft in order to find our place in the World and manifest the soul-gifts.
- bring to life the hidden resources of the human self through embodiment practices and nature-based practices.
- create a community of heart-minded, dedicated people who create transformational learning environments in order to support and guide the authentic growth of all young people.

Entering the realm of the experience

The participation in this training requires a preparation phase. Those who will be accepted in the training should follow an online learning process (reading different materials, articles, watching videos) related to the topic of the training.

The participants will receive several suggestions for personal work before coming to the program (e.g. journaling on certain questions, self-time in nature and several other invitations).

Applying to this program requires also the commitment to follow the preparation process.

Soul-based work

During the training we wish to create **profound experiences**. Knowledge, information and facts are very important and will be provided within the training, but what moves us, what drives us to create a long-lasting impact in our field of activity is the joined elements of both intellectual understanding and deep experience processes.

We'll explore the landscape of the psyche through a variety of practices, including creative expression, self-designed ceremony, solo exercises while wandering on the land, group work, embodiment, movement, voice dialogue, journaling, and deep imagery work.

A Vision with a Task

After the training course we want to pay special attention to the dissemination activities, which will contribute to a learning journey and inner growth of youth work. This phase will be as important as the training itself. We want to create a powerful impact through our project. As a continuation of the experience each participant will have to implement at least **one ACTION in their own community**.

The guiding team:

Sandra Horea (Ro.)

Sandra creatively and heart-fully invites people to be in intimate and meaningful journeys with their Soul, Nature, and the Community they belong to. As a trainer, she creates purposeful spaces of self-discovery incorporating in her work her experience regarding nature and soul-based practices, eco-centric development, contemporary dance, storytelling, poetry and deep imagination.

Antonio Cargnello (It.)

Antonio is an passionate trainer who loves to craft experiences for self development, group awareness, creative expression and pursuit of a wise and joyful freedom. He regularly facilitates workshops, for teenagers, students, youth workers and adults, using and mixing his expertise and experiences from theatrical improvisation, contemporary dance, martial arts and contact improvisation.
