

# 2026 Election – Lake County and Prop. 50 Success

Indivisible Lake County is a non-partisan citizen group opposing the unconstitutional and authoritarian actions of the current Trump administration. Although Democratic Congressman Mike Thompson has served Lake County and his District 4 constituency well for many years, we urged passage of the re-districting Proposition 50 on the November ballot, even though most of the County above Middletown will now be in a more competitive District 1.

We believe that establishing an effective check on this administration will require flipping the House of Representatives to Democratic control in the next election. Critical to this effort will be successfully flipping District 1 from a Republican to a Democrat in November.

The current District 1 representative, Republican and MAGA stalwart Doug Lamalfa, unfortunately passed away unexpectedly on Monday January 5. It is therefore unclear who the Republicans will nominate for the fall election. There are currently three registered candidates on the Democratic side, probably the best-known of whom is State Senator Mike McGuire.

The State Democratic party will issue its primary endorsements at its annual convention February 20-22. We will advise our supporters of those endorsements and provide additional information on the preferred candidate at that time.

In the meantime, we must be prepared to exert maximum effort to elect a Democrat in District 1 in November as well as to re-elect Mike Thompson in District 4.
