Accelerate performance and collaboration with PDF drag, tab-reading, watermark-free editing, and electronic writing. The latest update on 09/15/16This had 0 updates over the last 6 monthsIn this version there are 0 flags on virusTotal Nitro PDF Reader allowing you to take notes and edit PDF as well as just read them, offering a huge advantage over other free PDF software options. Pros Fast Start Guide: When you run this program for the first time, it opens a quick start guide that works you through basic operations. Sign up and mark: Nitro lets you add notes and mark a document, and it's easy to sign an electronic signature form. Easy PDF creation: If you need to create a PDF, you can just drag and drop files into Nitro. It recognizes more than 300 other types of files and allows you to create PDF files from them. Cons Long Installation: The installer gave us quite a few difficulties during testing. We had to cancel it once and the second time we ran it, it took an exceptionally long time before we finished. Bottom line If regular free PDF software doesn't give you enough functionality, then nitro PDF Reader can fill the gap. Nitro PDF Reader allows you to take notes and edit PDF files, as well as just read them, offering a huge advantage over other free PDF software options. Với n you ca can лям all those r мнх want ba create episode oтoвa PDF from any source n'o an easy c'ch đ'ng, say и зм share anyone, anywhere. Nitro Reader not only helps you read PDF files on your computer, but also edits them in many ways, such as annotation to PDF documents, insert notes and bookmarks, emphasize or cross text. In addition, this free PDF Reader tool also allows you to extract all images in the PDF file or save text inside the PDF file as plain text, removing all formats and editing more easily. Another great feature of Nitro Reader is the virtual printer, which allows you to convert any PDF document, as long as the app you use to open is printed. All you have to do is choose the print option and choose the Nitro PDF printer. The user interface is simple. easy to use Nitro Reader with Microsoft Office, a type of tape interface. Tasks and tools are divided into tabs grouped by functionality. GUI with easy-to-understand text labels to make users feel more familiar and don't need the help of others. Your favorite tools are concentrated in one place where the Fast Access Toolbar (OVT) allows you to create a group of shortcuts that you use most often, constantly keeping on the screen for easy access to the basic functions you need in your work, while less-used features can still be easily opened. Nitro Reader's intelligent interface system provides a navigational interface, including Pages, Bookmarks, Comments, Exit, Signatures, and Apps, making it easy to navigate through the large text, content displayed in the center. Help right into the app Extended tool annots when you hang out, allowing you to learn about each tool and task in Nitro Reader quickly without having to leave the app or look elsewhere. Understanding the PDF file When you open PDFs with additional attributes, such as security restrictions, digital certification, or fields in the form, you will receive notifications immediately. If you don't want to be notified every time, just turn this option off in Preferences. Browse and navigate Find easy to find the text excerpts you need in more text with nitro Reader search. Simple you need to use keyboard shortcuts or click on the Find box to find any words or phrases. Click Find Next or Find The Previous to get back to loop or forward through these performances. Filter search results by limiting all words and/or in the case of appropriate letters. Zoom in/out of the zoom or from any PDF file with handy shortcuts or mouse controls. The start-up level is displayed in the interface page management area as a percentage that can be changed by entering the number. The rotating Nitro Reader lets you rotate any page at a 90-degree angle quickly and easily. View each PDF page Select the most appropriate view of the page for the documents you're viewing: a single page that shows only one page at a time, displaying all the pages as a single column. Select a full-screen view to display your own PDF files as separate objects, without functionality or related content. Working with multiple PDFs at the same time, Nitro Reader allows you to view tabs of individual PDF files, making it easy to work between multiple documents in the same window and even sharing documents that are open horizontally or vertically for simultaneous viewing. Preview of THE PDF files in your Windows 7 and Vista email users can use Nitro Reader preview technology to directly view the attached PDF files in the Microsoft Outlook reading window, with the navigation core available in the app that allows users to view and read documents as open directly. A preview of the PDF files in Windows Explorer with Nitro Reader installed on Windows 7 or Vista, you can view the contents of any PDF file from Windows Explorer without opening the document again. View PDF files inside the web browser View PDF files inside Mozilla Firefox, Internet Explorer and Google Chrome. Read with chapters and headlines Viewing documents (containing bookmarks) easily in the bookmark box, using a review chapter and title that allows you to go directly to the part you're looking for. Use an interactive content table to move the PDF file out of its structure. View all properties of documents View consolidated information files, including metadata, generated information, PDF type, page size, font used, original view settings, and more. Supports more than 300 Nitro Reader file formats offered by a PDF builder of more than 300 formats. Control how your work is delivered and make sure that the recipients are happy with the intended viewing experience by sharing documents in a popular format. Created by dragging and falling, you can drag any file onto the Nitro Reader screen icon to create a PDF file. The process of automatically opening the incoming PDF files in Nitro Reader can also be done by dragging files into the application document window. Created from Nitro Reader files, it provides a function of creating PDFs from any file, with pre-defined configurations, as well as customization of input options. The print to install the Nitro Reader PDF also provides an additional Nitro PDF Creator to the list of available printers. From any printing app, simply select Nitro PDF Creator when printing to create a PDF file. Custom create the perfect PDF for your needs, with 3 pre-installed configurations, including lightweight web-ready, flexible Office-ready, and high-quality Print-ready. Full control over PDF files created with the ability to identify documents (metadata), embedded fonts, page size, orientation and quality, password security, and view of the original settings. Extract the contents of the Conversion into plain text Use text again easily, converting any PDF file into a simple text format. Manage your input by selecting the top/bottom name of the page you want to keep, as well as specifying the width by the number of characters. Snapshot Snapshot lets you select any area on the screen, regardless of the content, and copy it directly to the clipboard quickly and easily reuse images, text or anything in your PDF file. Extracting Nitro Reader images allows you to keep all images that are in the PDF document to any folder or destination without changing the original file. Identify formats (BMP, JPG, PNG, TIF), distinguish color and monoc monoco monoco with individual options and use Remove images to create a repository of content from any PDF file. With the Smart Extract process, Nitro Reader can choose the most appropriate format for each image. Commenting on nitro Reader Notes, the review provides features for adding virtual notes anywhere on the document. Notes can be displayed or hidden by nature, giving you a tool to highlight specific areas or special instructions in the document. Highlight the text, slash, emphasize the text in the PDF files, allowing you to change the text on demand. Mark a certain portion of the text, then add comments to stand out, then reply in order, allowing you to easily change the document. Enter text anywhere with Type Text tool, you can easily add text to the pages of the document. Nitro Reader allows you to expand or add a certain portion of the text with any font, size, color of your choice. Follow Windows Nitro Reader for a classified list of all bookmarks, comments, annotes, and changes to the document. Comments can be extended or collapsed, sorted by type, page, color, author, date, topic. As a smart box, the tool will only display comments that are present in the open PDF file. Many Nitro Reader comments allow you to respond separately to each comment or comment in the document. Edit and modify existing editing feedback or delete comments added to the PDF file you're browsing. Custom pop-up notes Customize the look and details of the comments you add, including color, opacity, author's name, theme. See comments from any viewing of all kinds of annot comments used on popular viewer PDFs, including Adobe Acrobat and Nitro PDF Professional. Filling in and saving the Nitro Reader form allows you to keep any entry into the box in the form of a PDF to keep a copy of the completed forms. Image caption Simply add a scanned image of the caption to add a caption to the PDF file. Nitro Reader will add a transparent layer to add a signature without affecting the original contents of the PDF file. Apply signature use The quickSign tool is to place your signature anywhere in the document, then you can resize and move the picture to get the correct position before constantly sticking a signature by double-clicking on it or save it. Your signature is embedded in the PDF file and is transferred at any time. Nitro Reader Signature Protection allows you to add multiple signatures to multiple users and protect them with a separate password to make sure you don't abuse nitro Reader signatures. Some notable new nitro Reader 3 features here, you can choose and note any sn piece of content to highlight it. To do this, select the Markup Text section in the menu, using the mouse and the content area compartment for the markup. Once you've tagged important sections of sn, you can click on the marked item to add a specific annotation to them. Cells to fill in comments can be dragged, dragged, and moved to make it easier to display content. To remove pasted comments from the file, click on the comments on the right and select Delete. In addition to annot comments, you can also insert more text into the PDF file. To do this, select the type of text in the menu. Click where you want to insert content into the PDF file and start filling in the content. To finish, click the Finish button from the menu. After taking steps to change and interfere with the contents of the PDF file, you choose file to save these changes. Extracting content from PDF files: Another useful feature of Nitro PDF is the additional extraction of text from the contents of the PDF file. To do this, click the Select button from the menu and then use the drag mouse to note what to extract. Then click the right button, select copy text (or click Ctrl q C) to copy the marker. Now you can copy this content to another text editing software (at best Word), or copy it to the body of the email website... for use. After pressing the button, the Convert PDF to Plain Text dialog appears. As part of Folder in Output, select a specific Folder and then click the Browser button to choose where to save the file after you've been removed (the default file will be stored in the same folder as original PDF). Finally, click the Convert button for the extraction process. The limitation of the software is to criticize the content and keep it in the txt (regular text) file, so it can't save the formats and presentation of the source code. Create PDF files from any file format: with this feature you can convert text files, images ... converted to pdf files. This will improve the protection of file content by avoiding editing or copying. To this, you press the Create from File button on the main menu. Dialogue box appears, click the browser to select a file to convert to PDF, save PDF, select a specific Folder, click the browser button to choose where to save the file after the conversion. Finally, press the Create button to make the transition happen.
