Senior iOS Developer (m/f/d) in Munich

The digital landscape is changing the media landscape at an unprecedented pace. Powerful IP platforms are the prerequisite for innovative entertainment services such as next-generation TV, gaming and virtual 3D realities.

The EXARING IP platform waipu.tv is based on its own fiber infrastructure and is able to simultaneously deliver millions of ultra-HD streams at the speed of light to our end-users.

With the waipu.tv app, a new TV experience is taking over the living room: the smartphone becomes the remote control for your big screen, time-shift, recordings and non-linear content allows users to watch what they want whenever they want with any device.

Be part of the evolution of television and apply now!

For our team in Munich we are looking for an experienced iOS developer (m/f/d)

What we love at Exaring:

- State of the art technology:
  - Swift
  - Clean architecture
  - Xcode
  - Fastlane
  - Gitlab
  - Apple Platforms and Technologies (iOS, tvOS, UIKit, AirPlay, AVFoundation…)
  - ChromeCast, FireTV, Microservice architecture, Docker, AWS, Kubernetes
- Great team spirit
- Contact to our developers from the first interview
- Working in an agile environment (and we really mean it!)
- People bringing in their own ideas on how to make our platform even better
- Working at a great location in Munich close to Englischer Garten
- Challenging our colleagues not only on code but also with tabletop soccer, table tennis and dart
- Joining or hosting developer meetups
- Our coffee machine Judith and her colleague Moccamaster
- We even love our colleagues in the Android Team!
What we should love about you:

- It’s been several years since you launched Xcode and wrote your first UIViewController in Swift.
- Terms like CI, Git, MVC, VIPER, MVVM, SCRUM should be more than just random characters for you (bonus points for BuBa).
- You get the most out of yourself when working in a team.
- You live an agile life and want to find this in your job, too.
- You waged a battle against App Provisioning and finally won.
- Even though German might not be your mother tongue you can handle it well in a project related context.

You want to be part of a great team that builds the next-generation-IPTV platform? Cool, so let’s talk!
