So the weaknesses of the pots remain as weakness of the pots. Let's be real, rabbit 5 and spirit 4 pots are much better than speed 8 anyway. The target speed of 8 only to allow you to run at 400% speed with a full sup SinisterShiny speed 8 gives you a 40 speed spirit 4 gives you 40 pounds of speed and spirit pots way cheaper. krwminer Enhancement - Please either don't make a normal fermented from the enchanted spider's eyes or make the recipe different. It's too easy to accidentally make a normal fermented spider eye and lose a stack of 64 enchanted spider eyes by getting the styling order wrong. PixelSlayer doesn't really have how much you lose? PixelSlayer I'm sure he said 64, but. They said they turned off the vanilla recipe for enchanted items. Because I actually made 64 normal fermented spider eyes out of 64 enchanted spider eyes. _3rik'm sure he said 64, but. They said they turned off the vanilla recipe for the enchanted items Ahh OK thx going some replacement, but if it's a false statement I'll think twice. Raqtor happened to me twice Arisuwu did it on the first fermentation I created. made sure I used the charm of glitter mods ever since krwminer Pretty sure he said 64, but. They said they turned off the vanilla recipe for enchanted items. Because I enchanted eyes), so not too bad, but still. You must log in or register to register answer here. MaxPing I wonder, for the fermented spider's eyes, you need a brown fungus. How do you get one. This is quite a difficult item to get. Anyone knows how to get a brown mushroom. Also, for a blaze rod crafting recipe, for fireworks, you need a charged, or just a basic firework with gunpowder and paper. TheRoyalBuffalo You can get a brown mushroom in the swamp, nether and from large mushrooms in the covered woods Also for the blazerod recipe, you only need basic fireworks (1 paper and 1 gunpowder). NaturesButler I used a stack of enchanted spider eyes that took the book a whole 2 days to get, and when I used them, a stack of brown mushrooms, and a stack of sugar to make the fermented spider eyes, in the exit slot appeared a regular fermented spider eye. Now I thought it was just a visual error and thought actually none of this until I CLICK SHIFTED AND then GOT A STACK FROM REGULAR FERMENTED SPIDER EYE. What can I do to make things change, because it's basically a whole 2 days of work gone by, just a poof. Please tell me if you know anything, thank you. You can't have it reversed. Sorry _(ツ)_/ Amoosable if you don't organize it just like the recipe says that on you JuJuJelly exactly the same thing happened to me. It's best to just move on. Here's a screenshot of the new recipe: logistiqs Joined August 23, 2019 Posts 130 Reactions 50 Wow it's not too bad, I thought it was a 2 and a half stack of enchanted spider eye. Pariux Enchanted Fermented Eyes is much cheaper than the enchanted sugar cane currently. Price for eyes: 179k - 39k and 140k per eye. Price for enchanted sugar cane: 205k - 15k and 190k for sugar cane. NOTE: In order to maximize profits, you need to cook in regular glowstone whenever making your pots. This will allow you to sell them for a much higher than normal price. (39k total for the eyes). SlipperyEJ123 Since when is the electronic sugar cane 200k?? Revivers Or if you are willing to grind for 25 hours to use e melon, 22m to get alch 50 from 0 exp the current price of the bazaar Not_WiseDragon Alchemy was 3 times cheaper with farms a couple of weeks ago ...
