Your Payment Partner of Choice

S920

A mobile favourite with high-end retail and hospitality merchants

Q30

High volume payments. Ideal for multilane retailers

D220

Award-winning MiniPOS paperless payment terminal

Robust. Reliable. Resistant.

Whether for multilane retail, or on-the-go sales, PAX terminals have proven their worth over time, in a wide range of environments.

Classic POS terminals

These are some of the best-selling, most cost-effective, and fully certified payment terminal solutions on the market today.

Devices which guarantee a seamless user experience, improving checkout throughput and boosting sales conversions for your business.

The Linux based Prolin OS platform provides a simplified approach to software application development, allowing you to easily roll-out new services and value added apps tailored specifically to your market niche.

Mobile POS terminals

Pocket-sized design in a powerful hardware. PAX mobile devices allow you to take secure payments any-where your business takes you.

Always running at peak performance, these mobile devices are the ideal solution for payments on the go or as extra payment device at checkout during busy times. Small and handy, they all come with inbuilt printer and multiple connectivity options, making each transaction as smooth as possible.

S920
Compact, classic & packs a punch

A favourite with high-end retail and hospitality merchants, the mobile S920 enables payments to be fast, seamless, and customer friendly. Ensure total mobility and maximum display quality thanks to the stunning HD colour touchscreen and bright backlit keypad. Speed and battery life are also supercharged, letting you process payments longer and faster in any environment.

Key features:

- 2G (GPRS), 3G (WCDMA), 4G, WiFi, Bluetooth
- NFC contactless, Chip & PIN, magstripe
- Display: 3.5" TFT QVGA
- Security: PCI PTS 4.x SRED
- OS: Prolin

S900
Robust portability

Process payment with S900, a sturdy portable POS device offering a wide range of connectivity options and lightning fast printer speed that lets you hand out receipts without missing a beat.

Key features:

- 2G (GPRS), 3G (WCDMA), WiFi, Bluetooth
- NFC contactless, Chip & PIN, magstripe
- Display: 3.5" TFT QVGA
- Security: PCI PTS 4.x SRED
- OS: Prolin

D210
Classic mobile, triple comms

With 2G/3G plus WiFi and Bluetooth all combined in one terminal, this powerful compact mobile stand-alone terminal accepts major payment options your customers might need, including contactless, EMV smart cards, and magnetic stripe transactions.

The stylish D210 really comes to life when paired with the optional base stations which ensure batteries are always charged throughout the day.

Key features:

- 2G (GPRS), 3G (WCDMA), WiFi, Bluetooth
- NFC contactless, Chip & PIN, magstripe
- Display: 2.8" TFT QVGA
- Security: PCI PTS 5.x SRED
- OS: PaxMe
- Optional charging base & privacy shield

Mini POS and MPOS solutions

D180
Entry level MPOS

The world's most cost effective solution to accept EMV and contactless payments, when paired via Bluetooth with any mobile iOS or Android smart device.

Key features:

- NFC Contactless, Chip & PIN, Magstripe
- Display: LCD
- Security: PCI PTS 5.x SRED
- Physical keypad
- OS: PaxMe Lite
- Bluetooth

Key features:

- 2G (GPRS), 3G (WCDMA), WiFi, Bluetooth
- NFC contactless, Chip & PIN, magstripe
- Display: 2.4" TFT
- Security: PCI PTS 5.x SRED
- OS: Prolin
- Physical keypad
- Optional camera
- Optional touchscreen display
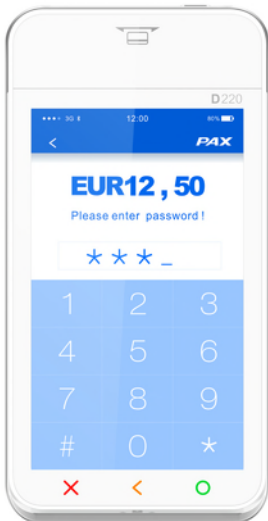

D190
MiniPOS power

If you love the D200 and D220, but you want a paperless MiniPOS with a traditional physical keypad, then the D190 is exactly what you are looking for. With optional inbuilt camera and optional touchscreen display, the D190 weighs only 185 grams, making this one of the coolest compact payment terminals that exists.

D220
MiniPOS made simple

The beautifully designed D220 comes with modern PIN-on-Glass functionality, providing innovative ways to process EMV and NFC contactless transactions wherever you sell.

The D220 connects over 3G or 4G, with inbuilt WiFi and Bluetooth, making this environmentally friendly paperless device a fully standalone MiniPOS.

Key features:

- 3G (WCDMA), 4G, WiFi, Bluetooth
- NFC contactless, Chip & PIN, magstripe
- Display: 4" TFT WVGA
- Security: PCI PTS 4.x SRED
- PIN-on-glass certified
- OS: Prolin
- Optional wireless battery charger

D200
MiniPOS & MPOS

Key features:

- 2G (GPRS), 3G (WCDMA), WiFi, Bluetooth
- NFC contactless, chip & PIN, magstripe
- Touch-press resin physical keypad
- Display: 2.4" TFT
- Security: PCI PTS 4.x SRED
- OS: Prolin
- Optional battery chargers

Featuring a high-tech touch-resin keypad, the D200 can be used as a simple MPOS, to be paired via Bluetooth with any mobile iOS or Android smart device, or else can function as a standalone MiniPOS, just like the D190 and D220, with advanced connectivity options.

The Countertop solutions

Q80
Advanced countertop power

Choose from multiple connectivity options to connect to your existing instore infrastructure, print customer receipts at lightning speeds of 100mm per second, and enhance your Q80 with the optional backup battery, cluster cable or privacy shield. Best of all, all payments are protected by the highest security standards, whether you accept mobile wallet, bank card or contactless payments.

Key features:

- 3G (WCDMA), 4G, WiFi, Bluetooth
- Chip & PIN, magstripe
- NFC contactless
- Display: 4" TFT WVGA
- Security: PCI PTS 4.x SRED
- OS: Prolin

S800
Traditional countertop

With a bright, 2.8 inch TFT colour LCD screen, the S800 is a competitively priced desktop terminal, offering multiple connectivity options and delivering exceptional payment stability, whether you wish to process contactless payments or print receipts at high speed.

Key features:

- 2G (GPRS), 3G (WCDMA), Ethernet
- Chip & PIN, magstripe
- NFC contactless
- Display: 2.8" TFT QVGA
- Security: PCI PTS 4.x SRED
- OS: Prolin
- Optional privacy shield

Multilane smart PINpad

Q30
High volume payments, low maintenance

A smart PINpad that connects to any cash register, terminal or self-service checkout system, letting you drive business faster via multiple payment channels with reduced integration friction. Best of all, the Q30 is designed to last, ensuring you reduce the overall total cost of ownership.

Key features:

- Ethernet, WiFi, Bluetooth
- NFC contactless, Chip & PIN, magstripe
- Display: 4" TFT WVGA
- Security: PCI PTS 5.x SRED
- OS: Prolin

S300
Entry-level multilane

The S300 is our entry-level multilane payment terminal, equally as safe and robust as the more modern Q30 equivalent, fully certified and enabling transaction data encryption and electronic signature capture.

Key features:

- Optional Local Area Network (LAN Ethernet)
- NFC contactless, Chip & PIN, magstripe
- Display: 3.5" TFT QVGA
- Security: PCI PTS 4.x SRED
- OS: Prolin

SP200
MiniPOS desktop

A stylish, compact and standalone countertop, SP200 is designed for merchants who wish to focus on fast, contactless transactions, in environments where magstripe and chip card payments are a thing of the past.

Key features:

- WiFi, Ethernet, Bluetooth
- NFC contactless, APM
- Display: 2.4" RTP LCD
- Security: PCI PTS 5.x SRED
- OS: Prolin
- Optional camera

SP20 V4
Contactless PINpad

Want to enhance your desktop terminal with an additional contactless PINpad? The SP20 V4 is what you need. It is as powerful as it is stylish, running on a high speed CPU for lighting fast payment processing.

The reliable SP20 V4 offers RS232 and USB connectivity, has an integrated privacy shield and the latest industry certifications.

Key features:

- NFC contactless, Chip & PIN, magstripe
- Display: LCD
- Security: PCI PTS 5.x SRED
- OS: PaxMe
- Integrated privacy shield
