

STREETS AHEAD

Bringing your **SOCIAL** media to life

Social Media Management - How I work with you

First of all, we have a free, informal 30 minutes chat (via phone, skype or in person) to discuss me managing your social media platform (s).

If you would like to go ahead, we then agree a mutually suitable time to meet for a 2-hour focused social media marketing strategy session charged at **£395**. This is paid to me (Streets Ahead Social) upfront and is non-refundable.

During the social media marketing strategy session, we will agree the platform (s) you would like managed and organise a safe handover of your social media login details.

Once we've agreed which platform (s) you would like managed, here are some key dates we work towards:

-23rd of the month - your social media posts for the month will be sent across to you for sign off

-30th of the month - you will be asked to sign off your social media posts by this date.

-1st of the month - your posts will be scheduled

-1st of the month - payment to Streets Ahead Social is made
