Very helpful people and great prices. Explained the price of what would be if I paid in cash and stated that it would cost more if I go through the insurance route. A few months ago, my husband and I went for an ultrasound because of the threat of miscarriage. When we got into our technology told us that she would not be able to read us the results and we would have to wait to know the result until Dr. called the results in our midwife, who would then call us, which was an absolute torture, but I understand this is only part of their protocol. Technology did a little conversation asking questions, how did you plan the rest of the day? And you want your kids to be close in age? Who now knowing that she could see that our child had passed away felt like an absolute insult. And in the second half of the meeting, she talked about her healthy pregnancy, which made the already incredibly painful situation even worse. Of course, I'm so happy for her and her baby, but it was inappropriate to be in such a vulnerable place (especially since she knew my baby was dead and I wasn't). The already unfortunate experience is even worse. Excellent professional service of people with a smile. Justin, grow a fat man thicker skin and pay the inside bills winning about it. The service at Servant Medical Imaging was perfect. However, I received a voicemail from Maria in their corporate office 6 months later to inform me that they would be turning me on to their lawyer and collector the next day because of my outstanding balance. Since I never received a bill from them (or any previous phone calls), this notice was pretty disturbing and honestly ruined my evening. After contacting Maria the next day, I had her check my address, which someone incorrectly entered (thus, no accounts). For being a Christian business, I didn't expect my first contact with them to be a warning about collections/lawyer. Since the error was at their end, I would expect them to go out of their way to do it right. Instead, I must pay my bill in full with a very polite apology in inconvenience. I will update or delete this review based on their follow-up to me (if any). People also considered Servant Medical Image is a group group 1 location. Currently, The Servant of Medical Imaging specializes in diagnostic radiology and radiology with one doctor.
