and MAINTENANCE MANUALSsued July 1, 2000Pvision CRevised February 16, 2004The second part of Room 30000049Printing NotesClick on the yellow bar above and then on the minus (-) sign in the left corner to minimize this window. This guide has been optimized for photocopying as a one-way guide. Odd 20died pages are shifting and even the dead pages are shifted to the left to provide sufficient space for 3-hole drilling if desired. In addition, blank pages were inserted into appropriate locations to facilitate one-way printing. For example, a blank page follows this front page to prevent the Content Table page from being printed on the back of this front page. To prevent this note or NOTE from being printed, make sure the annotation box is not checked on the Print Dialog screen. The annotation check can be found in the PRINT RANGE section of the Print Dialog screen.
