Of particular importance is the image on the creeping tiger drawing - it is the fragility, ephemerality and fragility of life. This tattoo will always remind the wearer of imminent death that he understands the importance of every moment of life. Tiger Jumping symbolizes aggression and the rebellious character also has miraculous and magical features. If a person chooses to tattoo a tiger, it means that he is intelligent and confident, fully relaxed, has spiritual strength, leadership qualities and is able to support themselves and respond to their actions. They are mysterious creatures that chase the depths of the dense forest under growth and drive fear into the hearts of every object they encounter. Tiger is not only a symbol of quiet power, sophistication, but is a symbol of incredible beauty, femininity, and motherhood. Cheetahs are, in fact, the Melanian Cheetahs and Jaguars that have a bad attitude towards the lion. Of all the big cats, cheetahs are opportunistic hunters who don't hesitate to make a meal from deer, humans or even their relatives, the lion. They have a secret nature, often To spend some time of lights and away from the prying human eyes and leave only sometimes dead cattle or a printing claw in their wake. It is this secret behavior that makes cheetahs a feared monster of the forest. Many pre- and post-Columbian cultures revere these beautiful animals for their fearless nature and incredible hunting skills. The image of the tiger is often used in the Heraldic. Although the animal is not native to Europe, tiger is a central figure in the coats of arms and flags of many European countries and ancient family blood lines. Countries like Croatia, Slovenia and Austria have coats of arms depicting the tiger in a strong position. This may be due to the fact that in the Middle Ages, the Cheetahs were seen as symbols of Christ and arch enemies of dragons, the embodiment of evil in some circles. Putting a tiger on the emblem of weapons was a creative way to represent the spiritual connection of the family or country with the basic beliefs of Christianity. Cheetahs and dragons often portray fighting as an expression of the battle between good and evil. The images tend to be somewhat stylized, because many Medieval Europeans rarely get a chance to see the tiger in person. Cheetahs are also the emblem of freedom, revolution and social equality. At the height of the civil rights movement in the United States, the Black Panther Party was a group of social revolutionaries who called for an end to social injustice and inequality. Sadly, the group's increasingly polarized left wing views alienated supporters, and by the early 1990s, the Black Panther Party was no longer any more. More importantly, the tiger is a symbol of motherhood and protection. Not surprisingly, in the classic story, The Jungle Book, mowgli was the black panther, Bagheera. In the wild, these powerful animals are known to be fiercely territorial and will defend their offspring to death if necessary. In many cultures around the world, the moon and its stages are said to represent feminine femininity and divine. Women are thinkers; women are thinkers; women are the ones who work and spend their time carefully conspiring and balancing the benefits of even the smallest decision. People who are natural thinkers are often quiet and reserved beings, much like cheetahs, who spend their days quietly chasing under the forest and living a solitary lifestyle. They are as secret and mysterious as women, as such, and black panthers are seen as moon humans. Their quiet and preserved nature has become a symbol of femininity and a symbol of the alluring charms of a confident and seductive vixen. Black Panthers are smart, hypnosis, beautiful, and deadly. Are you? Cheetahs embody a variety of human qualities, including: power and stealth power intelligence and cunning chastity Christ protecting the motherhood family, femininity victory, spirituality of victory and divine heroism in tattoos, cheetahs are always On hunting. The Panthers are prominent in the myths of most cultures in south and south Central. It occurs in the art and religion of all pre-Columbian American civilizations and was considered a familiar and companion of shamans between Olmsk, Mayan and The Aztecs. It is an unusually powerful old and powerful totem and was a symbol of the nobles and the power of the royal families. The fur, claws and teeth of the Jaguar were often used to adorn and decorate the fine costumes of the highest rank of individuals. This is the largest and most ferocious cat in the Americas, the pound for the pound is more ferocious and dangerous than: tiger, lion or cheetah. Tiger is at the height of the food chain in the Americas. Tiger/Jaguar is fiercely independent and cunning. This is the only big cat that routinely fishes in the water. These cultures found it very important that the cheetahs came in two stages of color, yellow and black and believed that the yellow phase of the tiger pulled the sun across the day sky and that the black phase of the tiger pulled the moon across the night sky. Tiger/Jaguar was often a symbol of the shamans, individuals who could bridge conscious and unconscious worlds, who had special access to the afterlife and to the world of the soul. Many thought that the tiger was a shape shifter, able to transform himself at will. A strong totem, tiger possesses a fantastic range and range of powers and abilities. Consider that his anatomy is said to consist of more than 500 voluntary muscles. Whether physically, mentally, or spiritually, this is a lot of 'muscle', and a lot of potential for action. For those who take the animal as their soul guide, it's also a lot of responsibility. For those who are leaning solitary, Tiger is a symbol of who behaves alone, especially when taking the lead. Wherever the paths crossed with human civilization, the tiger was considered very clever aggressive animal. The Greek god Dionysus chose the tiger as his favorite mount, and wore his priests the skins of the tiger. The Book of the Egyptian Dead says that heaven opens itself up to the deceased king, who is covered in tiger skin. Wearing tiger skin shows one who exceeded their most base desires and was ready to enter the upper worlds. Mystery, mysticism and magic have been attributed in particular to the Black Panther. Absolute blackness suggests the night, the moon, the primitive darkness, and the energies that come out of the depths. In art and legend, a beautiful and courageous woman is symbolized by the Black Panther. Virgin, mother, warrior, seducer, priestess and sense, this cat speaks of femininity in all its aspects. Lily is able to jump, climb, swim and chase - no wonder he has become a mythical creature. In the Americas, the Jaguar is said to have swallowed the sun, causing an eclipse, while its roar was thundering. Shamans are said to borrow jaguar power in rituals that give them extraordinary energy. Between the Aztecs and the Mayans, the Jaguar was transformed into a human form. For those who blended with the power of Jaguar (became Jaguar Man), the result was freedom from social and cultural constraints. Many legends tell about Jaguar men and their terrifying ferocity. In Greek mythology, the Black Panther symbolized the unleashing of suppressed urge, from breaking through barriers and inhibitions. The German philosopher Nietzsche is credited with saying: Who does not kill us makes us stronger. For those who want to open up to the spirit of the tiger, the possibility of creating a connection with strong archaic power is great. Tiger medicine can awaken the innate energy of our creative energy, although it may have been lost once. The biblical reference relates the sweet breath of the cheetahs to the sweetness of Christ. The cat is said to have been out for three days in a cave, and her breath is still alive. In the Herald, the angry tiger - sometimes depicted with a fiery tongue - symbolizes anger and remorse. In China, the black cat prevailed in the north, with water as its element. Today, the Florida tiger is seriously endangered. Their traditional environment has dwindled to the point where there are still 70 animals left to continue the species.
