## Can i move my directv genie to another room

new house, DTV installer was non-talking, put main receiver in LR. We were going to move it and found a tag on the cord saying do not disconnect. can i move it? At Allconnect, we work to present quality information with editorial integrity. While this post may contain offers from our partners, our opinions are our own. Here's how we make money.Prepare to cross "transfer TV service" off your moving checklist. If you have DIRECTV, thanks to their Movers Deal, transferring your services is easier than ever. When you're ready to go, just call to schedule an appointment for professional installation at your new address, pack your things and be on your way. The best part? There are zero fees associated with moving DIRECTV services!Check out a quick breakdown of what to expect and some installation options that are available.Pricing per month plus taxes for length of contract. Additional fees and terms may apply. Pricing varies by location and availability. All prices subject to change at any time. May or may not be available based on service address. Speeds may vary. As of 07/08/19,DIRECTV transfer fees explainedWith the DIRECTV Movers Deal, transferring service to your new address is simple and cost-effective due to the mandatory one-year contract you'll need to enter for service at the new residence. Here's how DIRECTV handles service transfers and what fees you can expect.There is no transfer fee associated with moving DIRECTV services. However, you will have to enter into a new one-year contract at the new address. This one-year agreement is in addition to the remainder of your previous contract, so be sure that you're completely happy with your service. Otherwise, it may be a better idea to look into a new TV provider.If you do choose to prematurely end your contract in the future, you'll be charged \$20 for each month in the remainder of the agreement. Consider this cancellation fee before taking on the additional year of service at your new address.DIRECTV's Movers Deal includes free professional installation at your new address. Although self-installation is also an option, the perks of a professional install are unmatched, especially one that's free of charge.When you call to schedule your service transfer, you'll also schedule an appointment with a DIRECTV technician to come out at a time that works best for you.If you'd rather skip the technician's appointment and set up your own services, there are a plethora of guides to help your install go smoothly. However, if you do opt for self-installation and something goes wrong with your service, you may be charged a fee for a professional installation after the fact.Frequently asked questions about moving DIRECTV servicesCall 1.855.333.0032 when you find out your move-in date to schedule your service transfer and free professional installation at your new address.No. You will not need to return existing equipment. Take your TVs, DIRECTV receivers and remotes to your new service address and leave your satellite dish in place for proper removal.Satellite TV service from DIRECTV is available in most major metropolitan and rural areas. However, if your new address is not serviceable by DIRECTV, you'll need to cancel service and locate an available provider in your area.If your contract agreement with DIRECTV has not reached its end, you'll be charged \$20 for each month in the remainder of your contract. For this reason, a DIRECTV service transfer request scheduled closer to the end of your agreement is recommended.Your DIRECTV services will be available at your new residence when your installation is complete. If you're moving to an apartment or condominium, be sure to complete your landlord approval form beforehand to get DIRECTV installed.Yes. Service activation at your new address is available when you're ready. However, you should make sure that your move-in date and installation date are close in proximity as the services at your old address will cease after your scheduled transfer.If there is a gap between your installation and your move-in date, you will still be able to stream TV shows and movies via the DIRECTV App as long as you remain a DIRECTV subscriber.That's fine! Call 1.855.333.0032 as soon as possible to reschedule your professional installation around your new move-in date. A technician's calendar tends to fill up rather quickly so the sooner you can reschedule, the more likely your appointment will coincide with your move.Find more provider guides, tech news updates and more when you follow our TV and internet experts on Facebook, Twitter or right here on our resource center. We ranked it as one of the top five DVRs in the industry because every DIRECTV plan comes with an included Genie DVR at no extra cost. If you're thinking about getting a Genie but aren't convinced it's as great as the hype suggests, keep reading. We'll break down each part of this whole-home DVR system, including details about the equipment hardware. Our goal is to give you a clear sense of what's superior and what's standard about the Genie so you can know what you're getting into. The Genie can support up to eight rooms with the same unit, thanks to its high-def receiver that connects to mini-clients. Please note that while you can include up to eight TVs as part of your system, the Genie can provide signal to only four at a time. The Genie comes in both HR44 and HR54 models. The major difference is how they power your satellite dish. The HR44 has an external SWiM power inserter, while the HR54's is built in. The SWiM inserter powers your satellite dish with such efficiency that the Genie earned ENERGY STAR certification. DIRECTV's DVR falls behind the competition in storage capacity. Both the HR44 and HR54 have only around 1 TB of storage (1,024 GB). This means you can record only 200 hours of HD programming (800 standard), so you may find yourself having to delete old recordings frequently. In comparison, DIRECTV's competitor DISH offers the Hopper 3 with 2 TB of storage—that's double the Genie's. But if DIRECTV can get its Genie 2 model off the ground, it may finally give the Hopper 3 a run for its money. See how DISH's Hopper 3 and DIRECTV's Genie compare. The Genie 2 HS17, or Genie Server, could be a game changer for DIRECTV. With 2 TB of storage, it has to the potential to take on the best DVR out there—the DISH Hopper 3. Unfortunately, customers have had trouble connecting the new Genie to the DIRECTV App. Without this connection, you can't watch your recordings on the go. But if you still want to experiment with it, the Genie 2 requires a one-time activation fee of \$99.00, and the first Genie 2 Mini comes included in your service. During checkout, let your DIRECTV customer service representative know that you'd like the Genie 2 HS17 model. Based on availability, they can possibly set you up with this next generation of the DIRECTV DVR. The DIRECTV Genie remote is streamlined, with most of the navigation in the center. There are a bunch of helpful features that will make your watching experience easier: Turn TV and DVR on and off together Press "R" button to automatically record show Press "R" button twice to record entire series "Replay" button skips back 6 seconds "Advance" button fast-forwards 30 seconds This remote also comes with both infrared and radio frequency capabilities, which means you don't need to worry about having line of sight to your DVR to turn it on or change the channel. DIRECTV has both basic and backlit versions of the Genie remote and provides them based on availability. If you need the backlit version and DIRECTV doesn't have it, you can pick one up on Amazon for about \$30.00. To configure the setup that best fits your home, DIRECTV offers both wired and wireless mini-clients. These petite units can be tucked away discreetly, enabling the Genie to extend service without giant eyesore receivers all over your home. When you hook up Genie Minis to secondary TVs, you're free to wander into the kitchen to cook dinner and resume that episode of Diners, Drive-Ins and Dives that made you hungry in the first place. Unlike DIRECTV's DVR, Genie Minis aren't included in your service. Each device costs \$7.00 per month. If you're planning on sticking with DIRECTV for a while, buy your own Genie Minis. It'll save money in the long run, and you can get both wireless and wired models on Amazon. DIRECTV packages from CHOICE™ on up come with a season of NFL SUNDAY TICKET at no extra cost. This gives you access to out-of-market NFL games each Sunday. With the Genie, you can create a "Mix Channel" to watch up to eight live sports programs at once. That's a pretty sweet deal for sports fans—better than trying to fit eight TVs in your living room, for sure. If you love the cutting edge, know that DIRECTV offers select shows, sports, and on-demand movies in 4K Ultra HD. This is the highest visual quality available right now, and you can experience it if you have a 4K-capable TV and the Genie DVR in model HR54 or higher. DIRECTV is the clear winner when it comes to 4K in the TV provider market because it offers 4K content all day long on channel 104. DISH and Xfinity are also 4K compatible, but neither have a dedicated 4K channel. The DIRECTV app works well with the Genie. You can stream DVR recordings in your home or download to watch on the go, and you can manage your recordings all from your phone. It even works as a remote, which is great for putting off the hunt for a misplaced Genie Remote for at least one day more. DIRECTV's DVR gets the job done without any extra charges. While it can record only five channels at once and up to 200 hours of HD content, it's great for 4K Ultra HD and good enough for on-the-go watching. If you want to see which other providers you can get TV service and a DVR from, enter your zip code below: You can find all our reviews on DVRs and TV equipment in our equipment guides section.
