

"Multi Level Perspective (MLP) as a catalyst in our university college to encourage sustainability"

The PXL has developed a customized postgraduate Energy Efficiency Services with the strong interaction of several dedicated stakeholders. During this workshop we want to give answers on the following questions and discuss about the following topics: How do we integrate Multi Level Perspective (MLP) in the policy of our university college PXL to encourage sustainability? * The importance of the quadruple helix * The attention for in- and external communication in combination with change management strategy* The communication in order to realize a behaviour change of all stakeholders * How do we integrate sustainability and SDG's in the department PXL-Tech.

The workshop will start with an interactive session (to tell a little bit more about MLP). There is room for discussion.

TOGETHER WE CAN CHANGE
THE WEATHER

DIRK FRANCO / MARLEEN SCHEPERS
ADVISOR AND STRATEGIST/HEAD OF DEPARTMENT
PXL UNIVERSITY COLLEGE
BELGIUM

Dirk is also program director of the Postgraduate Course "Energy Efficiency Services" at PXL and professor at U Hasselt. Marleen is head of the department PXL-Tech, with technological programs. They are inspired by 'Terra reversa' by Peter Tom Jones, the Doughnut economics by Kate Raworth and Homo sapiens: a brief history of humankind by Yuval Noah Harari.
