Here you will find more than 130 years of Japanese craftsmanship that make each of these watches incredibly reliable. This watch, which is another Seiko technology, even pushes the boundaries of accuracy and performance in what we know it. And Seiko's mastery of traditional Japanese aesthetics adds a distinctive style. Just the best watch - since 1881. 1. NAMES AND LOCATION OF OPERATIONAL PARTS 1 - Hands, installing disc 2 - Night time silencer 3 - Chime melody switch 4 - drive control volume 2. HOW SET BATTERY Make sure the C-size battery is in the correct position with the polarity of the position in the ascending position. 3. HOW to SET TIME Turn hands setting disk (1) counterclockwise to set the time. Hands will move clockwise. 4. HOW to control VOLUME Every time the chime - the rington selector switch (3) shifts, the corresponding chime will start ringing. You can adjust the volume of the chime by turning the volume control drive (4) toward the maximum for louder or to the position of the mines for a softer level. 5. HOW SELECT A CHIME MELODY Every time the call selector switch moves, the corresponding chime will start ringing. Choose the chime you want to hear. Left Westminster and Whittington right. 6. HOW to SET NIGHT TIME SILENCER Night Time Silence switch has three positions. If you want the chimes to play for 24 hours, keep it in the left position. If you want the chime to automatically turn off every night at 11 p.m. and returns at 5:45 a.m., please continue as follows: (a) set the clock at the current correct time if you haven't already. b) If the current time is during the AM clock, the slide switch (2) to the middle position marked AM c), if the current time is during the PM hours, the slide switch (2) to the desired position with the PM Clock will now be silent, automatically disabling each night at 23:00 and returning at 5:45 a.m. The shutdown period cannot be changed. 7. HOW TO HAVE PENDULUM a) Move the pendulum hanger to the right to free it. It will pop out of the delivery position. b) Attach the pendulum to the hanger, as shown in the photo. c) After hanging the clock, give the pendulum a gentle jolt to start swinging it or slightly move the bottom of the body from left to right to start swinging the motion.
