We are pleased to introduce our latest update containing a number of improvements to the game, as well as the Horror PXP Pack! Horror Pack features 35 disgusting new pieces just in time for the spooky day of the year - Halloween!!! Our new development team is focused on technology. As far as I know, there is no cheat code for unlimited moneyon Roller Coaster Tycoon 2, but here's a helpful tip for makingmore money at a faster pace: RollerCoaster Tycoon 2 Hint: Money Creating TechniqueRaise Prices for All Rides in Your Park is their excitement rating. For example, if the excitement rating is 8.27 youshould charge them \$8.30. (Round up) Guests will never think your restaurant is too expensive. NOTE: This trick-up is the work of forcertain rides such as movie theaters or dodgems so you have to either demolish them or lower the cost of 10-50 cents. Make sure the allyour rides have been overpriced so or guests will only go on this trip. The No Money scenario, just as it sounds, is a scenario in which money is simply not used. Attractions and landscapes can be built for free; Staff should not be paid for, and ride maintenance does not generate any costs. Guests do not bring money with them, and they do not need it, as everything is absolutely free, including food, drinks, attractions and souvenirs. The contents of RCT1 and RCT2 No money has been introduced from arid heights in Loopy Landscapes. All scenarios without money aim to get a certain number of guests to park and park rating should be above 700. In RCT2, however, it is also used for scenarios with other purposes. If the park in RCT1 or RCT2 is not a cash scenario, there are some limitations: No money displayed in the bottom left corner of the Budget window is not available, and there is no way to open it. The keyboard label F doesn't work, and all the buttons that open it gray from the Money tab are removed from the ride, the store and guest window insight options cant changed as funding tab is missing (RCT1) or budget window unavailable (RCT2) Buttons to open/close park park Grey from the button to buy land or building nights are not visible Marketing campaigns can not be launched, since the budget window is not available cash machines (RCT2 only) can be built, But guests will never use it If there is no money selected in the RCT2 script editor, only these four goals can be selected: The number of guests in the park/park rating should never be below the 700 Build 10 roller coaster with excitement, at least 6.00 Build 10 roller coaster with a certain length and excitement, at least 7.00 finish the construction of five roller coasters with specific excitement RCT3 This article is under construction. Roller coaster Tycoon Codes Rent Einstein to expand his research by leaps and down, find guest #1 and rename it EMC2. Then find #2 and rename it EMC3. They'll meet and start brainstorming. Soon after, they will be asked to be hired as park research developers. Say yes and pour your resources into the think tank. Next year, research and development will be grown not by day, but by day. You'll have all the latest rides and almost a billion dollars to spend! Free money: Go to finance by clicking F and then click ENTER and M for \$5,000. This can only be done once a month for an unlimited amount of cash. Get a one million dollar gift to get a lot of money for your park, close it for one full year! After that, a man dressed in a blue suit and holding a clipboard will give you a little useful money (\$1,000,000). Cheap coaster: To make it popular, money make a coaster about \$2,000 dollars, listen to this. Choose a steel mini coaster rather than a steel loop coaster. Build a coaster until it speaks too high for supports. Then make a steep drop all the way down. Then, brake at 9MPH, and make 2 small curves to put an end to it. Do Queue. This will help you a lot of money, above your park rating, and all for a small amount of money. Coaster will be extremely popular: Name roller coaster following: Tycoon roller coaster Get more guests: Build Build roller coaster (shuttle loop) and then build a way out through the loop. It will attract more guests. Happy Guest: To make a lot of guests happy to make a shuttle loop and then add on it. Make a huge line queue and charge 3 bucks. It's a short trip and you usually get up to 100 guests in line and they won't get angry because the line is moving fast. Food courts: Build all your food courts in one place so guests don't have to walk around the park to get what they want. Unlock Mega Park: Finish all levels to unlock Mega Park. Preventing guests from getting sick: Keep one of the mouse buttons and the ride will slow down, preventing guests from getting sick. Get more guests: Click on the Park Info icon and set an entry fee of up to \$20.00. Then go to the Financial Information button, click the Advertising button and start a marketing campaign for free park entry for four weeks. Keep an eye on your quest prices, but the results can vary. Keeping guests happy: Clean park is a happy park. Clapping guests: Before completing the mission go to a place that has many guests. When the mission is over, they'll all start clapping. Build underground: lift or lower the ground with a shovel. Then, go to the eye at the top of the screen. You should be able to see and build underground. Keep the popularity of the ride: To maintain the popularity of the scary ride, remove the track segment and replace it with the same item. Guests will be deceived into thinking that the trip has been improved and will continue to go to it. See through the bathrooms: Build a bathroom, and when someone enters click on the eye on top and choose See while rides. Build on high ground: When a message too high for supports appears, just raise the ground where you want to build. Better store and kiosk accommodation: Put shops and kiosks at the back of the park, not at the entrance. Once weary and hungry guests have gone all the way up to the back, they will be more than willing to pay higher prices for snacks. If you click on the fence, you will return to the entrance with information about the park. Easy money: Click on raising or bottom ground button and make the ground high and low and low again and continue to do so until you run out of money, then after a while you will have an unlimited amount of money and all the parks will be unlocked and you can go to the mega park! Build a cheap trip and make a huge queuing line. Make the trip free- 20 until it fills. Then, change the fee to \$10-\$20. Everyone in the queue will have to pay because they can't get out of line (unless they have enough money) faster research: Go to research and look under funding. There will be many elements, check-marked, such Shop and kiosks, roller coasters, etc. go to maximum funding and choose just one item to check the sign to get faster research. Clearing the paths: Just put a new path over the dirty dirty quickly clean it up. To quickly clear the park without using more money to replace the path that is dirty, choose one of your handymen. Even if it may not be as fast as just replacing the path, drop them wherever there are empty cans and vomit piles. It also works to empty debris. Increase park rating: Set your research only to roller coasters until you get steel or inverted steel slides. Build a lot of power-launched roller coaster mode (such as shuttle loop). This should increase your park rating and guest numbers. If you set the advertisement all for four weeks your money, the park rating and guests will be all increased. Make a real good park: put a lot of short go-karts to go and lots of shuttle loops to put steel shuttle loops at \$1.50-\$2 and put go-karting to go-to \$1-\$1.70 depending on how long the go-kart track is. Lots of Ride Passengers: To get a lot of people to go on a trip put a charge of .20cents. I did it with a carousel. Next make sure you use a queuing line (blue) and make it very long. Your guests will flock to the trip and fill your queuing line. Keep guests in the park: make massively long queues for some popular rides. Then lower the price to \$0.20 and wait until the whole line is full (something like 100 guests). Then wait until the ride breaks down and don't hire the mechanics after that. This will keep guests in line forever. Hahaha. Go-Karts: Yes, it's useful. When you get to go maps like a ride to build a custom go-kart to go, then build a track like this: click on a wide area of land and do the following, station platform (x4), right turn (x2), up track, straight track, down track, left turn (x2). Open the ride for 3 bucks and put the number of laps at 10, and it will make the excitement rating soar for such a tiny ride. Low cost is easy to build and will never be unpopular, this little giant is the ultimate ride. Glitches Pop Balls: When someone releases a balloon, click on it to pop it. Sell a lot of balloons at a very low price. When you complete the mission you can pop a large number of balloons. Balloon Display: If you perform a mission to the level that you are on and if you have a balloon stall when your guests clap they will all drop their balloons and have to buy another one. Happy Therapy: If you want happy guests, build a small island surrounded by water or with a fence. Build a bathroom, a drinks kiosk and a food stall. (Pepper them all for extra money) then put like 3 artists out there. Walk through the park in search of angry guests and carry them to the island. Throw them in there and forget about them on (games, not real) days. Save them later and put them on solid ground, but only if they have a broad smile on their faces. That district attorney! Instant happiness. P.S. If a month later, they are unhappy, drown them ... it relieves stress. Stress. Date: Move the pointer to where the month is shown, above the weather. Keep the mouse there until the date appears. Mow the lawn: Instead of your handyman mowing the grass, all you have to do is push the shovel. Make the area of land for it more and just click! Make sure you don't drag up or down, or climb or lower your ground. P.S. Does get your handyman not to mow. Click on his hand on his window and unclick mouse the grass, and tada, no longer works on the grass for him. Ballon Money: deprive people of their balloons by putting them in the water. They put them in front of the balloon stall and they tend to buy another balloon. Codes increase the amount the pot will give you: Vvet in code: Kandy jain Win Money: Take into the code: tapish khivensra Guest Names Unlock swinging guests: Send guest name to Katie Brayshaw. Unlock hungry guest: Send the guest name to Tony Day. This guest is usually hungry or very hungry. Wow! Thinking: Send the guest name to John Wardley. Get guests to pay double the entrance fee: Send guest name to John Mays. Get a faster go-kart: Send the guest name to Damon Hill. Send the guest name to Michael Schumacher racing even faster. Unlock rich guests: Send the guest name to Richard Branson. Unlimited cash (for guests): Send the guest name to BigBucks. Unlock pocket of choice: Send guest name to Richard Tan. Unlock guest photographer: Send guest name to Chris Soyer. Unlock artist guest: Send the guest name to Simon Foster. Increase the happiness of guests: Send the guest name to Melanie Warne. If you rename this guess later in the game, you can use this code again to increase the guest's happiness even more. Write a customer feedback in the comments! The tycoon 3 roller coaster is soaked!
