## Caretakers guide to fablehaven

Demon Olloch The Glutton The Caretaker's Guide to Fablehaven is a guidebook serving as an additional book for potential caretakers of Fablehaven Reserve. It describes magical objects, plants and creatures found in Fablehaven, along with some found in other nature reserves. It also has sections about demons, dragons, magical places in and outside the reserve, and a shorter piece called Wizards describing some notable craftsmen and affiliated organizations. The book is illustrated with many colorful paintings painted by Brandon Dorman. Also around the book are various observations made by Kendra Sorenson, Seth Sorenson, Ruth Sorenson, Patton Burgess and Newell, satire. There is also an unnamed person, most likely Stan Sorenson, who updated the book to match the status of the reserve between the keys to the prison demons and Dragonwatch. The book also contains a number of quotes from the Fablehaven series scattered throughout the book. A section of the book called Dragonwatch contains outdated information and should be considered accordingly. Artifacts and Items In this section of the book you can read about items that have some magical properties associated with them. Creatures In this section of the book you can read about creatures that have some magical abilities, origins or properties. Demons These nefarious creatures of darkness come in all shapes and sizes. Someone walks on two legs, someone on four, someone on six. Others glide, jump or roll. Some have wings, horns, or tentacles. Others have shells, scales, feathers or fur. Many wear armor and possess deadly weapons. In past centuries, demons have almost succeeded in taking over the world, so many have been locked up in zzyzx, a great prison of demons. Dragonwatch The Dragonwatch series is a continuation of the Fablehaven series, it all starts with the fact that Kendra and Seth gets a visit from their cousins Knox and Tess. Knox and Tess do not pay attention to the existence of magical creatures, and so Kendra and Seth must keep them secret and let them discover it themselves. Kendra and Seth meet the wizard Agad and get the opportunity to be co-keepers of Wyrmoost along with Celebrant, The Dragon King. They accept, and so they become official Blackwell Keep caretakers. Traditionally, Kendra and Seth should pay a fair people's visit to get their opinion on the issue, as well as ask them for advice on how to strengthen the walls of Blackwell Keep. After a discussion with the grim knight, Kendra, Seth and Henrik took to the dragon Dromam. As a defender of the entrance to the Way of Dreams, Dromad gives them a chance to try to get Scepter from the end of the road. Barely succeeding, Kendra and Seth manage to return home and seal Blackwell. A few days after the success, Kendra and Seth gets invited to Skyhold holiday holiday According to Celebrant, there, he openly declares war on his fellow caretakers and indirectly kills some of the griffins, including them from Blackwell Keep. After this news, Kendra and Seth both end up on the zsed protectorate, and form a plan to get Wizenstone, a powerful artifact that can undo any magic before Celebrant does. The stone is inside stormguard castle, they discover that the contest is going inside and manages to finish it and send Wizenstone very far through Rod's exile. Dromadus Isadore Grim Knight Dragons Dragons is widely regarded as the most powerful predators in the magical community, they have powerful magic and various powerful breathing weapons, extremely tight scales and sharp claws. They are experts in aerial hunters and hunts whatever they want. Places in this section of the book you can read about some of the famous locations in the Fablehaven series. Wizards Although few famous wizards now survive, all true wizards were once dragons. Once upon a time, a wise dragon named Archadiy discovered that, constantly taking human form, he greatly increased his magical abilities. These dragons are most interested in magic have followed suit. The Fablehaven series first came out in 2006, and was popular enough that I had to order a new copy of the first book, for two reasons: one copy was in pretty bad shape, and students often recommend the book to their friends while they are still reading it, so another copy is crucial! It's easy to forget old series when new books are constantly coming out, and reading The Watchman's Guide prompted me to start offering Fablehaven readers again, mentioning that all the books in the first series have already been published, so they haven't wait for a year to read the next book in the series. I'm very interested to learn more about the Dragonwatch series. I struggle with many fantasy books, but really like Fablehaven. ...
