GETTING STARTED WHY CHOOSE US TRAINING COURSES frequently asked questions CONTACT About the successful completion of this seminar you will receive a Certificate of Participation. If you require a nationally recognized application to reach HLTWHS005, please let us know at the time of registration.

HLTWHS005 - Conducting manual tasks safely Our manual processing workshop trains nurses, nursing students, support workers and domestic workers to perform manual treatment tasks in a safe manner. Conveniently located in our training centre in Perth, our manual treatment course is interactive, fun and practical! You'll have access to full work lifts, hospital beds, and slide lists, as well as all the necessary equipment for you to learn and practice on while being supported by your trainer or appraiser. During this course you will get all the necessary theory to understand the legislation and safe working methods associated with mobilizing clients and facilities within your own work role. You will participate in hands-on demonstrations where you will practice these skills and use all the equipment while supported and guided by our experienced trainers and appraisers. Do you want your employees to take one of our short courses in India? Let my Flex Training come to you! We offer a wide range of external courses that can be done in your own workplace (minimum 8 people). Please contact us for more information and group prices. The theory includes: Introduction to manual processing Legislation Duty of care Risk factors How to control the risks Prevention Of Injury Bastice Bastice And Physiology of Spine Corrections Practical includes: Preliminary exercises Loguse slideshows Sing a full lift and standing lift in a variety of Time: 4 Hours (Offsite Training Available On Demand) CALL US NOW ON No91 91 91210 57144 TO BOOK YOUR PLACE OR FILL OUT OUR CONTACT FORM DOWN BELOW We are constantly improving and adjusting our training to meet the ever-changing needs of the healthcare industry both on corporate and individual levels. We work in partnership with other aged care providers, training organizations, and industry experts, and understand that organizations want employees who are ready to work and have practical skills, knowledge and behavior to work in the workplace. from individuals to entire organizations. We offer flexible learning options with rolling weekly entries for our Certificate III, and also offers a wide range of both accredited and non-accredited short courses and seminars including: HLTWHS005 Guide Handling HLT AID 0003 Provide First Aid HLT AID 001 Heart and Pulmonary Resuscitation Bowel Care Catheter Awareness Chemical Safety Medicines Administration For more information on our accredited and unaccredited short courses check out our website! My Flex Training offers a variety of courses, from short refresher courses, for those who want to learn something new or upgrade their existing skills, to the Nationally Recognized Certificate III course in aged care, disability, home and community care and health care. Our courses have a strong practical focus that allows students to get their hands on the experience. Students are ready and prepared, with skills that allow them to succeed in the healthcare industry. HLT33115 Certificate III in Health Care (Helping Nurses in Emergency Care) Do you think about studying this course but not sure where qualifications can take you? Completing this course will give you the necessary skills to start your career in acute medical services/hospital settings. Learn the skills to provide quality care to clients alongside registered and registered nurses or as a care assistant (AIN). Certificate III in HSA training involves a mixture of theory and practical practical training with current industry equipment and documentation prior to starting your work experience. You will also receive support and mentoring from experienced coaches/evaluators. After completing this course and getting qualified you will be confidently ready to start your career in acute medical services/hospital settings! AGED CARE

COURSES: CHC33015 CERTIFICATE III IN INDIVIDUAL SUPPORTAre do you think about studying Certificate III in individual support, but do not know where you can lead qualifications? Completing this course will give you the necessary skills to pursue career opportunities as a guardian. We now offer all three threads in Cert III in individual support; Aging, home and community and disability. CHC33015 Certificate III in Individual Support (Aging) Providing a supportive environment and empowering them contributes to improving the quality of life of older customers. The course provides training for those who want to work in residential care facilities for the elderly. The qualification reflects the role of workers in nursing facilities, following an individual care plan for clients who need physical and emotional support due to aging or growing complex needs, helping them in their daily lives, health and well-being. The CC33015 Certificate of Individual Support (ageing and home and population care) has a positive impact on the lives of older people. The course provides training for workers who wish to work in care facilities for the elderly and/or community homes or day care centres. This will provide you with the skills and knowledge you need to work at home Certificate III in The Personal Support (Disability) Improving the quality of life of someone is always a pleasant feeling. People with disabilities need our help most in society. This course includes theory and practical training where you are taught to empower people with disabilities while maintaining their dignity and self-esteem and provides training to workers wishing to work in the homes of disabled community groups, supported housing or individual homes www.myflexhealth.com.au/training. The course should be context-specific and should include a practical assessment component. Manual Treatment and Cardiopulmonary Resuscitation (CPR) /Basic Life Support (BLS) Students are required to provide evidence of both manual treatment and CPR/BLS current certification that must be renewed every 12 months. Please check the validity before attending any course, courses that are only online not accepted. ECU Preferred Provider: intellilearnwww.studentsafe.com.au Kello 6.53 14. This week we are celebrating National Guardian Week[™]. A nationally recognized week to raise awareness of carers, caring roles and relationships, and care and support services. From all of us at My Flex Health International, we thank you for all your hard work, compassion and dedication to deliver the best care so that our customers can remain comfortably independent in their home as much as possible 🙏❤️. This week the Guardians #ShareYouCare for more information about Guardian Week: . Cello 7.19 29. 6.50 Today #WorldHeartDay! A day when millions of people around the world come together to spread #hearthealth. Cardiovascular disease is the leading cause of death on this planet. The best way to defeat it is #UseHeart ❤️ #WorldHeartDay use your heart about using... Your HEAD ❤️ To understand what it takes to live a healthy life and act on that knowledge by changing your behavior for a better quality of life now and in the future. YOUR ❤️ as a person to set an example for your loved ones. ❤️ as a health care professional to help your patients make positive changes for their heart health. ❤️ as an employer to invest in the health of your employees' hearts. ❤️ as a government to implement policies and initiatives that will lead to better public heart health, such as taxes on sugar, smoking bans and reduced air pollution. YOUR ❤️ beyond themselves and in a way to support the most vulnerable in society; those with major heart-related diseases that may put them at greater risk during COVID-19. My Flex Training is a registered training organization (code RTO: 51589) based in Perth, Western Australia. We are constantly improving and customizing our training to meet the ever-changing needs of the healthcare industry, both corporately and individually. We work in partnership with other aged care providers, training organizations and industry experts, and understand that organizations want employees who are ready to work and have practical skills, knowledge and behavior to be able to work in the workplace. My Flex Training aims to offer quality hands-on training in the workplace at our own aged care modeling center. This model will give you or your employees the opportunity and confidence to perform competently in their role. We are approved by the Learning Accreditation Board (TAC) until 2023 to provide a wide range of fully compatible and regulated training programs that meet the needs of the health and community sector and are accessible to everyone from individuals to entire organizations. My Flex Training offers quality and reputable educational services tailored to meet the needs of students and employers. We offer flexible learning options with rolling weekly entries for our Cert III in individual support and our Certificate III in Health Care, and offers a wide range of both accredited and unaccredited short courses and seminars including manual processing, first aid and PPC.
