Endocrinology board review pdf

Serge A. Jabbour, MD; Sidney Kimmel College of Medicine, Thomas Jefferson UniversityFACULTY AUTHORSRichard J. Auchus, MD, PhD, University of Michigan School of MedicineCarolyn B. Becker, MD, Brigham and Women's HospitalAndreA. Comiello, MD, Duke University School of MedicineFrance J. Hayes, MB BCH, BAO, Massachusetts MD, Georgetown University School of MedicineCatrine A. Martin, MD, Massachusetts Hospital GeneralElizabeth N. Pierce, MD, MSc, Boston University Medical CenterMEDICAL EDITORAbbie L. Young, MS, CGC, ELS (D)STATEMENT OF INDEPENDENCEAs Supplier CME Accredited Accreditation Board for Continuing Medical Education, Endocrine Society has a policy of ensuring the content of this activity has been developed overseen by the Endocrine Society Endocrine Board Review Committee.DISCLOSURE POLICYThe faculty, committee members and staff who are able to monitor the content of these activities are required to disclose to the Endocrine Society and students any relevant financial relationship (s) of a person or spouse/partner that occurred during the last 12 months with any commercial interest (s) whose products or services are related to CME. Financial relationships are determined by any amount of interest from commercial interest (s) in grants; Research support; Advisory fees; Wages; Property interest (e.g. shares, stock options or property interest without taking into account diversified mutual funds); fees or other fees for participation in the Speakers' Office, Advisory Boards or Boards of Directors; or other financial benefits. The purpose of this disclosure is not to prevent CME planners with appropriate financial relationships from planning or providing content, but to provide students with information that allows them to make their own judgments about whether these financial relationships may have influenced educational activities in relation to exposure or opinion. The Endocrine Society has reviewed all the revelations and resolved or managed all identified conflicts of interest, if applicable. The Faculty reported the following relevant financial relationships (s) in the process of developing content for this activity: Richard J. Auchus, MD, PhD, served as a consultant to Adrenas Therapeutics, Corcept Therapeutics, Janssen Pharmaceuticals, Novartis Pharmaceuticals, Quest Diagnostics, Selenity Therapeutics, and Strongbridge Biopharmaceutum; and conducted research for Neurocrine Biosciences, Novartis Pharmaceuticals, Spruce Biosciences, and Strongbridge Biopharma.Carolyn B. Becker, MD, receives royalties from UpToDate as the author of the chapter. Andrea D. Cooviello, MD, has as a consultant and speaker at Novo Nordisk; and received research support from Allergan, Bristol-Myers Squibb, and Regeneron.Serge A. Jabbour, MD, served as a consultant to Astrazeneca, Eli Lilly, and Janssen.Laurence Katznelson, MD, received research support from Chiasma and Novartis; and served as a member of the advisory board at Chiasma and Pfizer.Michelle F. Magee, MD, had her institution receive research support from Lilly, Mytonomy, and Sanofi; Acted as a presenter for PRIMED; and served as speaker and consultant to Mytonomy.Kathryn A. Martin, MD, serves as Editor of UpToDate. The following faculty reported no relevant financial relationships: Francis J. Hayes, MB BCH, BAO, and Elizabeth N. Pierce, MD, MSc.The medical editor for this activity reported no relevant financial relationship: Abby L. Young, MS, CGC, ELS (D). Employees of the Endocrine Society associated with the development of content for this activity did not report any relevant financial relationship. DISCLAIMER The information provided in this activity reflects the opinion of the faculty and is not necessarily the official position of the Endocrine Society.Using professional judgment: Educational content in this activity relates to the basic principles of diagnosis and therapy and does not replace the individual assessment of the patient on the basis of patient care and consideration of laboratory data and other factors unique to the patient. Standards in medicine change as new data becomes available. Drugs and dosages: When prescribing medications, the doctor recommends checking the product information sheet accompanying each drug to check the terms of use and identify any changes in the drug dosage schedule or contraindications. POLICY ON UNLABELED/OFF-LABEL USEThe Endocrine Society has determined that the disclosure of the non-marked or investigative use of a commercial product (s) is informative to the audience and therefore requires that this information be disclosed to students at the beginning of the presentation. The use of specific therapeutics, devices, and other products discussed in this educational activity may not be the same as those specified in the labeling of products approved by the Food and Drug Administration (FDA). The Endocrine Society requires that any discussion of such use not by label be based on scientific research that meets the generally accepted standards of experimental design, data collection and data analysis. Before recommending or prescribing a therapeutic agent or device, students should consider full appointment information, including readings, contraindications, warnings, precautions and Events. PRIVACY AND CONFIDENTIALITY STATEMENT Endocrine Society will record a student's personal information, as provided on CME assessments, to ensure the issuance and tracking of CME CME The Endocrine Society can also track cumulative responses to questions in activities and assessments and use this data to inform the current assessment and improvement of its CME program. No individual performance data or any other personal information collected during the evaluations will be shared with third parties. This annual review course will focus on the development of effective and cost-effective approaches to clinical, laboratory and radiological diagnosis of endocrine diseases, with a focus on recent developments. The aim of the course is to encourage an organized, effective and cost-effective approach to clinical, laboratory and radiological diagnosis of endocrine diseases with a focus on recent advances. After attending this activity, the participant should be able to: (1) Evaluate and apply new treatments in the diagnosis of endocrine disorders, (2) Identify the risks and benefits of each treatment. The target audience is designed both for physicians who are preparing for the endocrinology subspecial examination board and for physicians certified in endocrinology who want to stay up to date with the latest developments in field activities. The review of the FAES 2020 endocrinology update at NIH will take place from October 5 to 9.
