The standard resolution of 4K (3840 x 2160 pixels, more than 8 million pixels on the screen - it has long been known to us), good colors and realistic images on the 49 screen. In the TV Sceptre U500CV available three HDMI ports, providing external connection video sources. A port HDMI supports standard HDMI 2.0 We do, where streaming (when connected to an external source, naturally) 4K video. Available to control your TV Sceptre U500CV using mobile devices, such as via a smartphone. This provides a built-in technology MHL (Mobile High-Definition Link) via a pair of HDMI ports. USB ports extend functionality and allow users to listen to music and view digital photos quickly and easily - it sounds Default. We are now turning to a short innovation that we have for a long time studied in other models 4K TV. Enter a world of unmatched colors, stunning contrast, and 4K resolution image details (3840 x 2160 pixel screen resolution). The TV Sceptre 4K display provides an output of up to 8 million pixels, four times the resolution of 1080P Full HDTV. It sounds trite and familiar - it's not surprising. All video content is not delivered to the 4K format it will be scaled to UHD. Scaling hardware equipped with a special chipset. Previous video standards Standard Definition (SD), High Definition (HD) and Full High Definition (FHD) are automatically converted to 4K image. It really breathes new life into your old movies. When using the tool 120 MEMC (Motion Estimation and Motion Compensation) all high-motion scenes on the TV screen Sceptre U500CV rendered with excellent quality. Enjoy every moment of the image - all sports programs are perfect for perception. Play video in HD. The port HDMI 2.0 can play video with 4K refresh rate of 60 Hz. Real 4K resolution issued at 60 fps, providing excellent image quality. Supports audio via HDMI 2.0 provides up to 32 audio virtual channels. HDCP 2.2 support enables playback of 4K content from different sources, such as Blu-Ray player, DVD player, and others. This technology is supported by all modern 4K TVs. Sceptre with HDCP 2.2 is no exception. MHL technology allows you to operate your TV, play content from mobile devices. Even it is possible to charge your mobile devices, the MHL function, if it is found in the TV specifications. MHL technology is available on HDMI 2.0 ports. Audio Return Channel technology provides the best audio playback TV system. Using an HDMI cable, the ARC system can communicate bilateral audio signal. The Consumer Electronics Management Feature allows you to control devices via the HDMI interface. Using ARC and CEC, an entertainment system is much easier when it comes to administration. Part of the sound DTS SRS TruSurround HD system provides the best value for treble and bass when playing audio signal. In principle, there is a setting menu - each user can install the best, in his opinion, the parameters. Stylish and sleek Scepter TV chassis was developed in the standard «Halo Stand Design». Characteristic features of visual lightness and stylish metal casings on the screen. - 1 - www.SCEPTRE.com SCEPTRE X405 HDTV User's Guide Dear Scepter Customer, Congratulations on your new SCEPTRE X405 HDTV purchase. Of course, there is a certain feeling in the model number, but there is very little useful information. It can be noted that when decoding the notation it is possible to understand what screen resolution is in the TV, the diagonal of the screen, although here one must take into account the fact that a TV that has a diagonal marking of 50 inches can actually have a 49 inch matrix. More details about TV models can be found in the article TV Sceptre review 2014-2018 comparative table. You can see the label on Sceptre TV in the image. Decode model number Sceptre TV 2014-2020 Type TV Sceptre C – TV screen type or line of TVs, C-curved, U - UHD, E – series E, X – series X, 65 – screen diagonal 8 – the type of chassis in the TV does not carry much information, this figure serves mainly to increase the range of marking of tv. C – in models with a UHD display indicates that the TV belongs to the UHD series. In the E and X series, the color of the TV is displayed. V - means that this TV has only one tuner. TVs with built-in DVD players have the letter D. U - denotes the screen resolution, U-UHD, F - Full HD, S - HD, M - TV modification How to find out what year TV Sceptre R - years of development of TV. R – 2017, S – 2016, C-2015, K – 2014. Since 2017, it is virtually impossible to determine what year the TV model is. But it seems that it is not particularly important that the same TV model can be produced for several years, only the design and model number changes. Changes.
