Casper the friendly ghost book pdf

It's amazing how many comic book fans who grew up admiring Spider-Man, Batman and Nick Fury still retain warm spots in our hearts for Casper Friendly Ghost. Now Dark Horse is excited to take part in the revival of Casper, which remains one of the most beloved cartoon and comic book icons. Casper Friendly Ghost made his first appearance as the star of the famous Paramount cartoons in 1947 and entered the comics in 1949. But after five questions, the publisher of St. John's declined the title. That's when Harvey Comics intervened, and where this book begins. Harvey breathed life into Casper, and from the very first issue of the cover design, stories and works of art, drawn by the same animators who worked on the cartoons, were 2% higher. Valentine II (Vincent E. Valentine II) In the story of the Full nameCasper McFadden (film 1995)SpeciesGhost (deceased man in some versions) Casper Friendly Ghost is the protagonist of the famous studio theatrical animated series of the same name. He is a pleasant and personable ghost, but is often criticized by his three evil uncles, the Ghost Trio. The character was featured in 55 theatrical cartoons made between 1945 and 1959. The character has been featured in comics published by Harvey Comics since 1952, and Harvey acquired the character right in 1959. Casper became one of Harvey's most popular characters, headlined by dozens of comic book titles. After buying Harvey's character, he starred in five television series: Matty's Foundations (1959-1961), Casper's New Animated Show (1963-1970), Casper and the Angels (1979-1980), Casper's New Creepy Adventures (1996-1998) and The Casper Bullying School (2009-2012). The character also starred in the film adaptation released by Universal Pictures, Casper (1995), and later appeared in four films direct on video and for television. The creation of Casper Friendly Ghost Casper was created in the late 1930s by Seymour Reit and Joe Oriolo, first developing ideas for the character and the second providing illustrations. Originally conceived as the basis for a children's storybook in 1939, their idea was initially of little interest. When Raith was away on military service during World War II before the book was released, Oriolo rights to the book at Paramount Pictures' Famous Studios animation division for a total of $175. This one-off payout was all he received, missing a share of the revenue generated from movies, comics and merchandising in the future. Friendly Ghost, the first novelty with Casper, was released by Paramount in 1945 with some differences from the book. In the cartoon adaptation, Casper is a cute ghost-child with a New York accent who lives in a haunted house along with a community of adult ghosts who rejoice in the scare of the living. Casper, however, is a nonconformist among ghosts: he would prefer to make friends with people. He packs his things and goes out into the world, hoping to find friends. However, the animals he meets (rooster, mole, cat, mouse named Herman and a group of chickens) look at him with horror, shout Ghost! and run the other way. A distraught Casper unsuccessfully tries to commit suicide (apparently forgetting that he is already dead) lying on the railway track in front of an oncoming train before he meets two children named Bonnie and Johnny, who become his friends. The mother of the children, apparently widowed and impoverished, at first afraid of Casper, but later greets him in the family after he inadvertently scares off the greedy owner, who, not wanting to own a haunted house, breaks off the mortgage and gives her the house directly. Short ends with her mother kissing Bonnie, Johnny and Casper as she sends them to school, with Casper wearing clothes as if he were a live child. Casper appeared in two more follow-up cartoons, There's Good Boos To-Night and Ghosts We'll Go. There's Good Boos To-Night differs wildly from the later Casper cartoons: although Casper's theme of trying to find a friend and failing in these attempts before succeed also takes place in later cartoons, the tone of this short one turns surprisingly dark when the hunter and his dogs appear, chasing a little fox cub named Ferdy that Casper befriended. While Casper scares the hunter and the dogs away, Casper discovers Ferdy dead after a harrowing chase scene. Fortunately, however, Ferdy returns as a ghost to join his friend Casper in the afterlife. They were later adapted into The Noveltoons before Paramount began the Casper the Friendly Ghost series in 1950 and was released until the summer of 1959. Despite the great success, the series was later criticized by animation historians and viewers, citation necessary mainly because of the history of each recording of the series as pretty much the same: Casper (now a little thinner than the plump figures that appeared in previous cartoons) runs away from the afterlife of a regular ghost because he believes that scaring people can be tiring from year to year tries to make friends, but inadvertently scares almost everyone, finally finds a (cute little) friend whom he saves from some fate, which leads to its acceptance by those who are initially afraid of him. In 1955, the composer Winston Sharples wrote an instrumental theme for Casper cartoons. Harvey Comics Casper has become one of the most famous properties from famous studios. Casper was first published in the form of comics in 1949 by St. John Publishing. In 1952, Alfred Harvey, founder and publisher of Harvey Comics, began producing Casper comics. Casper first appeared in Harvey Comics Hits #61 (October 1952) and then received a solo book, Casper Friendly Ghost, in December. In 1959, Harvey acquired the rights to the character. Casper continued to headline a large number of comic book series, as well as appearing in back-up time stories and guest appearances in other titles. The Casper series inspired three popular spin-offs: Spooky Tuff Little Ghost, Wendy the Good Little Witch, and The Ghost Trio. Casper titles include: Casper Casper Adventures Digest Casper and ... Casper and Friends of Casper and Friends of Casper magazine and Nightmare Casper and the Creepy Casper Trio: Spiritual Beginning (Screening) Casper Big Book Casper Digest Casper Digest Stories Casper Enchanted Tales Digest CasperNe's Ghostland Kasper Giant Size Casper Halloween Trick or Treat Casper in Space Casper magazine Kasper Magazine Kasper Friendly Ghost Casper TV Showtime Famous TV Funday Funnies Friendly Ghost, Casper Harvey Two Packages Nightmare and Casper Richie Rich and Casper Richie Rich, Casper, and Wendy's TV Casper and company Casper and Spectrals In 2009 was published a new comic Casper, called Casper and Spectral Arden Entertainment. Much like Man of Steel and Batman: Year One made with his characters, he updated Casper and a few other Harvey characters for a new audience. After selling 6,400 copies of the first comic book, the last two issues were published in 2010. Television Casper starred in five television shows: 11 Matty in Funday Funnies (1959-1961) The New Casper Cartoon Show (1963-1970) By Casper and Angels (1979-1980) Spook Spook The Thought New Adventures of Casper (1996-1998) Byper's Fear School (2009-2012) After Harvey bought the rights to Casper and many other famous properties in 1959 (including Herman and Katnip, Little Audrey, and Baby Huey), they began broadcasting after the September 1950 theatrical Famous Shorts on a television show sponsored by Mattel Toys called Matty Funday Funnies on ABC in 1959, who introduced the Barbie doll to the public. Other well-known productions of Casper cartoons have already been acquired by television distributor U.M. and M. TV Corporation in 1956 U.M. and M. are renamed only Ghosts we'll go, but is credited featuring Casper Friendly Ghost as featuring Casper in Friendly Ghost. New cartoons were created for The New Casper Cartoon Show in 1963, also on ABC. Casper's original cartoons were syndicated under the name Harveytoons (originally repackaged as Casper and company) in 1963 and operated continuously until the mid-90s. Casper remains popular in replays and merchandising. Hannah-Barbera Productions also gave Casper two holiday specials, Casper First Christmas (which also starred Yogi Bear, Huckleberry Hound, Snagglepus, Fast Draw McGraw, Ogi Doggie and Doggie Daddy) and Casper Halloween Special (aka Casper Saves Halloween), as well as the Saturday morning animated series Casper and the Angels (animated take-off on two live action shows by Charlie and CHiPs). Also featured on the NBC version was a big ghost named Hairy Scary (voiced by John Stevenson). None of Casper's original roles appeared on the show. In 1996, Amblin Entertainment and Universal Cartoon Studios created a new Casper series for Fox Kids called The Spooktacular New Adventures of Casper, based on a 1995 feature that lasted two years and was never seen on television since 1998. Two live-action direct-to-video follow-ups in the film, Casper: Spiritual Beginning and Casper Meets Wendy (who introduced Hilary Duff as fellow Harvey Comics character Wendy the Good Little Witch), were made. They were followed by Casper's Ghostbusters (starring Spooky and Poil from the comic book and animated spin-off of the first film) and Casper's Scare School, which were fully performed in CGI without elements of live action. These films are often referred to as prequels to the 1995 feature, despite the fact that they are heartily contrary to this trait and do not even seem to occur in the same universe. In 2007, MoonScoop Group, in collaboration with Classic Media, TF1 and RH, released a TV show 52 X X 12 called Casper's Scare School. In 2020, Casper appeared in a supporting role in Harvey's Scare Bud episode Of Girls Forever!, a series based on Harvey Comics characters. Movies Main Articles: Casper Friendly Ghost Filmography and Casper Friendly Ghost in the film Famous Studio version of Casper was to appear as a cameo in the remote scene of the Funeral Acme from the 1988 film Who Framed Roger Rabbit. Computer-animated Casper as he appears in live action films Numerous Casper cartoons were released on home video by Universal Studios (via MCA Inc.), which also adapted a friendly ghost into a live-action feature film called Casper in 1995, where he and his evil uncles, Ghostly Trio, were rendered using computer animation that originally created the first CGI protagonist in the film. Film story for the character and and the only time in the series that the issue of his death was resolved. According to the film, Casper was a 12-year-old boy living at The Whisper Estate with his inventor father, J.T. McFadden, until he died of pneumonia after playing in the cold until last night. In 2001, Harvey Entertainment was acquired by Classic Media, which licensed Harvey properties, including Casper, until 2012. Casper made a cameo in a MetLife commercial with several other cartoon characters in 2012. Later that year, Classic Media was acquired by DreamWorks Animation, which in turn will be acquired by NBCUniversal in 2016, and thus Universal Studios, the producer of the original feature film live, now manages the rights to the character and other related characters in addition to restoring rights to the Christmas with The Ghosts of Casper (which Universal itself originally released in late 2000). PC and Casper Games Home article: Casper (video game) Several video games were based on the 1995 movie for PC, Super Nintendo Entertainment System, Game Boy, Sega Saturn, 3DO, PlayStation, and Game Boy Color. In the following years, Windows 95 and Game Boy Advance games were released as sequels to the film. Casper: The Spiritual Launch Center, developed by Sound Source Interactive, published by WayForward Technologies and released in 1998 for PC, is based on a film of the same name and is similar in format to the Disney Activity Center. Set at Ghost Central Station, the player earns Casper coins by completing Casper's spinning squares, Stretch's Memory Game, Fatso's Kitchen, Stinkie's Goo Toss and Snivel's Mix and Match. The player must collect at least 15 Casper coins from these five games to unlock kibosh's magic puzzle. Casper: Friends around the world, developed by real-time Associates, published by TDK Mediactive and released in 2000 on PlayStation. It's basically a 2D side scrolling platform game with occasional back and forth movements. Evil Kibosh invented the device to send Casper's human friends to a place where they would not have a ghost chance to be found and hypnotized by the Ghost Trio in performing their trades. However, Casper finds a page from the Hollywood map, giving him a hint about where to start his quest to find his friends and three missing parts for Kibosh's prison device to bring them home safely. The game is played through ten levels set around the world with 40 friendship crystals in each level to assemble in order to go to the bonus level at the end. Casper: Spirit Dimensions Home article: Casper: Spirit Dimensions, developed by Lucky Chicken Games and published by TDK Mediactive this was the first 3D game to have a movable camera game, based on Casper. It was released in 2001 for PlayStation 2 and 2002 for Nintendo GameCube. Evil Kibosh has taken over the Spiritual World and is also determined to take over the mortal world. Meanwhile, Wendy the Good Little Witch summons Casper, the only remaining free ghost, and opens portals to the Spirit Dimensions to help in their only chance of defeating Kibosh. Casper and the Ghost Trio, designed by Data Interactive and published by Blast! Entertainment it was released in 2007 on PlayStation 2. This is a 3D game in which Casper has legs and depends on gravity, although he can slide, unlike his ability to fly in the Spirit Dimensions. The Ghost Trio kidnapped Wendy the Good Little Witch in an attempt to use her magic to create a potion that will give them the power to rule Ghostland. Wendy manages to use her magic to deliver a message to Casper, who has to find his way through six levels to save her. At the end of the first five levels is the bonus stage in which Casper must as many jewels as he can, avoiding the trio trio who haunts him. Casper's Scare School Home article: Casper's Scare School (video game) series of three games, for PlayStation 2, Nintendo DS and Wii, based on a computer animated film and TV series of the same name released in 2008 and 2009.
