The Catch-22 is about a bombardier named John Yossarian, a mock-Assyrian who believes his ambitious, Catch-22 commanding officers are more dangerous than the Catch-22. To avoid flying more missions, Yossarian concocts a mysterious liver ailment, sabotages his plane and tries to Catch-22 himself declared insane. Yossarian discovers that, in the military rule book, anyone who is declared insane must be excused Catch-22 flying death-defying missions.

The catch is that one must ask to be excused. But anyone who is smart enough to show "rational Catch-22 in the face of clear and present danger" obviously is sane and must continue to fly. In his novel, Heller went beyond a simple anti-military stance. Some critics found a condemnation of capitalistic practices in the character of Milo Minderbinder, a money-grubbing former mess-hall officer whose pursuit of profits caused suffering and deaths.

Interpreting the meaning of "Catch" in his book, "Bright Book of Life: American Catch-22 and Storytellers From Catch-22 to Mailer," the critic Alfred Kazin said that Heller's novel "is really about the Next War, and thus about a war which will be without limits and without meaning, a Catch-22 that will end when no one is alive to fight it."

The theme of "Catch" is the total Catch-22 of war, the craziness of all those who submit to it, and the struggle of one man, Yossarian, who knows the difference between his sanity and the insanity of the system.

A portrait gallery, a collection of anecdotes, some of them wonderful, a parade Catch-22 scenes, some of them finely assembled, a series of descriptions, yes, but the book is no novel.

One can say that it is much too long because Catch-22 material -- the cavortings and miseries of an Catch-22 bomber squadron stationed in late World War II Italy -- is repetitive and monotonous. Or one can say that it is too short because none of its many interesting characters and actions is given enough play to become a controlling Catch-22. Its author, Joseph Heller, is like a brilliant painter who decides to throw all the ideas in his sketchbooks onto one canvas, relying on their charm and shock to compensate for the lack of design.

Catch-22, from the original Times Review of "Catch," Oct. But its arrival was not that auspicious, although the novelist Nelson Algren, writing about it Catch-22 The Nation, called it "the best American novel to come out of World War II" and "the best American novel to come Catch-22 of anywhere in years. Many other reviewers felt like Richard G. With poor reviews from some of the most influential publications, "Catch-22" got Catch-22 to such a slow Catch-22 that it might have faded away completely were Catch-22 not Catch-22 strong Catch-22 by people who had read it and passed it along to friends.

One such reader was S. Originally, the book and the rule were both to be called Catch-22 but that came close to the title of a book written by Leon Uris. So Heller changed both to "Catch" and it is by that tag that it has entered the dictionaries and the language. In time Yossarian became everybody's favorite survivor; by the mid, Newsweek was referring to the "Heller cult," most of them young people addicted to the book. A number of college students who did not want to be conscripted to fight in the war in Vietnam started wearing Army field jackets around campus with Yossarian nametags.

This is compared to an earlier reference in the book, where a military policy requires that soldiers can only be discharged Catch-22 insanity Catch-22 they are both insane and ask for discharge.

However, asking for discharge if you are insane is a sane act, Catch-22 you cannot be insane. Therefore, getting a discharge for insanity is actually impossible.
