Experience Sendai as a Local!

Go deeper with a variety of tours, activities and workshops. i-SENDAI (SENDAI Tourist Information Desk) organizes many activities to bring together visitors and locals. Our English-speaking staff and volunteers make for a worry-free experience. Visit our website to find out more and sign up!

If you need any travel assistance, contact us online, by phone or at our desk at Fujisaki Department Store.

Local Food

Surrounded by mountains, plains and ocean, blessed with fertile soil and fresh water, the Sendai region is a destination for food lovers. From traditional country dishes to contemporary cuisine, let us introduce you to neighborhood markets, talented chefs, and locals' favorite bars!

Shopping

At first glance, downtown Sendai may look like any other city in Japan with global brands and national franchises. Yet if you know where to look, you can find local shops with unique local flavor. Let's have an only-in-Sendai shopping experience.

Culture

From art to live music to traditional Japanese culture to modern nightlife, we have a variety of activities to immerse you in the culture of Sendai. Let local curators, shop owners, or performers be your guide.

Crafts

Rooted in its distinctive culture and climate, the Tohoku region of northeastern Japan has many traditional crafts. We organize a variety of activities where you can learn from skilled craftspeople and have a hands-on craft-making experience.

Learning

Although many things are back to normal, it is impossible to know this region without knowing about the earthquake and tsunami of 2011. Our activities include guided tours to a memorial center on the coast, a visit to see the tsunami remains, and importantly, meeting with disaster survivors. Learn lessons from the disaster and about the status of the recovery.
