There are plenty of fun old-fashioned weapons for Arthur Morgan to play with in Red Dead Redemption 2, but many players have been wondering where they can get their hands on the undoubtedly satisfying pump action shotgun in particular. It is available for free at the beginning of the game and offers a big damage boost that will prove very handy. Unfortunately, the location of its somewhat confusing, so in this guide we will teach you step by step where to find the pump action shotgun in Red Dead Redemption 2. (Psst! Want to try your hand at tracking animals? © Rockstar Games First, if you pre-ordered a special or Ultimate Edition game, you'll already have access to shotgun pump action from a local gunsmith at the beginning of the game. You can pick it up for free, so head there and save yourself a lot of trouble. Those with a standard edition of the game or who don't pre-order can still get guns, but you first have to put in a bit of work. The weapon is in the lock box in Chez Porter, but you won't be able to find it there unless you've completed the first one to be Javier's last search. It's easy to wander off a less interesting main storyline at the start of Red Dead Redemption 2, but it's well worth playing so far to clean yourself up with powerful weapons. Complete this mission in the area and then head towards Chaz Porter. To get to the place, you just need to head from behind north of Valentine's Day. Cross the Dakota River and you'll find Chaz Porter northwest of Windows Rock on your map. It's not a huge marker, but it will come as a named place. Be careful though as there are many enemies here. You will need a lot of ammunition, but as long as you come prepared and use cover, you should be able to bring out all the enemies here. © Rockstar Games with the camp cleared, enter the large southeast cabin and head upstairs to the back left room. The box with the shotgun will be up the stairs at the back of the room, beautiful and easy. If the weapon doesn't show up for you, double make sure you complete the first mission and then recharge the area. It's free, powerful and available early on, making it well worth the effort in tracking. If you're really struggling, you'll also end up unlocking the ability to buy a pump action shotgun after progressing far enough through Chapter 2 of the main story. Earning such a powerful weapon this early will likely leave you pumped to complete a few more games, so take a look at our other Red Dead Redemption 2 guides. Click here to learn how to lose this stench, wash Arthur, or here to find out the location of all the legendary fish in the game.
