Si bob ong maaari bang malaman ang iyong pangalan? Victoria. Kailan Kita Masisilayan, Victoria? Sa iyong pagsilang. Perhaps the most common difficulty and challenge that everyone noticed was the order of how it should be read. If you read it both ways, it would certainly make sense anyway. Readers can see in him memories of chronological events through significant and pragmatic events in his life or as a person, chronicling and documenting his entire life story. It actually gives you some variety of nostalgia feels. You put on the shoes of this senile old stager trying to remember his past, starting with the most modern, other way back, until he met his soul mate and so on. Oddly enough, each chapter can be seen as the main character and narrator of age from chapter 0 - 72, as it was written from a first-person point of view. Predominantly, Si redefines love as the story decides the reality of love that doesn't focus on romance between two lovers. He decides mercy in his many figures, how you can pass them in his life - namely Agape (love for God), Eros (romantic and sexual love), and even Storge (family love) - and how the hero and narrator experiences these kinds of love in the most turbulent years of his personal and country. You would actually ask the question of what happened rather than what would happen, and this writing style really works in a novel in which readers want to dive into the water in order to look for a story. The novel's versatility is notable as it shows the voice and tone of the writer, from the modern language era to eroticism, then the perspective of a young child. As the kid became younger, the flair of writing changes too. The book Si got our interest because writer Bob Ong. He is well known and known for having dynamic character as the story goes on, and the involvement of this kind of style was evident in the story. The main character and his beloved Victoria have shown the true definition of love and its many forms. The story solves the reality of love, which does not focus on the romance between two lovers. Si Bob Ong is attracted to it will make you read it over and over again. This is a substantial book worth reading among other books because it contains not only one file content, but a varied and extensive meaning if you engage and immerse yourself in it. This is recommended to all people who want to love and redefine love again, those who have fallen victim to love, and those who want to be inspired by a love story that is not always filled with romance. Me: Magandang arau, Bob Ong fanatics! Forgive me for speaking in English though what we will discuss today Si Bob Ong. Presumably, the means of communication should be filipino. However, we have foreign friends on Goodreads who may feel out of place. (Throat clearing) Before I share with you my thoughts on Si written by Bob Ong. Let me touch on a little information about who Bob Ong is for our foreign friends to have an idea of who the old man we're going to talk to. If you look it up on Wikipedia, Bob Ong is a pseudonym of a modern Filipino author known for using colloquial writing techniques to create humorous and Life. The author's real name and identity are unknown. Although his books were bestsellers, he was never known in public. That's why some documentaries have been made to find out who this Promethean man is. There are some prominent Filipino writers or television personalities who were mistaken for Bob Ong, but they all turned out to be different from Bob Ong's writing styles. Now, let's get down to business. My very first impression of Bob Ong's books was that most of his books were similar to student entries for Campus Magazine. (One reactionary reader will interrupt.) Fanatic 1: With all due respect, ... Joey? If I can I appeal to your name ... Me: Yes, you can. Fanatic 1: Joey, uh, I think you're a chair critic. You're subjective. I believe you were still a student at the time. Admit it. You're addicted to his books, aren't you? Me: Yes, I'm subjective, so I believe that all reviews of Goodreads are not objective, right? And I wasn't addicted to his books. I happened to read his books because they were hyped until my friend suggested I read one of it. I was such an ignorant and poor reader at the time. I didn't have access to great bestsellers, especially Filipino. All I've ever read are stories in school textbooks. But when I started reading his other books at university, at that moment, I realized that I was tired of them. I wish there were Goodreads already at the time. I could write my thoughts about them. Also, I could be a hypocrite if I insisted that Bob Ong was my favorite Filipino writer. Fanatic 1: If so, who was your favorite author? Me: I'm sorry that we seem to get around this topic. Given that Bob Ong can write any genre with, like what others have noticed, like what you have (gesticulating at Fanatic 1) such as conversational, essays, horror, stories that deal with social issues in the Philippines, but for me, I would say that his work is not on par with other critics and award-winning books. Apparently, his books seem to be meant for money. Fanatic 1: It's a cheap shot. I believe that Bob Ong writes such books because he wants to inform, educate, and entertain. And, of course, in a capitalist country, books somehow deal with money. Also, you can't deny the fact that because of Bob Ong, young readers are motivated to read and support our Filipino literature. In fact, as far as I know, because of Bob Ong, many writers now follow his style. In short, it is the beginning of all writers today, such as Bebang Sy, Genaro Gojo Cruz, Noringai, to name a few. Don't you think so? (Provoked by his word cheap shot) I: Just without a doubt, his other books have never been nominated by the National Council premium, except for this Si. And it's somehow important with what I want tell you about after reading it Si. Plus, if you don't mind, let me first finish my review of it instead of heckling me. (sighing) Fanatic 1: (irritated) Marked... but the NBBA must have requirements, whether the book is right or not. Me: Definitely. Its requirements should be standardized, intended only for books that are considered critical. Anyway, thank you for making sure I went to my request. After reading Si, I realized that Bob Ong could write something award-winning. In Si he

wrote a beautiful Philippine prose. He wrote lyrical, poetic, quixotic sentences. I was impressed. I fell in love again with someone I pushed down in the darkest part of my subconscious. In fact, I loved repeating passages as if I were chanting yoga prayers. I asked myself then if it was Bob Ong who was telling me the story. It seems that he is not the author of this book. Did a friend of mine lend me another book? Yes, it was him. Because somehow, I felt his trademark, the way he gathered all the realistic and vicarmeal information and experiences of other people to form one conceptualized story, although there are some parts I found rooted like the ones in his other books. Most importantly, I was a victim of his work. That's his style. He wants to make a turn whenever the reader goes to the climax. I think you know what I'm talking about if you've read it. (Another fanatic would ask me but calm as opposed to the other.) Fanatic 2: So why did you give it four stars instead of five? Me: Bo Ong is an experimental and brilliant writer. He always surprises us whenever he has a new book. In this book, obviously, his intention is to surprise us, but this surprise is not natural to me. It is noticeable that he has included such tactics to have a big impact on me. For example, I didn't know that I had to start reading it from the back. Such a clever idea as your friend who will make fun of you by taking it back as a joke, but you don't think it's funny at all. You could giggle, Ang banal ha! In addition, obviously, there are some parts that seem to have been taken a deep impression of television news, newspaper articles, hairdressing stories, and the so on-style he was known for. Fanatic 1: Your standard is so high. So how do you seem to be a chair critic, what did Bob Ong do? (I still felt bad feeling he was harboring.) Me: I don't know. It's just my subjective analysis. But I hope when Bob Ong writes another such novel, I mean something more critical than his other books. He has to make it consistent, as in his readers seem to be reading a real novel. Fanatic 1: What do you mean coherent? Me: I want to read a novel that I'll just follow the flow of history, as if I were just merging with them something I didn't see in my books. Fanatic 3: Since 4 stars meant I really liked it it Goodreads, what parts of the book that made you really like it? (This is another fanatic who will listen to me all ears, but tend to make a face when I explained something he might disagree with.) Me: The depth of some passages about love. The concept of history is because it reflects the typical married and family life of our parents until they are older. This reflects the universal fact that parents become parents from a romantic life until they build a family as they take care of their children well despite life's difficulties. I see this situation in my parents and in my friends, and even in myself, if I were predetermined to build my own. Fanatic 1: So you expect something more than Bob Ong. (This time, he seemingly composes himself.) Me: Yes, I'm following him now. So, I'm so sorry to you. Fanatic 2 : Well, despite your caustic thoughts, welcome to the club!!! Fanatics: Welcome to Bob Ong's Club!!! (Back to reality) Writers could build mass hysteria, Gee! ... More...
