Lincoln a photobiography pdf

1988 Newbery Medal winner Abraham Lincoln stood out in the crowd as much for his wit and rollicking humor as for his height. This biography of our President of the Civil War, won by the Newbery Medal, is warm, attractive and illustrated with dozens of carefully selected photographs and prints. Russell Friedman begins with a lively story about Abraham Lincoln's childhood, his career as a country lawyer, and his courtship and marriage to Mary Todd. The author then focuses on the presidential years (1861-1865), expertly explaining many of the difficult issues with which Lincoln struggled as he led a deeply divided nation through civil war. The final chapter of the book is a touching account of that tragic evening at the Ford Theatre on April 14, 1865. The final sampling of Lincoln's writings and a detailed list of Lincoln's historic sites concludes. This name was chosen as the general main example of the text (classes 2-3, Read aloud the information text).

The book won the Newbery Medal in 1988. It was the first non-fiction book to do so in 30 years. Photobiography covers Lincoln's entire life: his childhood, his time as a lawyer, his and marriage to Mary Todd Lincoln, as well as his ascent from congressman to president. Final Final it's a story about Lincoln's murder and death. The photographs and drawings that fill the book are taken from many sources, including the Abraham Lincoln Museum, the National Portrait Gallery, and other historical archives. Many of the photographs are portraits of Lincoln. Friedman uses them as a focal point in his narrative. In the first chapter, he recounts how Lincoln looked at himself and often made fun of his appearance. Friedman later posts four portraits of Lincoln on one page to show how old he was throughout the Civil War. Friedman uses many portraits of Lincoln throughout his book. Critical Reception As a recipient of the Newbery Medal, the book received mostly very positive reviews. According to Kirkus Reviews, while photography makes a big contribution, it is Friedman's talent for putting the right details into uncomplicated prose, which provides a very poignant focus for this Lincoln portrait. The New York Times praised Friedman for his extensive research, as well as for writing about a complex topic for children, choosing trust in the intelligence of a young reader, though the review also stated that Friedman omits some of the necessary perspective for his modern young readers of all races. The author of this newberry-winning biography, Russell Friedman, is no exception, as I am. he had known poverty for most of his early life. But it also lets its readers know many other pieces that they may or may not know. Some examples: Did you know that Lincoln buried his mother at the age of 9 and his only brother at the age of 18? Did you know he was crazy, in love with his wife? Did you know that he had a vivid energy about him, a combination of a warm, playful sense of humor and a deep, intense ability to empathize with human suffering? Did you know that he was known for his story and a friend noticed that he relied on his yarn to whistle sadness? Did you know that he buried 2 of his 4 sons? Did you know that when he was killed, he was wearing a pair of gold-rimmed glasses he straightened with a string? I swore I wouldn't cry any more at the end of another book about Lincoln, so instead I distributed it, crying in jags all over the book. I cried over The Image of Lincoln, sitting alone before a debate with the great speaker, Stephen Douglas. Stephen Douglas, who seemed a natural and predetermined winner of the upcoming contest. Douglas had his success, his entourage, his cognac and cigars, and Lincoln, tall and gangster, seemed simple in his rum crumpled suit, carrying his notes and speeches in an old carpetbag, sitting on the platform with his bony knees protruding into the air. I cried that Frederick Douglass, the most influential black leader at the time who initially criticized Lincoln for being insufficient, eventually changed his mind and said of him: He was the first great person I spoke to in the United States freely, who in no case reminded me of the difference between myself and me, the difference in color. Lincoln was not just the Great Liberator, he was the man who was tasked with the nightmare: to destroy the nation to make it whole again. And here we are again... able to break badly. It was gratifying to recall that great people, great leaders walked all over this earth, at different times. It turns out that later you can identify them by early death. Old bastards live forever. ... Over 1988 Newbery Medal winner Abraham Lincoln stood out in the crowd as much for his wit and rollicking humor as for his height. The school's library magazine began its review of Lincoln: A Photobiography, saying, Few, if any, of the many children's books about Lincoln can be compared to Friedman's. This is, of course, a strong statement, but we cannot say that we do not agree. If you're going to have one book about Lincoln in your grade 5-9 class, it probably should be. Friedman presents a compelling and complete portrait of Abraham Lincoln, describing his childhood, his family life with Mary and his children, his early professional life, his presidency and his murder. Throughout, the reader gets an idea of who Lincoln was as a person, what he believed, what he stood for, and what he thought of the controversial issues. The school's library magazine finished its review by saying: Like Lincoln himself, he stands head and shoulders above his contest. Again, we agree. At the end of the book Friedman provides useful resources such as: - Lincoln Sampler - five pages of some of Lincoln's most famous quotes - In Lincoln's Footsteps - a detailed list of ten Lincoln memorials, monuments... - Books about Lincoln - dozens of book-related sentences for further reading It also includes a thorough index, and along with absorbing text, enough photos, and additional information sections, this is a fantastic resource for students to report on Lincoln.
