

Rush - Lessons

[Verse 1]

Sweet memories flashing very quickly by
Reminding me and giving me a reason why
I know that my goal is more than a thought
I'll be there when I teach what I've been taught
And I've been taught

[Chorus]

You know we've told you before
But you didn't hear us then
So you still question why
No! You didn't listen again
You didn't listen again

[Verse 2]

Sweet memories, I never thought it would be like this
Reminding me just how close I came to missing
I know that this is the way for me to go
You'll be there when you know what I know, and I

know

[Chorus]

You know we've told you before
But you didn't hear us then
So you still question why
No! You didn't listen again
You didn't listen again
