Sign up for the best newsletter ever! These Safeway monopoly cards are Glengarry leads. For you, they're gold. But has anyone ever won so much as a 99 cent box of macaroni & cheese playing Safeway Monopoly? I've seen a lot of card collecting and not so winning in years that this very sophisticated grocery store game of luck has been rebooting annually. So we put the team broke my ass about to determine whether the Safeway Monopoly game ever produced any winning tickets, and what chances to even win anything. The Safeway Monopoly upgrade goes from February 5th to May 5th, 2020, and you can still claim the winner until May 28th, 2020. In addition, it's not a Safeway monopoly - it's technically called shop, game, win and card also nationwide in Albertsons, Vons, Jewel-Osco and tons of regional food chains you've never heard of. There are 2,200 grocery stores nationwide offering hundreds of millions of monopoly game parts. And that's why your chances of winning anything in this monopoly game are so low. The chances of winning anything monopolized by Albertsons/SAFEWAY are your chances of winning the million-dollar prize in this game 1 in 552 million per ticket. Only two people have ever made \$1 million, one in 2017 (Dorchester, MA) and the other in 2018 (Idaho Falls, ID). But one of our commenters won \$1,500 TV in 2017 as you can see in the comments below! The chances of winning all the other prizes are listed in the online monopoly game Safeway and we also compiled them below. We have a data set to collect and win the game board game to collect the game pieces, and another set of chances for rare game pieces where you win the entire prize instantly with a lucky ticket done. Anecdotal reports on social media show that most people who won anything received prizes worth \$3 or less, or a \$5 discount that required buying \$50 or more. The odds listed below are for individual tickets. You may have accumulated a lot of tickets between now and May 5, 2020. Any additional tickets you gain will improve your chances.
