. . This was a problem that Fallout 4 modders were already having when they wanted to give this data to the player before patch 1.10.130 (26th August 2018), the data from the game's installation itself was incomplete (without version 10.0.130). But the Fallout 4 files that the mod authors were able to get was a patch of Fallout 4 that uses the following content: Fallout 4 - Interface.ba2, Fallout 4 - Interface.stl.zip, Fallout 4 - Interface.zip, Fallout 4 - Interface.xml, Fallout 4 - Interface.xml.zp1 Data from this data is then put into Fallout 4 - Interface.ba2 so that a modded data file will look like this: Data from Fallout 4 - Interface.ba2 This data file can then be put into any mod that the player uses - by copying it to the Data directory (C:\Program Files (x86)\Steam\steamapps\common\Fallout 4\Data) or into the data directory of the mod you want to use. Here are the Fallout 4 data files that I was able to get for myself (so you know where you can get them). The mod author was able to get these files from this other mod author's mod. This mod author was able to get these files by just copying the files on another mod author's mod. Fallout 4 - Interface.ba2 Fallout 4 - Interface.stl.zip Fallout 4 - Interface.zip Fallout 4 - Interface.xml Fallout

4 - Interface.xml.zip1 Fallout 4 - Interface.xml.yml Fallout 4 - Interface.xml.c Fallout 4 - Interface.xml.t Fallout 4 - Interface.xml.mc Fallout 4 - Interface.xml.txt Fallout 4 - Interface.xml.json Fallout 4 - Interface.xml.wtf Fallout 4 - Interface.xml.xsd Fallout 4 - Interface.xml.stl Fallout 4 - Interface.xml.zip2 Fallout 4 - Interface.xml.wad 520fdb1ae7
