(FORMERLY BIOCARBON ENGINEERING)

Automation and Intelligence for the Natural World

www.dendra.io

NOV 2019 • MANIFESTO

Our mission is to enable scalable restoration for the natural world.

We serve our customers with integrity and are true to our mission holding the values of

BE INQUISITIVE

Ask the question. Challenge the status quo. Learn across the linkages. We expand the art of the possible.

THIS IS THE YEAR THAT COUNTS

We change the world today, not wait for tomorrow. We get to choose the challenges we tackle, the questions we ask, the way we solve them. We get to say ‘how high’. We remain persistently positive.

HONESTY OVER EASY

When the situation is tough, we stay true to who we are. We say it as it is..

GYSHIDOMA

We have a bias towards action. We commit, we do, and we take initiative. We get it done together.
