

Experience MAGIC (Corporate) BEGINNER COURSE

Course Outline:

Our magic workshop for adults is designed for absolute beginners. We go through a selection of simple Magic & Mentalism effects which can be performed with little practice. More importantly, we go through the theory and psychology behind the art of performing magic which can help in everyday presentation skills and confidence building.

This is usually a 1 to 1.5 hours event on which the focus is teaching groups of up to 30 people very basic sleight of hand and magic tricks. This style of event can be used as a one-hour break out session during a motivational day, training day, or seminar.

This in itself is a fun thing for staff to be doing in order to break up their busy week but the real purpose is to encourage staff members to provide each other with constructive criticism for the tricks they are learning.

Learning how to give and receive constructive criticism is paramount in personal and professional development.

Teaching goes on for around 40 minutes, and the session closes with entertaining staff with a 10 - 15 minutes Close-Up Magic performance to finish on a high and leave your staff with a sense of achievement and bewilderment.

Our coaches are professional magicians with years of experience. Most of them started their journey in magic for over a decade. They have performed hundreds and thousands of shows to all types of audiences. There is no better way to learn magic than a step by step teaching course from a real life magician with industrial experience up their sleeves.

The course will consist of a basic introduction to magic techniques and a brief performance by our trainers at the start before going through to more advanced instruction on the methods. We will be teaching the technical, presentation and misdirection techniques that are important for all types and levels of magic.

The important aspects of presentation skills, problem solving and improvisational skills will also be introduced and developed throughout the course.

Course Details:

The basic course information is below, however this may well change depending on the specific requirements of the delegates:
