Grand Theft Auto IV: Complete Edition – Razor1911 Overview of the game Grand Theft Auto IV is an open-world action-adventure video game developed by Rockstar North and published by Rockstar Games. Set in the fictional state of San Andreas, the game takes place mostly in the city of San Fierro, as well as the neighboring towns of Las Venturas and Las Perlas. Other places include San Pancho, and the deserts of Diamond City and San Miguel. The protagonist is Michael, a petty criminal. His goals in the game are to obtain a virtual representation of the Neon, the future currency of the city, and to bring down the criminal empire of the Marias. The game is played from a third-person perspective, and the player can control the protagonist at any time, rather than being constrained by the protagonist's objectives. At the game's beginning, an unnamed character called "the Director" congratulates the player for completing one of several missions. Although the player can continue to play, completing a mission will unlock more areas for exploration and allow the player to acquire more weapons and vehicles. The player's progress is saved to a USB flash drive. During the initial game, the player can choose between various radio stations, with each station broadcasting a different song.
