I have been collecting and using a lot over the years, but nothing is ever perfect for my needs. A few weeks ago, I started tricking around with the idea of creating some of my own chart. To that point, I started looking for software to help generate pictures of chords- but I didn't find anything with the kind of power and flexibility I wanted. So I went ahead and wrote my own program. After weeks of disjoying, I was finally pleased with the decision. Here they are, the first version of my own free ukulele chord chart! Ukulele Chord Chart (Standard GCEA) [445k PDF] Ukulele Chord Chart (BARITONE DGBE) [445k PDF] Ukulele Chord Mini Chart [1.1M PDF] The first two are each single-letter page (8.5 x 11) and contains 120 per page of letter size (8.5 x 11) and contains 120 per page of letter size (8.5 x 11) and contains 120 The third has both sets of chords , each page is on half of a letter-sized page. It is perfectly mobile, designed to be folded or cut in half. Throw the change in your gig bag! My design options include: Stay close to the beans, choosing an open chord where possible. chords where some strings are not played. (I hate those people.) There is no sign for barre or finger position. Prefer labelling with flats rather than sharp. All three cord charts are under the Creative Commons Attribution 3.0 Unported license. Basically it means you're free to do whatever you want with this chart, even selling them, as long as you credit me with having made them in the first place. First. Wait, there's more! As an added bonus, I also provided an image of the individual chords I produce for the chart: GCEA Ukulele Chords PNG [304k ZIP] DGBE Ukulele Chords PNG [304k ZIP] To solve it, I don't care what you do with this raw image. With the program I wrote, I can create all kinds of custom chord images in the coming. So, to the fullness of what is possible under the law, I set all copyrights and rights related to or in line with these images. Use it in your own charts and song sheets. Use it for education. Use it for commercial purposes. Don't ask for the truth. Give me credit if you feel that way, just don't take credit because it's not cool. Enjoy and be happy strumming! Jon P.S. Remains on the chart for more chords in the future! P.P.S. Yes, I will finally release the program I wrote to generate the rajah image. He just wasn't quite ready for prime-time.

P.P.P.S. I've released a program I wrote to create images. Download Chordious today! UkuChords brings you the ultimate ukulele chord reference tool!
