

AEROSPACE

CHOOSE A CERTIFIED AEROSPACE PROGRAM
OPEN TO HIGH SCHOOL STUDENTS - SEATS ARE LIMITED

Choose Aerospace, Inc.

Students will work with local aviation mechanics. The industry-backed curriculum has been vetted by industry partners as both accurate and pertinent to today's advanced manufacturing occupations.

The objective of the Choose Aerospace curriculum is to expand aviation and technical training in secondary schools and provide multiple career paths to success within the industry.

The program will prepare students for the FAA mechanic certification exam. The Choose Aerospace curriculum aligns with FAA Mechanic Airman Certification Standards to cover the knowledge and skill required for FAA mechanic certification.

Aviation Mechanic Interest Form
