When I clicked on the problem shooting tips for scribble Scrubbie, I was given an error that said sorry oops but we couldn't find the page you were looking for. Also, where it says the email just says click here but there is no link to click. I've removed more apps on my iPad and we have an extra 10GB of free space available. And also now the app is crashing more than ever. Every time my daughter tries to play and go in the tree/house, the app tries to load and then crashes. 100% of the time! Your developer really needs to see this because I see other reviewers saying the app also crashed on them. My daughter loves this game but it is so frustrating that it constantly falls and just closes. My 4-year-old son doesn't understand which no doubt upsets me which frustrates me. I've done everything I know to do. I've closed all other apps, I've removed apps we didn't use, I've closed them and reopened them, and we've completely removed the app and reinstalled it, all my efforts were unsuccessful. Oh, man! We're sorry for your little one's annoyance with his Scribble Scrubbie app, Bryan. Obviously this wasn't the experience we intended, and we wanted to help. Since you're still having problems after reinstalling the app, we'd like you to contact us bit.ly/crayolaappsupport so we can learn more. Stay tuned to hear from you soon. -Taylor, Colorful Care Team Ages: 36 months - 5 years Age: 36 months - 8 years Visit the help section or contact us © 1996-2014, Amazon.com, Inc. or affiliates Are not American users?
