How Manychat Helps Brands on Social Media

Manychat helps you create meaningful conversations with customers, ignite engagement, drive more sales, and convert more followers into buyers using 100% approved Meta-approved chatbots.

Grow your followers with no extra content

- ☑ Grow your Instagram followers with smarter engagement.
- Manychat is the safe automation platform that drives higher engagement to attract thousands of new followers who love you for who you are.
- When you use Manychat, you're inviting smarter engagement so the Instagram algorithm pushes your content in front of the right audience more often without changing, adding, or subtracting from your existing content schedule. As the algorithm favors your content and expands its reach, your account gains more followers.

Double your email list

- ☑ SPOILER ALERT: You don't own your Instagram followers!
- If your account is suspended or hacked, you could lose all of your followers. Using Manychat, you can add your leads to an email database or CRM you own, so you continue to nurture your leads, priming them until they're ready to buy.
- HERE'S HOW IT WORKS: Once a follower comments on your post or Reel, Manychat sends a message to their DMs. In the Instagram DMs, Manychat can also ask for an email address. Once the follower types it in, Manychat can automatically add it to your email software, so you can continue to nurture your audience on a list that you own.

Real-life Results

Over the course of 10 months, <u>AMY PORTERFIELD</u> collected **18,634 NEW EMAILS** using Manychat. Despite being in business for years, Amy still makes hundreds of thousands of dollars in revenue from her email list to this day!

JENNA KUTCHER'S funnels have collected 38,490 NEW EMAIL ADDRESSES, and generated \$900,000 IN SALES. The best part? 95% of these results are from free, organic content.

Increase engagement and stop relying solely on IG algorithms

- Description Automatically like and respond to every comment on your posts, and send more information to your followers' DMs, including product links!
- Natch as your content increases your reach and visibility while capturing and qualifying more leads and building a list of high-quality contacts.
- D HERE'S HOW IT WORKS: With Manychat, you post as you normally would, and invite engagement with a simple call to action. Your CTA includes a keyword, like the word FREEBIE. This keyword is set up in Manychat. When someone comments your magic keyword on your post or Reel, Manychat sends a DM with more information to the person who commented. Rinse and repeat!

Real-life Results

Online entrepreneur and New York
Times bestselling author <u>JENNA KUTCHER</u>
used this strategy and generated
\$491,659 IN REVENUE!

Convert ®

"Link in bio" is a dead end ("Link in Bio" is killing your IG account)

- Stop sending your potential customers to link in bio. When you send users from Instagram to external sites, your IG reach, engagement, and conversions are low.
- Instead of using the 'link in bio', make every post, story, Reel, or live an entry point to a conversation using Manychat. With Manychat, you can set up automatic responses to send links directly to their DMs.
- Tevery comment is a start of a conversation and every conversation is a potential sale.
- ∇ On average, the click-through rate for 'link in bio' stands at 1%, whereas the rate for links in DMs is a substantial 46%.
- Too many links in bio? Your leads get lost, and then give up! Remove the friction. Ask followers to drop a comment with a keyword instead.

Stop answering every single DM (and sending every link) manually

- Free up hours each day and reply to every single comment on autopilot without the dreaded feeling that you forgot to send the link.
- Your followers never leave Instagram keep all conversations (and links) in the DMs to increase sales
- Push your content to the top of the algorithm with higher engagement thanks to automated comment replies. Plus, send leads further down your funnel so they're more likely to purchase from you.

Bonus

No tech experience needed! Write your messages using Manychat's Al Assistant

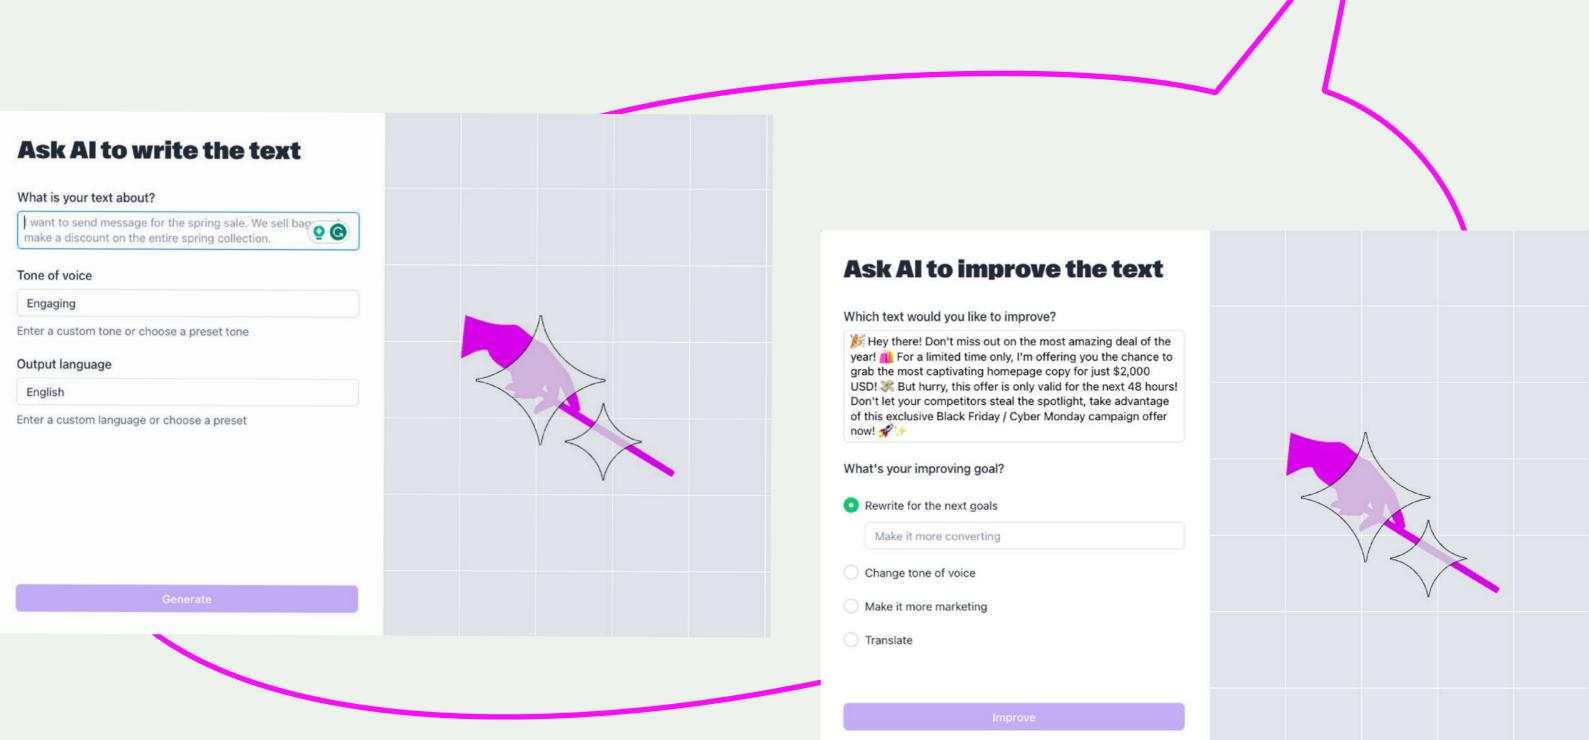

Manychat AI Assistant can help you:

- Write your message text

You simply enter a short prompt about what you want your message to say, select your preferred tone of voice, and the output language!

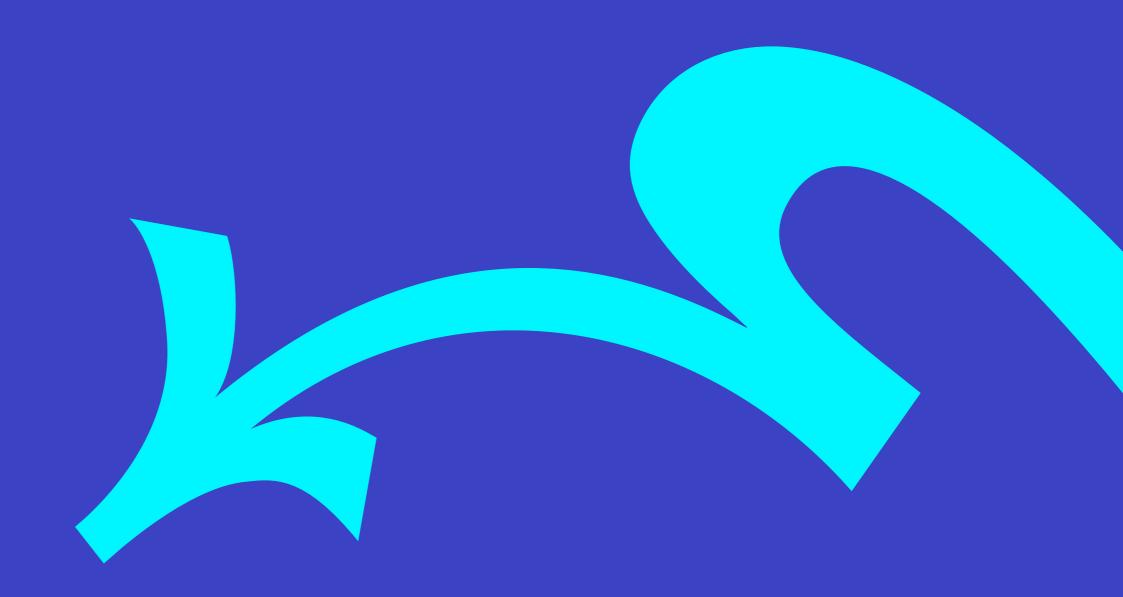

Al Assistant can also help you improve the text it's generated, or the message text you've written yourself. All you need to do is give it some short, simple information like:

- Rewrite the text for a specific goal
- Change the tone of voice
- Make it more tailored to marketing
- Translate to another language

Grow

- Stop saying link in bio on your posts! This is an outdated strategy, and it won't work in 2024. In fact, posts with link in bio receive, on average, a 50% lower engagement rate. So what should you do instead? Use comment to DM automation. This way, your audience will comment under your post and receive the link to DM. This will increase your engagement and clicks on your link. Amazing, right? It's super easy to use, and it's approved by Instagram. Comment [YOUR KEYWORD HERE] to see how it works and to receive the link to register with my favorite automation tool, Manychat.
- The link in bio tactic is a reach and engagement killer! Instagram prefers keeping users on its platform, not sending them off to an external site. So, what's the workaround for selling? Prompt your audience to comment a specific word, and boom! Manychat will send the link to their DMs. Just like that, you boost interaction and visibility. And yes, it's 100% approved by Meta, so you won't get your account disabled. Want a demo? Comment [YOUR KEYWORD HERE] and I'll reveal all the details.
- If you really want people to click your link, don't say "click the link the bio". Do this instead... Use comment to DM automation. This way, your audience will comment on your post and receive the link right in their DM. This will increase your engagement and clicks on your link! It's super easy to use, and it's approved by Instagram. Comment [YOUR KEYWORD HERE] to see how it works and to receive the link to sign up for my favorite automation tool, Manychat.

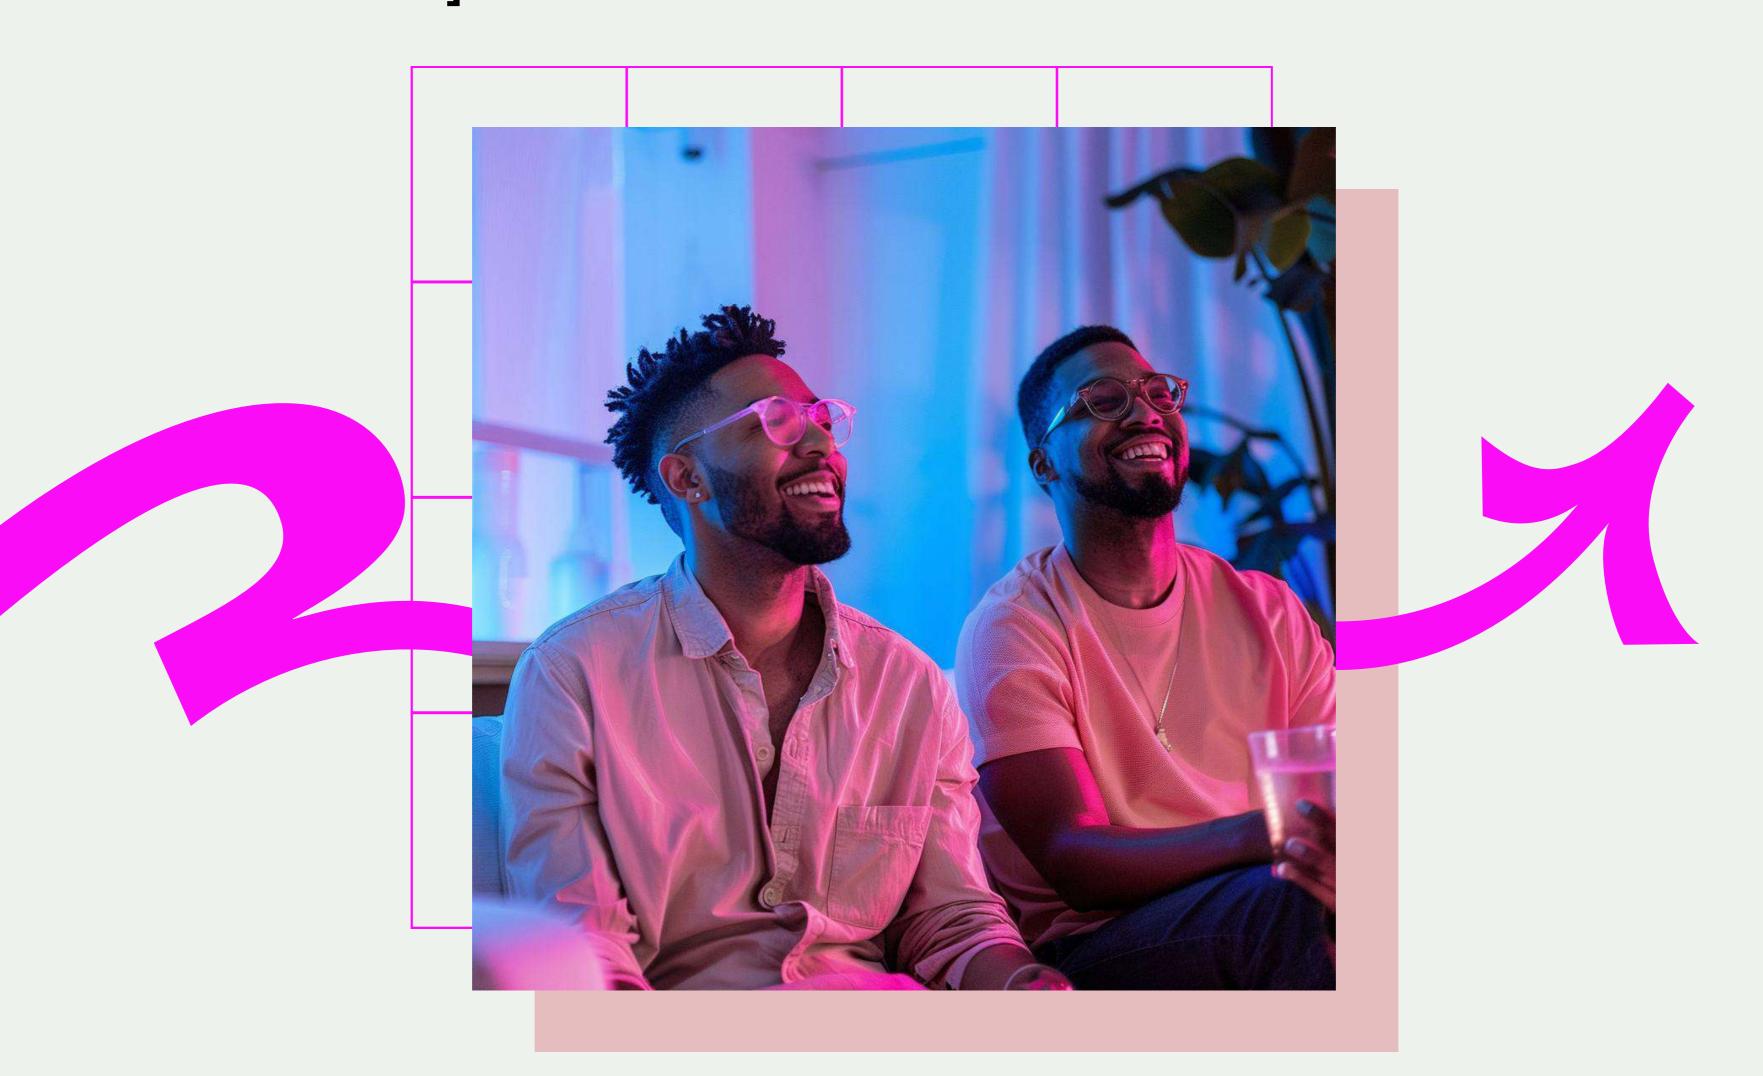

Engage

- Ever wondered how some creators get you to comment on their posts, then instantly hit your DM with a link? Do you want to know how they do it? And why they do it? Well, first, this strategy boosts their post's visibility and engagement, so they have more chances to go viral the more people comment, and receive DM, the better it is for algorithms! The magic tool? Instagram-approved Comment-to-DM Automation by Manychat. Keen to see it in action? Comment [YOUR KEYWORD HERE] and I'll reveal all the details.
- Psst... I'm ready to share a game-changer that skyrocketed my IG engagement, sales, and helped grow my email list. It's safe automation platform, Manychat, which is approved for use on Instagram. Imagine you want to send people link to your product or get them on your email list. Instead of asking to click the link in your bio, ask them to comment. Not only you will receive more comments, resulting in more engagement and reach, it will automatically send them a link so you also can see the click-through rate and all the analytics. How to set up Manychat automation on your account

Step by Step

Create your Reel as you normally would.
Add a CTA keyword in the caption or in your video. Your CTA will be the keyword that will fire up Manychat.
Build your automation in Manychat, using the Commen-Automation tool and set up your keyword trigger. Here's a Manychat template you can use: AUTOMATION TEMPLATE .
A NOTE ON KEYWORDS TO USE: Manychat, Chat, Your favorite word. (We recommend being intentional with your keyword, like "LIST1", or using an uncommon word for your industry, like "PHANTOM", so it doesn't fire off on common words your audience uses daily.)
Add the link as a button in your automation. (Here's an EXAMPLE of what that looks like.)
Hit "Set Live" on your automation.

Craving new strategies to boost your Instagram engagement, reach, and conversions? Manychat, an Instagram-approved automation tool, is transforming how brands and creators sell, promote, and launch on Instagram. Manychat is an official Meta Business Partner, approved for Instagram use, making it a must-have tool for effective engagement. Now you can ditch the outdated 'link in bio' method. Manychat engage users through reply to their comments, sending them a DM with the information automatically. This approach not only increases engagement but also signals to the algorithm that your content is popular, so it shows it to a broader audience. Plus, it shifts sales conversations into the DMs, allowing for personalized interaction and follow-up questions, something that's impossible when you send them to a link in bio. Manychat turns every Instagram post, story, reel, or live into a dynamic conversation starter. The switch from bio links to DMs can increase your click-through rate from a mere 1% to an impressive 46%. Every comment becomes a potential conversation; every conversation, a potential sale. Let's leverage Manychat to supercharge your sales and interactions on Instagram. You can use it for free for up to 1,000 contacts, and the Pro version starts at \$15 per month.

Let me share some information that changed the way I sell on IG. If you send a link to a person in a direct message, the click-through rate is 46%; compare that to 1% if you say, "click the link in bio". So, you're probably wondering, "how can I send DMs at scale and not upset the Instagram gods?" Well, there is a Meta-approved tool called Manychat that will help you automate this process to make sure your followers receive links in the DM. Here's how it works: You post a Reel on Instagram about your product, and a customer comments a specific word or comment on your Reel, Manychat will send them your link — right in their DMs. Amazing, right? Best of all, Manychat is an official Meta Business Partner, and it is fully approved for use on Instagram. One of my favorite strategies is asking your followers to comment a word in order to receive a freebie or eBook, then those who send you a keyword, you ask for their email in the DMs before you deliver your freebie! While people are getting something from you, you're getting their email, and you can build the whole marketing funnel right from the DMs! If you have a business on Instagram or want to grow as a creator, use Manychat to improve your sales. It is the best lead gen tool out there and on top of it, it starts at just \$15 per month.

Subject Line Option #2

[Instagram Advice I Wish I Knew] Replying to every DM manually? Stop!

Hi [Name]

Are you answering every single DM (and sending every link) manually on Instagram?

How much time is it taking you? 2 hours? 4 hours? More? Did you know...

You can free up hours each day and reply to every single comment on Instagram without the dreaded feeling that you forgot to send the link.

Manychat is the leading automation platform that drives higher engagement and replies to comments, DMs, and more.

Best of all, your followers never leave Instagram. You'll keep all conversations (and links) in the DMs — where Instagram lovesto keep their traffic!

Here's How It Works

- Post as you normally would, and invite engagement with a simple call to action. Your CTA includes a keyword, like the word FREEBIE.
- This keyword is set up in Manychat. When someone comments your magic keyword on your post or Reel, Manychat sends a DM with more information, including the link, to the person who commented.
- This pushes your content to the top of the algorithm with higher engagement thanks to automated comment replies.
- ☑ Plus, it sends leads further down your funnel so they're more likely to purchase from you!

Oh, and did I mention you can also ask for a follower's email address in the DMs, and Manychat will add that to your email list or CRM?

And yes, Manychat is an official Meta Business Partner and is fully approved for use by Instagram.

Amazing, right?

I want to show you exactly how this works. Check out my post/video/tutorial here.

GASP! Do you only hear crickets on Instagram? Here's why

Subject Line Option #2

Help! My content gets hundreds of likes but no comments!

How do I fix it?

Hi [Name]

Tired of spending countless hours crafting the perfect Instagram post, and hearing crickets in your comments section?

It never used to be like this!

You're fighting algorithm changes, picking apart your content schedule to squeeze in the latest trend, all while answering each comment and questions from your followers.

What if I told you there was an easier way to increase engagement and stop relying solely on Instagram algorithms?

Manychat is the leading automation platform that drives higher engagement to attract thousands of new IG followers.

And no, you don't need know how to code to set it up! (It's so easy, I did it myself in my lunch break.)

Here's How It Works to Boost Engagement

- Post as you normally would, and invite engagement with a simple call to action. Your CTA includes a keyword, like the word FREEBIE.
- This keyword is set up in Manychat. When someone comments your magic keyword on your post or Reel, Manychat sends a DM with more information to the person who commented.
- This engagement signals to the Instagram algorithm that this is a popular post, so it shows it to a broader audience, resulting in more comments!

In fact, online entrepreneur and New York Times bestselling author **JENNA KUTCHER** used this strategy and generated \$491,659 in revenue!

And yes, it's 100% approved by Instagram so you won't get your account disabled or suspended. Manychat is an official Meta Business Partner.

Boosting your engagement on IG shouldn't be a result of #hustlingharder, luck, manifestation, or worshipping at the altar of Mark Zuckerberg...

It's about ditching the outdated tactics and using a smart tool to boost engagement and reach more people who love you for who you are.

6 Easy Ways to Earn More Manychat

Here are the 6 ways our top earners consistently rake in high commissions (think 40-50%) month over month. Our top-tier partners are rewriting the rules for what it means to be successful, using three or more of these strategies.

01

Spotlight Your Manychat Success Story

Partners who share their Manychat quick fixes and results tend to see an uptick in their earnings. Don't gatekeep your high-converting Manychat strategies — make them the star of your content. (**HOT TIP**: You don't have to show the 'how' either. You can show 'what' you do without revealing your entire strategy.)

02

Make Manychat Part of Your Regular Posting Schedule

Don't just post — share, engage, and endorse Manychat on social media. Make sure your Manychat content matches your unique style and strategy, keeping your followers hooked, not hesitant. (**HOT TIP**: A Manychat automation keyword in your bio? Genius.)

03

Use Email Marketing to Reach (And Convert) Your Audience

Forget the one-off shoutouts. Include Manychat mentions in your email marketing funnels — like your auto-responders, email signature, welcome sequence — ensuring many touchpoints for a higher chance of conversion, regardless of the subscriber's join date.

04

Host a Manychat (Mini) Masterclass

Whether it's courses, video content, a short tutorial on Reels, or irresistible lead magnets, include a focus on Manychat and how it will help solve your audience's burning problem. Thinking about adding a dedicated Manychat module to your existing course for a relaunch? Say the word, and we're here to help!

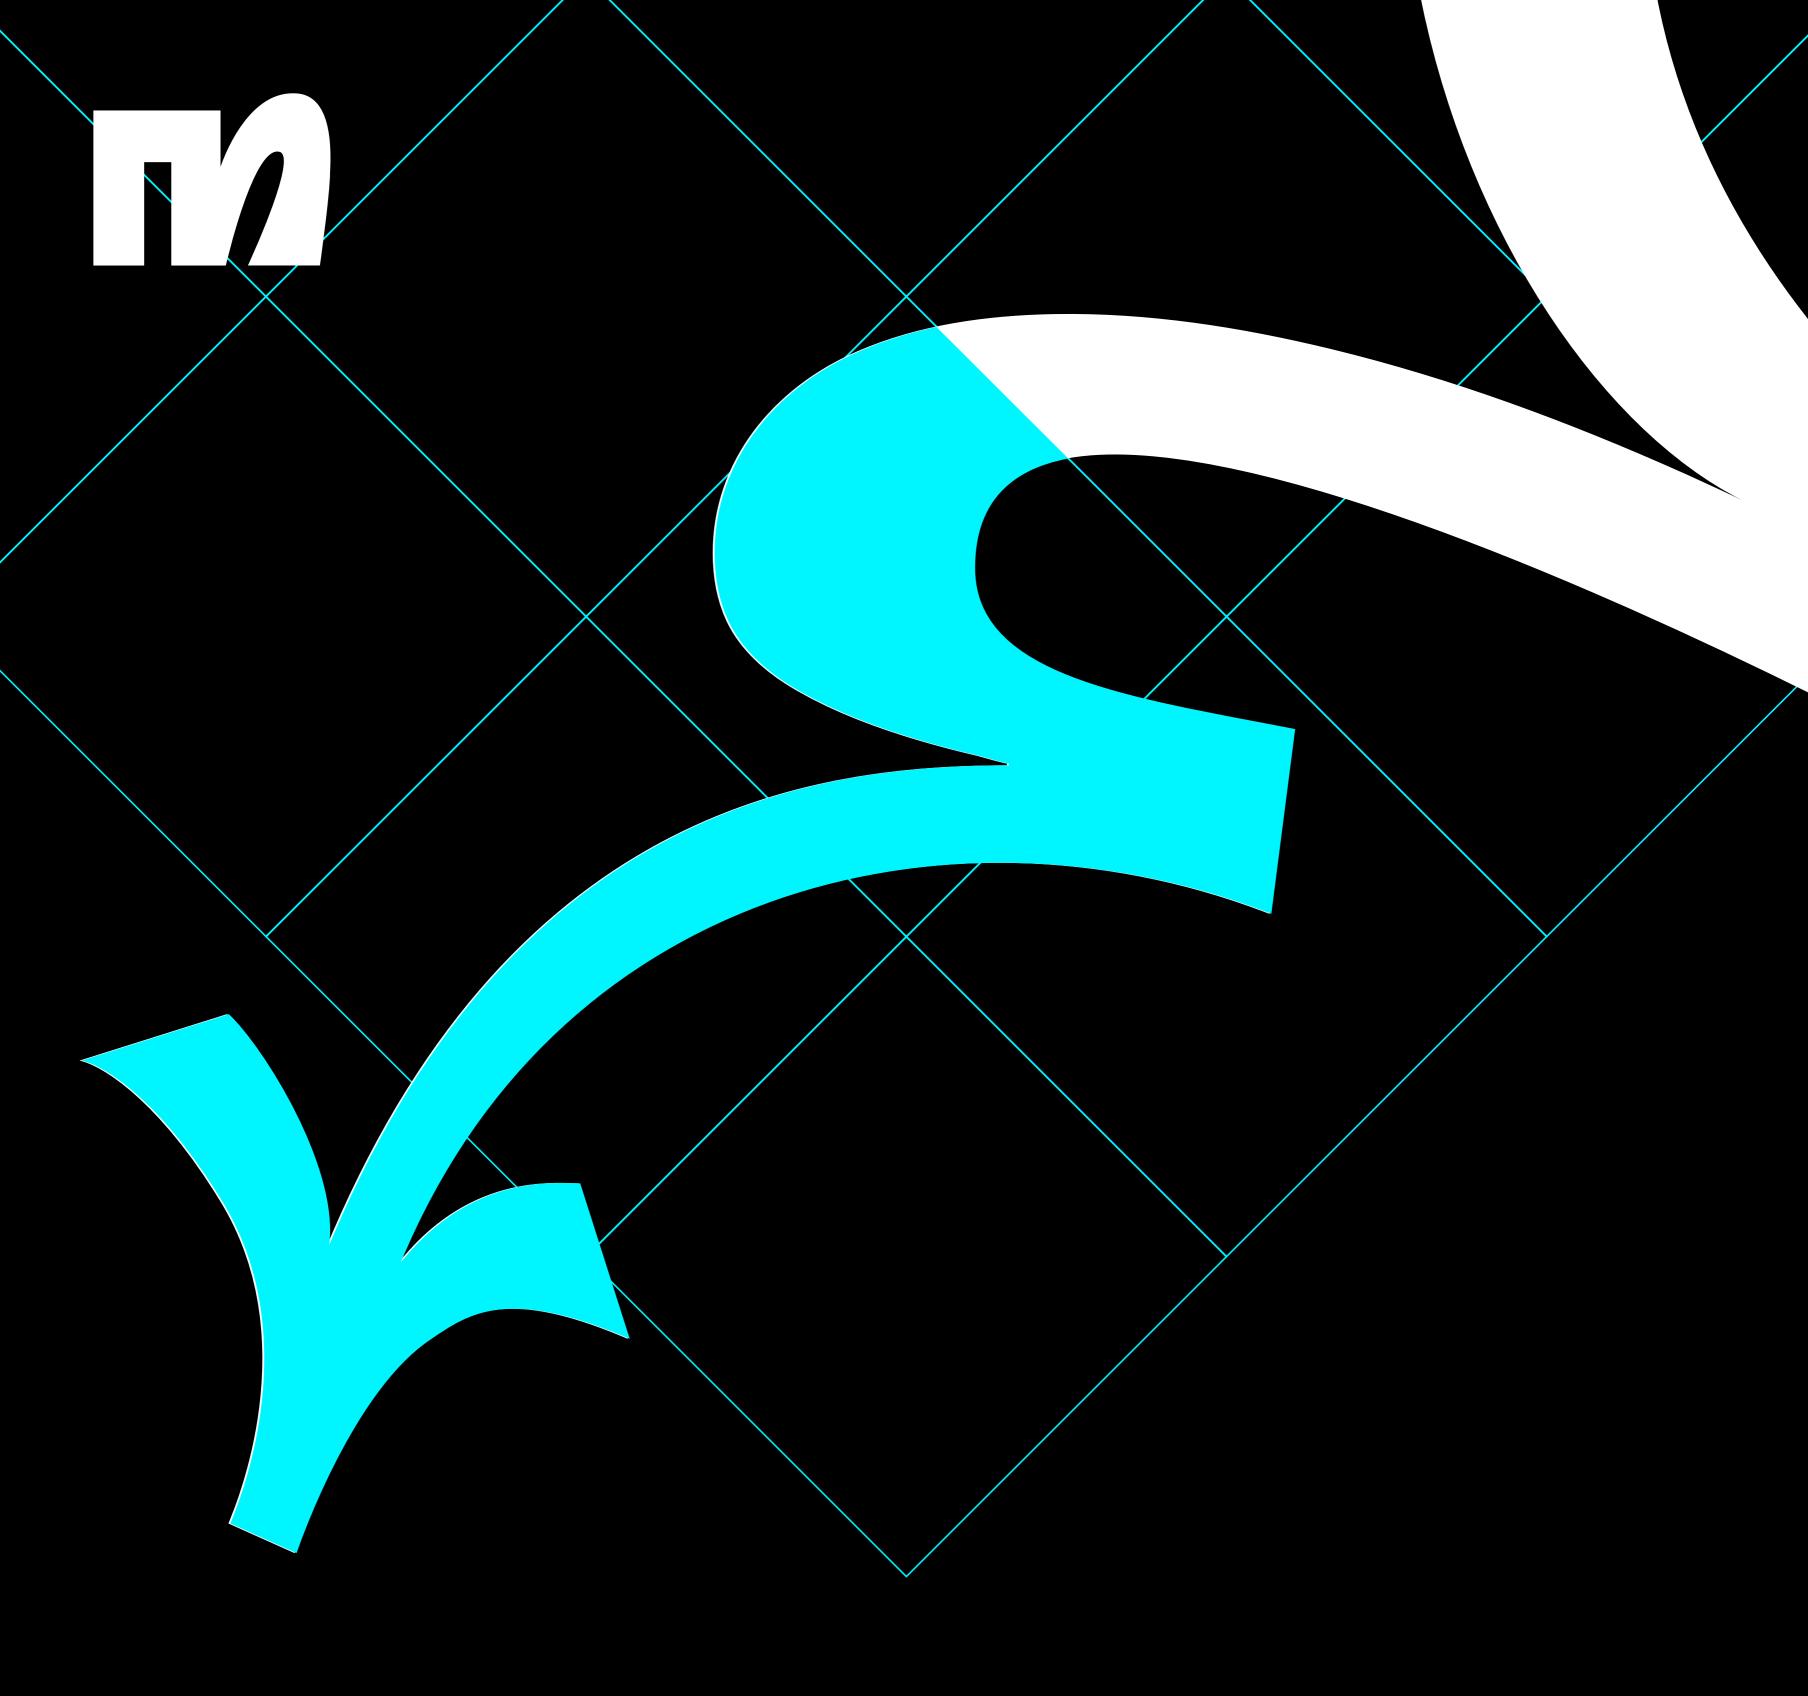

Create Content That Lasts... Forever

Invest time in creating evergreen blog posts, lead magnets, or video tutorials that focus on how Manychat amplifies existing marketing strategies, like list building, growing your followers on Instagram, making customer service faster and easier, or tracking sales from social media.

06

Secure The Bag (And Exclusive Perks)

Once you've established yourself as a successful Manychat Partner, you'll unlock special promotions for your followers. Could it be you? Stay tuned as we roll out these VIP deals for partners who qualify!
