Drop down about one-third of the way down the abyss and then move to the left wall. You have to go down to the entrance to the Lifeblood door. You won't be able to make it through the lake without turning on the light in the lighthouse in the first place. Make your way up the lighthouse by killing siblings along the way. Enter the lighthouse and hit the lever to turn on the light. Now you can fall and super dash across the lake. Continue on the right and stand in the fountain to get the Shadow Cloak. Go back to the left and walk past the Void to find the ancient egg. Climb back into the abyss and the Hornet will be waiting for you on top with the message. Now that you have Shade Cloak you can reach some areas that were previously unavailable. You can go back and fight Marcot on the edge of the Kingdom and pick up the charm of Sharp Shadow in Deepnest.
