It was released on February 4, 2014 in the form of an e-book in front of The One and on the same day as the paperback version of The Selection Stories: The Prince and the Guard. He was also tied up in Happily After October 13, 2015, with the queen, a beloved, extended version of Prince, three scenes in Celeste's POV and more. The content of the show SynopsisEdit Before America singer met Prince Maxon . . . Before she entered the Selection... She was in love with a boy named Aspen Leger. CharactersEdit quotes There weren't words wide enough to hold what I felt to her. - Aspen Leger about his love for America Singer I felt it. The threads that tied us together were still there. They may have worn out the strain of choice, but they kept. - Aspen Leger Any girl who would risk her life for someone she loves certainly deserves to be called a lady. - Lucy Under any form they put on me, I'm still a kid from Caroline and it doesn't go away. - Aspen Leger to Lucy's father While the choice of worn line between America and me, Maxon himself was a sharp edge, capable of cutting the strings completely if he was too close. - Aspen Leger Maybe it was not my place, but I was sure that the king could demolish Maxon if he has a penchant for. I didn't want the guy to die. - Aspen Leger on Prince Maxon Gallery Edit Aspen LegerAspen and LucyAspen and AmericaAdd photo in this gallery TriviaEdit The first two chapters of One can be read in the Guard. The Guard has 64 pages. "Ym, a girl who risks her life for someone she loves certainly deserves to be called a lady." I've said this before and after the series going, I did not stop: I never liked Aspen. This is not surprising, since he is one of the most hated characters simply because he will put America in the way and destroy her relationship with Maxon. I don't like it in Book 1 and continued to dislike it until Book 4. When I found out that he was not in the Crown, I was happy, happy and cheerful. I honestly wonder "Yo person who is risking her life for someone she loves certainly deserves to be called a lady." I've talked about it before, and since the series kept going, I haven't stopped: I've never loved Aspen. This is not surprising, since he is one of the most hated characters simply because he will put America in the way and destroy her relationship with Maxon. I don't like it in Book 1 and continued to dislike it until Book 4. When I found out that he was not in the Crown, I was happy, happy and cheerful. I honestly wonder why, just out of curiosity. I didn't feel any connection with it, and I was glad America was slowly making up its mind and choosing Maxon instead of Aspen. He was cute at the beginning because of his little moments with America. The sad thing is that he wasn't even able to be open about it. If he was a little open and might have confessed his love for America to her parents or someone connected, things would change. But he wanted it to be kept as secret as America did. America is different, though-she's a girl. If he had stepped up and made a real move, maybe I would have thought differently of him. Reading from his point of view has not changed much. In fact, it didn't change anything. I never liked it and am glad I never did, glad I never supplied it and America. I was a Maxon team from start to finish. At least he ended up getting another girlfriend and it all worked out between them. Fortunately, America approved of his relationship with Lucy and at least they got married. I know my thoughts about Aspen would have been bad from the start. When I felt the connection between America and Maxon, Aspen was just on the way. I felt nothing for him and kept asking myself why he was in the series after all. I get started, but why before Book 4. Even though he married Lucy, I still didn't like him. I don't know what's wrong with me. He always got in the way and ended up confusing America, leaving her to think if she was still in love with him or with Maxon, and all I wanted was for both to make a decision. I was glad it wasn't just another love story and tell us more about how America and Aspen really controlled their relationship in the past and how things worked, but instead it delivered events from the elite. I was really glad, since I couldn't stand the moments aspen, I wouldn't have been able to stand the moments between America and Aspen said in my point of view. Again, nothing new interesting, and his feelings for America are not He took care of her constantly and would miss her while I was here, reading the story, tired and bored of it. Understanding his character at present is of little importance. I wish Cyrus had provided more details about him in the selection, but also dropped him off when he broke the heart of America. Even if he's the one to blame for America joining the contest, I think he's the one to thank her for that. Can't remember if America ever thanks him for it, since he's the one who convinced her because he kept telling her that she could feed the food she never thought she would eat and would live a life she never thought when Aspen would have to take care of her family and her at the same time, not being able to provide enough food and food for everyone and not being able to make her happy. Although America didn't care much about it, she thought she knew she would always be with Aspen and their relationship would work, everything would be resolved and they would both be happy, I knew they would have to split at some point because the series focused on America and Maxon.I don't see how short the story he thought was really necessary. This is very different from Maxon and Aspen didn't even feel necessary and right. I wish we'd got more stories told from other character's point of view, maybe learn the story and past from someone else. ... More...
