## [Verse 1: Joey Bada\$\$]

Look, I love her curves but what's more preferred  
Is the way she articulates words  
Can't help observe and stare  
When she in the mirror  
Masking the massacre while she fixing her hair  
I mean she's so perfect  
In her own little world

We built the foundation, everything I want in a girl  
And it's a matter of time until her last name mine  
You got potential baby, just imagine us combined  
I wanna see you shine like the gem that you are  
Want you be so secure that they can see from afar  
That you don't need not a man  
And you can stand on your own  
Let's keep stacking your bread  
And one day we gonna get gone  
And get away from here  
You're the only reason I be staying here

Wanna paint a picture, let's make it clear  
The future so bright baby, race you there, girl

**[Hook: HOMESHAKE]**

Love is only a feeling  
Love is only a feeling  
Love is only a feeling  
Love is only a feeling

**[Verse 2: Joey Bada\$\$]**

Look, girl you talk too much, need to relax  
No stress please, just please roll us a fat  
**Blunt** so we can **smoke** and fill the room with love  
You buzz 'cause I'm feelin' the groove with this one  
Come take you a sip, let's dance under the moon  
The way that it's lit, got me feelin' the mood  
To vibe and be tuned, I'm so into you  
Let's lose track of the night and stay up til it's noon  
Watch the sun rise and watch the moon fall  
Asleep if you will, surprise when you spawn  
Back from the world of infinite beyond  
Roll your eyes back and let's keep on goin'  
Come take a ride, I'll be your chauffeur  
I wanna make you sing to me as your toes curl  
I love it when she doing all the things I showed her

I thank the Lord for her, man, I swear I owe her

**[Hook: HOMESHAKE]**

Love is only a feeling

Love is only a feeling

Love is only a feeling

Love is only a feeling
