Mean	4.90

What aspects of the course were particularly effective?

Comments

Dr. Kaufman provided thought provoking reads and added appropriate videos about the writing style for each.

Video Lectures and group discussions.

The super outlines are quite helpful.

The course is very organized and well thought out.

the short lecture videos

Detailed breakdown of the assignments and due dates were great!

I really liked how we got to learn about different stories and new ways of writing.

Clear explanations and simple requirements

All of the resources provided for each paper and quiz were very effective in helping to understand what was expected from us.

How might the instructor improve this course?

Comments

The only improvement would be to add a little more detail on how the superdraft is broken down.

Pinning essay prompts so they are easier to find and follow.

A little bit more time would be nice.

less reading

n/a

I wouldn't say anything should be improved. I really liked the layout of the course

Not much, maybe less discussions about altering topics.

I think our instructor has the course set up very well!

Do you have any additional observations to offer about this course?

Comments
I have always strongly disliked English but I have fully enjoyed this class thanks to Dr. Kaufman. She is thorough; she wants her students to be successful, and I really enjoyed every single reading that was assigned. 10/10 would recommend her class to others, and if she offered English 1B I would sign up immediately. The theme of hope and resilience, for me, has been so thought provoking and empowering.
N/A.
no
n/a
I would recommend to others to take this course.
Nope, good class, fair and good teacher.
My professor's main theme of course being "Hope and Resilience" helps to connect all of us to a strong passion in all of us to do better and to hope for better for ourselves.

What aspects of the course were particularly effective?

Comments

- Videos on the subjects we are learning especially the ted talk videos that were full of hope and inspiration
- Professor Kaufman explains assignment details clearly and gives very productive and helpful feedback.
- Her essays were very effective to learn more.
- The feedback you give is very effective.
- I found the video lectures to be particularly effective, as I feel that I learned the most from them.
- Dr. Kaufman is an excellent professor! Even though this class was online, her instructions and announcements were very clear! During her office hours she goes over and reviews with any questions a student might have about an essay or topic. She also build on your own ideas and strong suits. She also opens up assignments in advance which was very helpful to me figuring out new changes in my life during this time. Likewise, her discussion boards and assignment also relates to our way of life today and connects with the course's theme!
- Despite the class being asynchronous online, Professor Kaufman created an environment in which I felt totally safe, and free to learn and ask questions.

How might the instructor improve this course?

Comments

- Not to improve on the templates were great to help start an essay.
- I am not sure how the instructor can improve this course. It has been a great experience for me.
- I cannot think of any way in which this course would be better than it already is.
- I feel like maybe open up 1–2 more modules in advance then the already scheduled one (2–3 total). The 2 of my classes will start in the end of October and it would be good to get a head start on the assignment to be a more well rounded student in my classes!
- My only wish is that I could take her class in person, as amazing as she was online– I'm sure she is that much more impactful in person.

Do you have any additional observations to offer about this course?

Comments

- No.
- N/A
- N/A
- Her readings and writing honestly felt like self care

What aspects of the course were particularly effective?

Comments

The feedback given was thoughtful and helpful.

I loved the clear explanations of the assignments and the feedback provided. The last professor I had for English 1A had vague explanations and almost impossible assignments.

Sheiba Kian Kaufmans feedback on essay outlines was very helpful for me because it helped make sure I was on right track with writing it and that the structure was good

How might the instructor improve this course?

Comments

Live Zoom Sessions for people to work if they are not able to come to office hours.

Honestly, she was great. Anytime I had a question, she responded pretty quickly. Compared to the last professor, she was 500 times better.

no complaints from me

Do you have any additional observations to offer about this course?

Comments

n/a

Keep up the great work. I will definitely recommend this class to my peers.

nope, has all been good

What aspects of the course were particularly effective?

Comments

The resources and layout of the canvas modules. Her responsiveness to questions and concerns and the connection between the material and larger assignments. Nothing in the course felt like time waisting or unnecessary. All assignments helped you work towards a larger goal.

The instructor has the class well structured and give positive encouragement. It is felt that she truly wants all her students to succeed.

The course material all had purpose. At the beginning of the class Professor Kaufman stated we were focusing on hope this semester and since then I've been consistently engaged in the course work because 1) it's interesting and 2) this is real life we're learning about. She is hands down one of the best Professors I've ever had.

How might the instructor improve this course?

Comments

I am very happy with this course and feel there are not any significant areas needed of improvement.

N/A! This course is perfect.

Do you have any additional observations to offer about this course?

Comments

Dr. Sheiba Kian Kaufman is so kind and a great professor!

I loved the theme of hope and resilience around the world. It was educational and uplifting.

Professor Kaufman genuinely cares about her students success and you can see it in the way she communicates, the feedback she gives and even within the course material given. I wish more Professors were like her!

What aspects of the course were particularly effective?

Comments

The assignment instructions and deadlines

The very helpful feedback Dr. Kaufman gives on essays, outlines, etc.

Video Lectures

Peer reviews and essay drafts

Professor K does a great job answering emails and teaching the material.

Dr, Kaufman is effective in all aspects of the course. She explains, provides directions, and engages with the students for their success in everybody subject of the course.

I believe all aspects the Professor was able to answer emails when I needed help. She was also able to give us our work in great detail so we could complete assignments.

her instructions, teaching style

How might the instructor improve this course?

Comments

Keep doing what has been working

Honestly I have no suggestions right now, it's a very good class.

it's perfect

I believe that Professor K is doing a great job teaching this semester and does not need to improve upon anything.

Dr. Kaufman excels at instructing her course.

I respectfully have no idea how to improve this course. It was really great in my opinion and has put English at a higher standard then I had before taking this class.

it's perfect, perfect teacher

Do you have any additional observations to offer about this course?

Comments
Great course and great professor
N/A
I appreciate all the feedback I have received especially on essays. The feedback allows me to not only understand where I need to improve but also where I am doing well.
Dr. Kaufman is always willing to help students succeed in this course and always provides feedback and alternatives to help students excel in their courses.
N/A
no, keep it the way it is, great course, its challenging, fulfilling, but also manageable

Mean	4.33

16. Throughout the course, I felt respected for my identity (including, but not limited to, racial and ethnic background, gender, sexual orientation, and physical and mental abilities).

Statistics	Value
Response Count	10
Mean	4.90

What aspects of the course were particularly effective?

Comments

I really enjoy the readings. I think they are very effective and impactful on the subjects we are learning about. Aside from that, they are just genuinely interesting!

The amount of help and feedback I was able to get.

The group discussions were effective as I got to see people's different perspectives on topics that I didn't think of which expanded my thoughts.

I like how much feedback she gives on our papers, it makes me feel like im not left in the dust with an assignment.

video quizzes

The essay feedback from students and the instructor were effective in making my writing stronger. As well as the discussion boards to clearly understand the topic we are learning about for the week.

The lecture videos with the five questions are very effective.

The outlines provided

The overall feedback on any assignment, but more specifically the comments on essays, was extremely helpful and personal.

How might the instructor improve this course?

Comments

I really cannot think of anything that Dr. Kaufman lacks as a professor. The course material is extremely valuable and interesting and she goes above and beyond when you ask for help! Definitely the best professor I've had at Saddleback.

The course is good as it is for me.

I think it is a really good course and I took English 1A with you and I really enjoyed it and took English 1B with you.

I honestly am not sure, I have to say this has been one of my favorite English courses online.

allowing us to view videos from video quizzes after they are over. you can "retake video quizzes" but once the assignment is locked, you cant even see the thumbnail.

I believe there isn't any need for improvements for the instructor. Being in an online class she made sure all of her students were connected with each other and with her during class work and for questions as well.

Nothing to improve!

Less essays

Do you have any additional observations to offer about this course?

Comments
You definitely have to stay on track with the assignments as they can pile up. The workload is very doable, but staying on track is very important, especially since a lot of the assignments coincide with one another.
None
Nope, I really like the class and the assignments.
none i can think of
No I do not, I enjoy being in her class this semester!
I appreciate that Sheiba Kian Kaufman is understanding if we have to turn in an assignment late.

What aspects of the course were particularly effective?

Comments

great class. assignments were clear, teacher's lessons were also clear. Very good course, I learned a lot. Teacher was also very helpful and responded to any questions and gave great criticism/corrections.

She has been understanding with my writing and offers lots of advice!

Video Lecture

Three parts for each writing project, an outline, a draft, and the final submission.

Professor Kuafman has an extremely clean and neat canvas page. All of her lessons are great and can tell she cares about her students. She also does a really great job showing new ways how to write essay's and how to make your own essay better/ stronger.

no

The course where everything was outlined well, and everything can be found on canvas and is provided. The due dates are also very clear, and the directions are as well. All reading is also video summarized for students to watch and be cleared up if the reading was confusing.

How might the instructor improve this course?

Comments

n/a

Less video quizzes and more variation on answers, all of them end up being "true"

The essay writing process

nothing. enjoyed the class.

no

The course is already great, I do not believe there is improvement in the course.

Do you have any additional observations to offer about this course?

Comments

Dr. Kaufmen is one of the best teachers I've ever had.

nope!

Course is okay

she is an amazing teacher and is super nice!!

no
