Step Ramp Longer than 1900mm

Identified Design Issue

The step ramp has an increased length.

Departure from Deemed-to-Satisfy Provisions

Due to the existing ramped entrance design, the upgraded step ramp will exceed 1900mm in length.

The Performance Solution

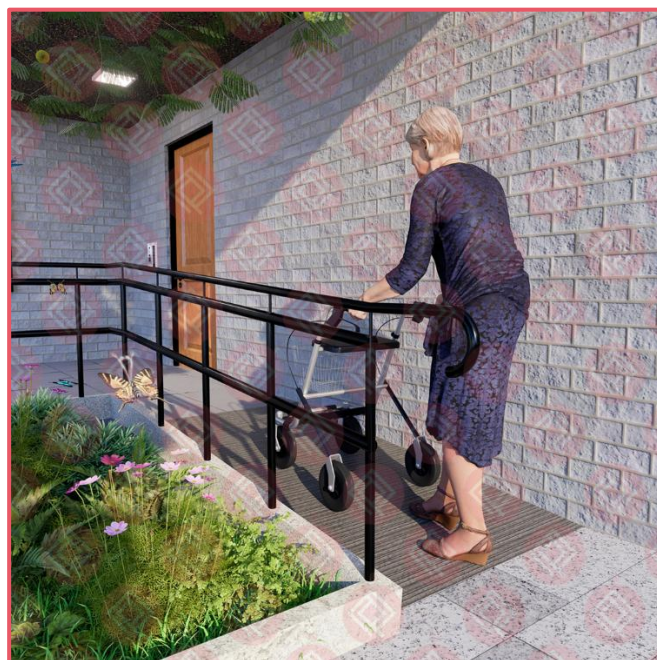

While the increased length of the step ramp design will be accepted, the step ramp will be upgraded to comply where possible. Enhanced features can also include handrail extensions, a contrasting surface, lighting, or an increased landing area.

This example is a hypothetical scenario and must not be used for any specific project.

Assessments must be tailored for each project.
