## Primerica study guide

Primerica is a financial company that requires its consultants to pass three different exams to sell financial products. These are the exams of the Financial Industry Regulatory Authority (FINRA) series 6 and 63, as well as the state life insurance test. Standardized tests are conducted by test centres. FinRA tests require passing a class of 70 percent, while some state insurance licensing exams, such as California, require only 60 percent or higher. Prelicensing Class There are prelicensing classes that help prepare you for your exams. For FINRA exams, classes are just there to help you navigate the mass of information and prepare for the test. With a life insurance class, you have to complete 20 hours of prelicensing before you can sit for the test. This is a requirement and cannot be avoided. Primerica offers online video training to help you prepare for your exam. There are other providers who conduct live classes and other online courses that review the material, making the test training similar to the SAT test prep course. One TimeStudy test for one test at a time. Many industry professionals recommend first taking a life insurance test, as it is shorter and many consider it easier. This helps you gain confidence in the transition to a longer test and will help you in the test mode. The life insurance test has 75 questions and you have 90 minutes to complete it. Series 6 FINRA has 105 questions that must be completed within two hours and a 15-minute period. Series 63 FINRA has 60 questions that should be completed in 75 minutes. Learn Test-Taking Skills Y prelicensing class should cover the types of common questions that come to the exam. All three exams are multiple choices.
