## Super fnaf rpg

That's right, I'm back with a new review. Unfortunately, I didn't post this before, laziness and forgetting to do it got the best out of me; But I got distracted. Finally, here's a review of the Super FnaF RPG. Both of them notice that most of the animatronics in Animatronics are missing. Turns out it was Scott's act, and the reason he did it is because so that he could replace everyone who worked on Sister Location, he took aim at FnaF World because of the way he bombed. So it's up to Freddie and his allies to stop Scott's plans.-----I love the plot of this as he works as a sequel to The World of FnaF. Scott is characterized very well in history, as Chipper knew about fnaf's success in the original game. I have no problem with the story as it works with the game and not too seriously. 4 other characters can be put in a batch.-4 other characters only 1 attack and the amount of speed. The higher the speed, the faster they will perform their attacks.-4 main characters now have special moves; which they can also upgrade to the best special attacks. A way to get special moves is by buying them from Grand Master Fan.-----I find these add-on gameplay really good as they don't break down battles and they work very well. The list of other characters consists of: Toy FreddyToy ChicaMangleFuntime FoxyBBJMarionetteWithered FreddieWithered FoxyEndo-02Crying ChildPaperpalsRXhadow FreddySpringtra FreddyPhantom ChicaPhantom FoxyPhantom BBPhantom ManglePhantom MarionetteGolden FreddyEndo-01Nightmare FreddyNightmare BonnieNightmare ChicaNightmare FoxyNightmar Fred BearPlostreppUlppe GuyEndoplushFredbearJack-O-BonnieJack-O-ChicaSpringboNightniemare BBNightmarioneNightmareScott CawthonCoffeeChipperRainbowed Golden FreddyLolbitFredbear Plush (Update 2)Jenny (Update 2)Timmy (Update 2)Black Rabbit (Update 2)Freddie's Ghost (Update 2)Mendo Endo (Update 2)-----Mail's penalty registry and new characters are good And. Although I'm surprised Virtua-Freddie wasn't added, but it's just a nibble and probably just me. Assets for worlds are reused and do not expect to see new enemies. I'm kind of disappointed that these 3 things don't get the same treatment as the registry did; pallet swaps would be fine. It works great like that if the sequel to the original game. There were some flaws with it, but these flaws can be simple nibbles. But I want to hear your guys thoughts on this in the comments below. Thanks for reading this as I think these reviews help me find other fan games I've never heard of, and it helps me notice the flaws in these fan games, so so I won't have these flaws in creating games for the future. Tune in next time as I consider a bunch of FnaF World fan games - for all the wrong reason. See you next time.
