GenericSerializableCoding serialize(@Nonnull Aggregator inputOperator); * Creates a serialized operator coding for a given operator. GenericSerializableCoding serialize(@Nonnull Aggregator inputOperator, @Nonnull Map serializedSerializedMap); } The role of endogenous opioids in gastric hypermotility in newborn rats. We have previously shown that endogenously released opioids play a role in the slow wave pattern generation in the distal stomach in newborn rats. The present study was designed to explore whether endogenous opioids influence the motility of the proximal stomach and whether this action is mediated by opioidergic systems. Motility was 520fdb1e7
