

EAE PORTFOLIO

By: CHANICE NOELLE NEO XIN SHAO

<http://www.ChaniceNeo.com>

The lego
sets I built
for the
past few
years!!!

I LOVE
LEGO!<3

Building lego always makes
me feel peaceful and relieves
my stress

More legos!!!

The artworks I have done when I was in the NAFA programme in 2021!

The art techniques I learnt such as wet on wet and wet on dry

My NAFA certificate!:))

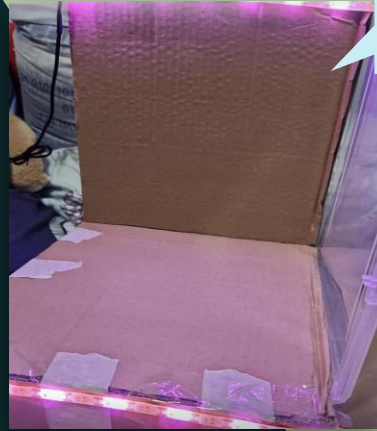

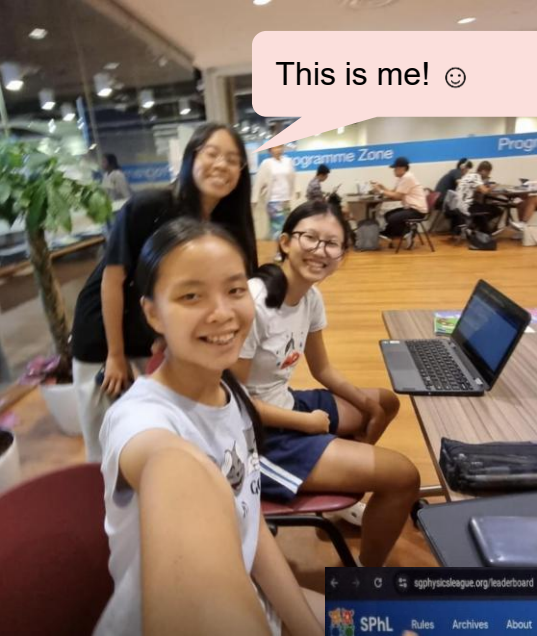

Our prototype→using LED lights and sensors to indicate disabled commuters' presence in the MRT

My teammates and I presenting our design and our ideation for our prototype to help disabled MRT commuters have a seat on the train more easily

My STEAMunity certifications (we won the top pitch award!)

During the STEAMunity workshop, I learnt how to do 3D printing! (:

This is me! 😊

SPhL SG Physics League Competition!

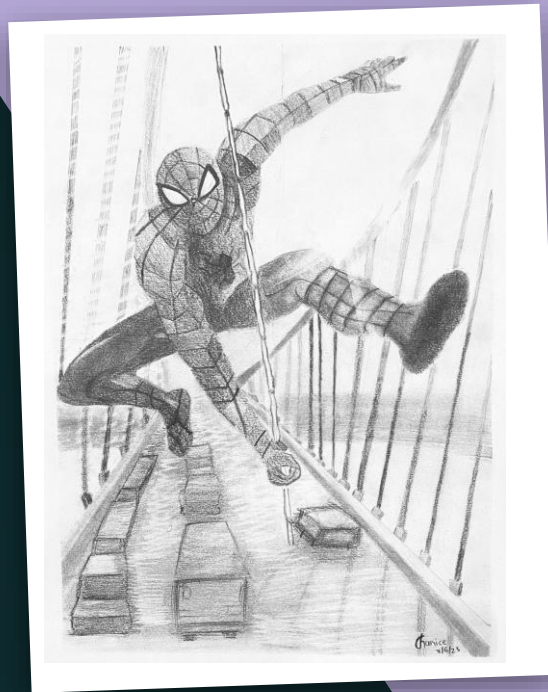

Our group was called Sherlock Ohms!

Rank	Team Name	Score	Points
338	Newton's Three Laws	---	19
338	The Wise Physicists	-1	19
340	$a = v - u/t$	-2	18
340	Acceleration	---	18
340	Forget Me Not	---	18
340	Sherlock Ohms	---	18
344	BlooflyCow	---	17
344	Driplets	---	17
344	Newton's Nightmare	---	17
344	Ohm's Monks	---	17
344	Pioneers	---	17
344	Quanticons	---	17

Tree Art class at
the end of sec 1!

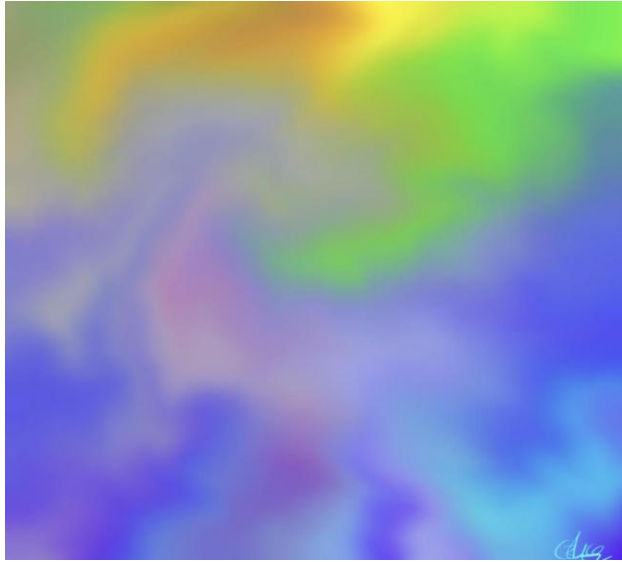

The class taught me basic
realistic drawing and I drew
this Spiderman picture to
show my interest in the
movie called Spiderman!

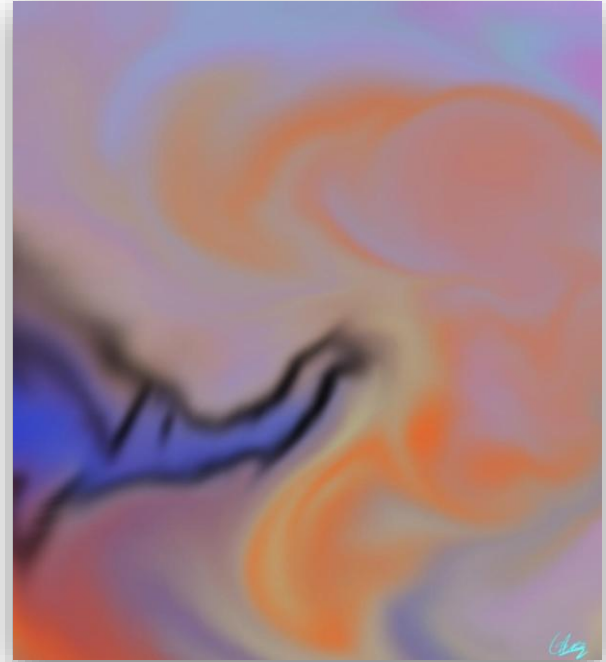

Learning watercolour
painting during HBL
for my primary school
Art CCA

Some of the Digital Paintings that I have done when I was in sec 2/3: Marble Art

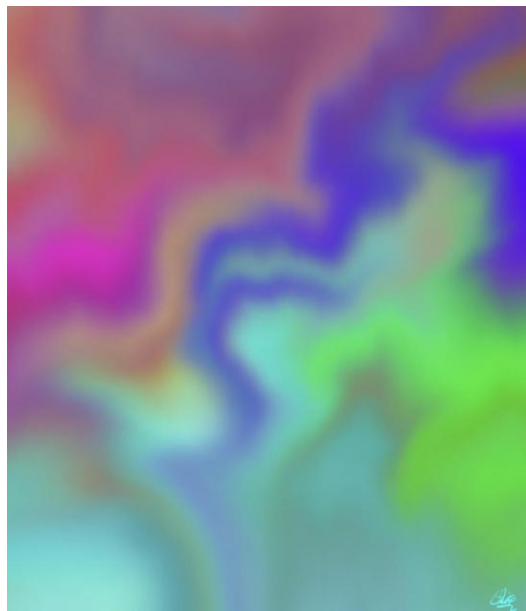

#2 Have your back

Having friends who you trust secures you and makes you a stronger person. They will tell you the truth and always have your back.

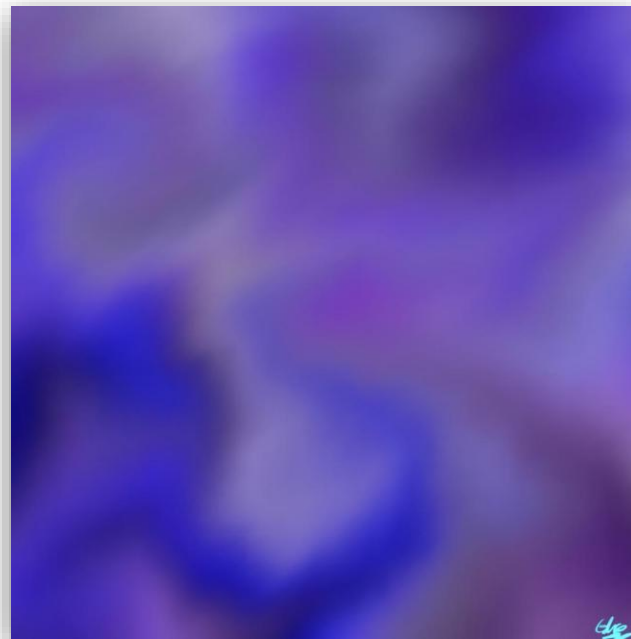

#3 Elephants

My favourite Disney movie is Dumbo. I admire Dumbo's confidence and bravery. I loved elephants since I was a kid as I find them full of wisdom and creativity.

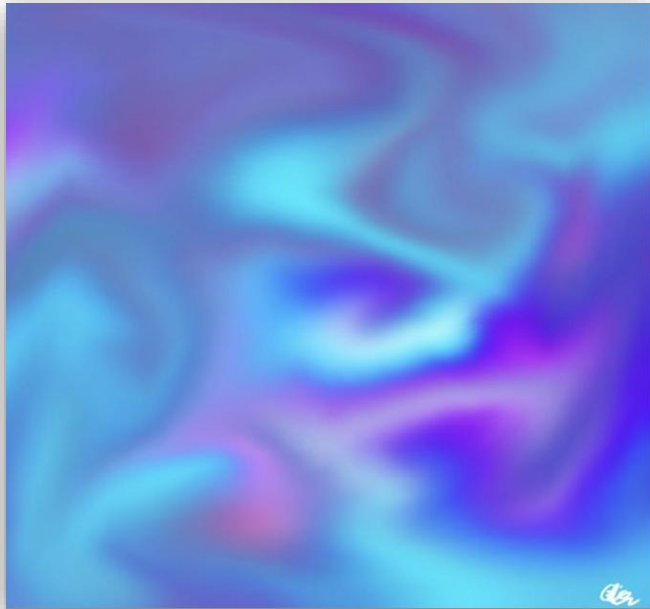

#6 Unique Stars

I remembered someone told me that everybody are unique in their own ways. Just like stars, even though they all look the same, like we are all humans, we have different personalities and interests but we all shine brightly just like them.

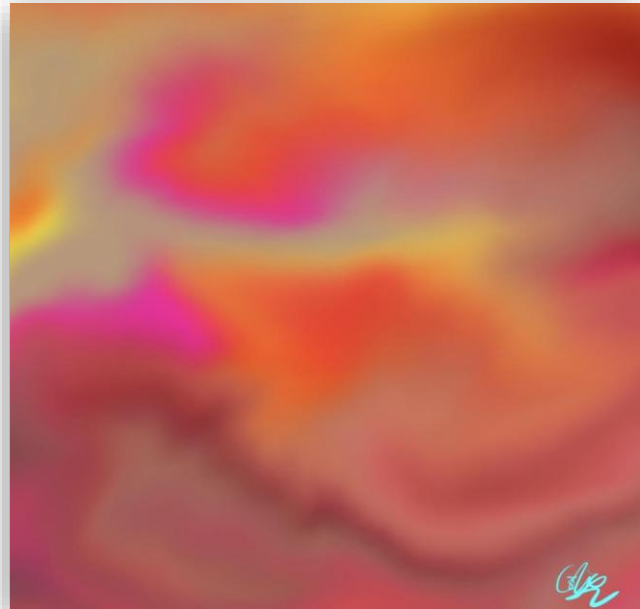

#8 Astronauts

I always wonder how astronauts find the galaxy look like. Many people have different views of how space look like. Many think it's scary up there with no gravity but I really love space and like to find much more about it.

#9 Winter

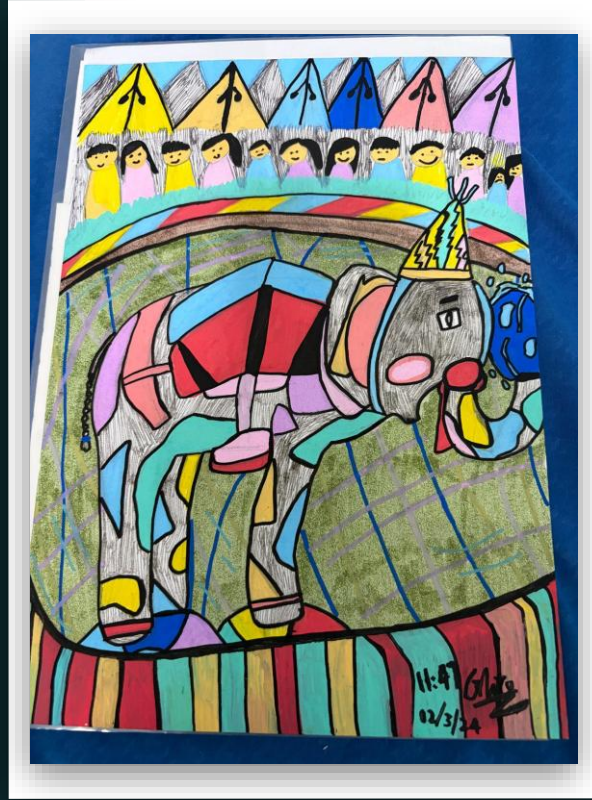

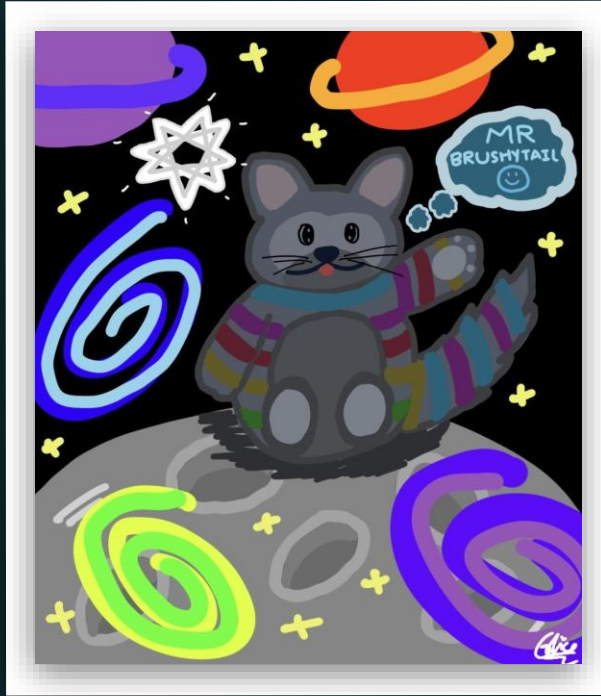

What's your favourite season? This artwork reminds me of winter, skating in the ice ring, walking along the frozen lake and throwing snowballs everywhere. People find winter gloomy but with our laughter, it will become the best season of the four.

#10 Mars

Mars is a great planet. It is red in colour and nicknamed, 'The Red Planet'. Did you know that Mars is the fourth planet from the sun and is the planet that might invade Earth?

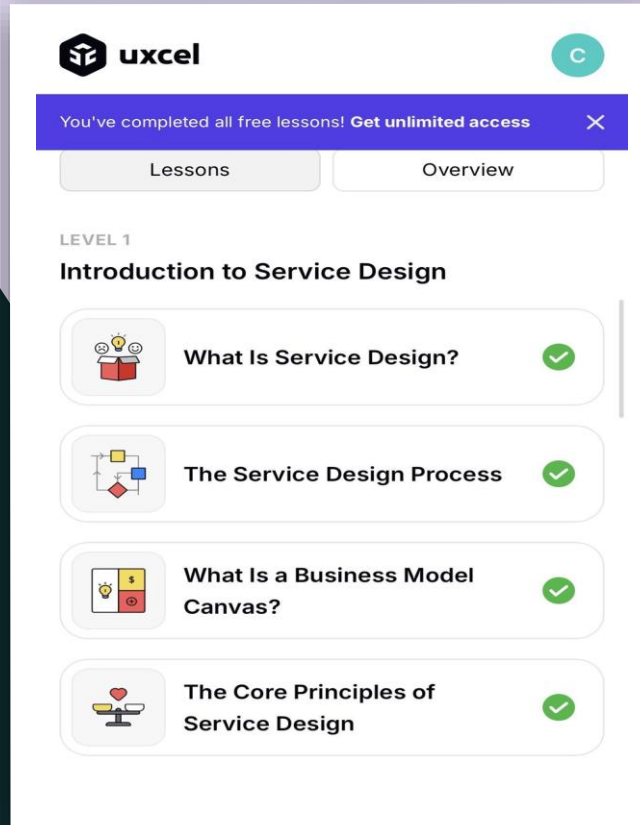

Other artworks I have
done across the years:

Recently, I was able to use Uxcel course to learn about the foundations of design!

I had a lot of fun learning about basic design skills. I learnt about service design and how the practice of planning and organising to improve communication can bring about positive experiences to customers.

Starting my learning about the foundation of design really made me more interested in learning more about different design skills.(:

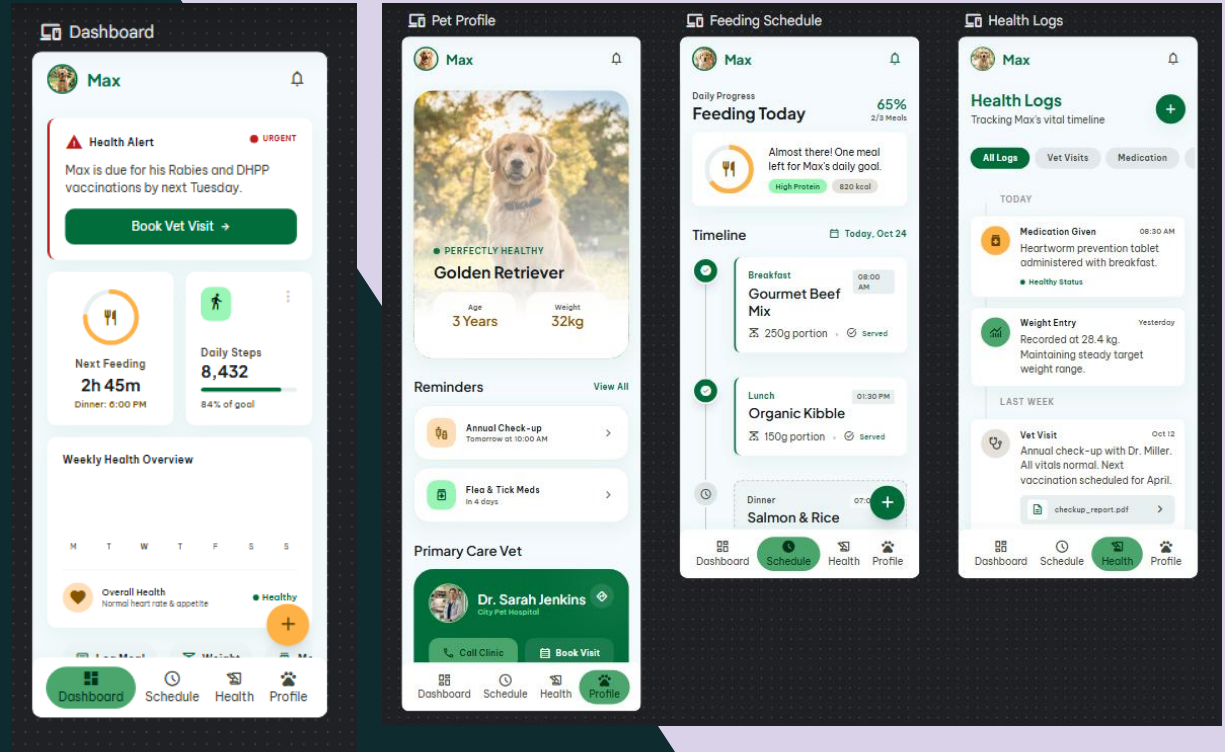

My Pet Care App Design using GOOGLE STITCH

Recently, I started to self learn using Stitch with google with some guidance by my father to design a pet care app.

This app helps users to efficiently track their pets health and remind when their schedule date for check up with the vet is at.

Additionally, it helps to remind pet owners to remember what time to feed their pets.

This is design to be user friendly using what I learn from UXUI(User Experience User Interface) design.

I really love fixing
furnitures since young
and would build eg.
shelves and tables with
my father

I always loved to paint since
young and love to go to the
national gallery in SG and
other countries to explore
different types of art!<3

Painted this
with my
mother on
my 9th
birthday

My CCA Handbells!

Handbells taught me to be more confident in myself and to persevere until the very end even when I encounter challenges along the way. Handbells also allowed me to grow in teamwork, as we had to work with everybody in the team in order to produce beautiful music. I am glad that I have entered this CCA to experience the love for music and make new friends from different ages.

Musical Montage, My school's Biennial Performing Art performance!

NDP performance in school!

WE GOT DISTINCTION
FOR SYF!!!

We went to an elderly home to
perform for the elderly on CNY!

THANK YOU!!!(:
