Tips

to Use FPV Air 2 Crack Filed under: Software • 9 Comments Posted byFurzomat Post:1. Field of the Invention This invention relates to an ink composition suitable for ink-jet recording, an ink cartridge using the composition, an ink jet recording apparatus, and an image forming method. 2. Related Background Art An ink-jet recording system is one of the recording systems wherein droplets of an ink are ejected and allowed to adhere to a recording medium such as paper for recording an image or character information. This recording system is widely employed from the viewpoint of the noiselessness in recording, but has such a disadvantage that since a large number of droplets of an ink must be ejected in a short time, the resultant image is low in density, and such an image is insufficient in image density and color intensity as compared with other recording systems. In order to solve such problems, there has been employed a technique of not ejecting an ink to a portion, not contributing to image formation, on a recording medium, in recording a gradation image, and a technique of adding a water-soluble dye for improving the color developing 520fdb1ae7
