

Registration Form for Allied's Desktop Review Service.

Our Desktop Review Service is at no cost, nor risk to our selected clients. It aims to provide a robust report to a range of funders and provide our client with knowledge that funders or investors are interested in your project at the earliest opportunity through the process.

Our internal process is carried out by our due diligence and placement team who will lead placing your project with our investors, investment partners and syndication network. The basic questions on this form provide our team with an indication of how we are to work together and invite you to proceed onto our Desktop Review Platform.

As this questionnaire is before a completed NDA, you may answer; YES or NO or provide as little or as much detail as you wish. The more detail or explanations provided will enable us to assess and select your project for funding through our Desktop Review Platform.

If your project is selected, we will require a signed Non-Disclosure Agreement (NDA) and then request access to your data room where we expect to see evidence of the information provided on this questionnaire.

From this data and with further discussions, as required with your team, we will proceed to prepare our Desktop Review to ensure the project is "investment ready" and if so, present to a panel of investors for interest.

Subsequently, we will report back to you with the funding options available. At this point, a Contract of Professional Services and Mandate is required between us to continue towards funding.

* Required

1. Email address *

2. 1. The company, or project name, contact details *
