The software securely scans your DBX file to retrieve valuable emails and then converts those messages into Outlook PST formats. You can move converted mail items to the new PST or give the same to the existing PST file. The software allows you to convert one DBX file or basic identification folder containing multiple DBX. You also have the privilege of keeping converted email data in various EML files that can then be imported into Windows Live Mail. How to convert DBX into a PST file using a stellar open star converter for DBX. You'll see the main interface along with the conversion tab for DBX to PST and convert WAB to PST Select DBX Conversion to PST from the main interface. From the dialog box, select the DBX file, click 'Choose DBX' to select one DBX file or click 'Choose your inbox' to select the entire mailbox containing multiple DBX files. You can also click on Find DBX in the same dialog box for DBX files in a specific disk in your system. Enter the disk that will be scanned, the right type of file, and click Start to initiate the search process. You can include subfolders in your search by selecting 'Search Subfolders'. After choosing a choice FILE DBX, click on Start Conversion in the same dialog field to start the scanning process. When the scan is finished, all converted mail items are listed in the left interface glass. Choose a mailing folder and then the item you want to see a preview of it in the bottom right. Click the 'Save' icon on the toolbar to save all converted emails. Choose to keep your emails in the new PST or to inject that data to the existing PST. You also have the choice to keep separate mailboxes like EML files that can be easily accessed by importing them into MS Outlook. Once the mail is stored in the specified folder, the message that says Data is transformed successfully. Click on the link provided to view the converted data. Updated in March 2017, the newly updated version of the software is more dynamic because it supports the following: Outlook 2016 along with 2013, 2010, No 2007 Windows 10 in addition to Windows 8.1, 8, 7, and Vista In addition, the software also provides support for Office 365. Support. stellar dbx to pst converter username and activation code
