Georgian Triangle Humane Society Reaches $13.6 Million Fundraising Milestone For New Regional Centre For Pets And People

The Georgian Triangle Humane Society (GTHS) has raised $13.6 million toward its $17.6 million fundraising goal for the David & Helen Capin Regional Centre for Pets & People (RCPP). With construction progressing inside and outside the building, the organization is celebrating the community support behind this progress and inviting others to help raise the final $4 million.

Located at 135 Sandford Fleming Drive in Collingwood, the RCPP will bring expanded shelter and adoption services, accessible veterinary care, humane education and community support programs together under one roof, helping more pets and people across the region.

"Every gift to this campaign is helping build something our South Georgian Bay community needs," says Karen Marsh, executive director of the GTHS. "We see the need for our services every day, from dogs and cats requiring care to families looking for support to keep their pets at home. The RCPP will allow us to do more, and the progress we're celebrating belongs to everyone who has helped us get here."

Expanding our impact across the region

Community support is helping build a centre that will reach more pets and people in South Georgian Bay than ever before. Once operational, the RCPP is expected to:

- Shelter over 5,500 animals annually, ensuring they receive safety, nutrition, and rehabilitation.
- Provide more than 6,700 spay/neuter surgeries each year, expanding our already successful programs to improve animal health and reduce overpopulation.
- Foster hope for 2,200+ people in crisis, offering resources and stability when it's needed most.
- Engage more than 6,000 youth annually through compassionate, hands-on learning.
- Welcome 30,000 visitors, connecting pets with loving homes more quickly.
- Support 600 volunteers and 50 staff, ensuring every animal receives dedicated care.

Construction reaches new milestones

Since breaking ground in September 2025, construction has advanced through several important stages. Recent progress and upcoming work include:

- Interior drywall is 95 per cent complete, bringing the RCPP's rooms and shared spaces closer to their finished form.

Grey County Launches Online Engagement Platform - www.connectgrey.ca

Residents have a new way to have their say on the projects shaping Grey County. Connect Grey, the County's new online engagement platform, is a place for community members to learn about County projects, share ideas and help inform decisions that affect them.

The platform went live on October 9 with a Name the Plow engagement for the County's snowplow fleet. Residents were asked to put their creativity to work and submit up to three names at connectgrey.ca by October 22, then come back on October 23 to vote for their favourites. Winning names will be announced later this fall and decals will be added to the plows for the winter season.

"Connect Grey makes it easier for residents to be part of the conversation, whenever and wherever it suits them," said Rob Hatten, Grey County's communications manager. "The feedback we hear from residents helps shape the decisions we make. Whether you're suggesting a name for a snowplow or sharing your thoughts on a major County project, we want to hear from you."

Connect Grey brings the County's public engagement opportunities together in one place so residents can share their opinions, ask questions and follow updates on projects including the Redeveloping Rockwood Terrace, Resilient Grey and Municipal Road Transfers projects. More projects and engagement opportunities will be added to Connect Grey in the coming months. Residents are encouraged to explore the platform and create a free account. Account holders can follow projects to receive updates as they progress and sign up for email notifications when new projects match their interests.

Over time, Grey County will work with local municipalities to connect their engagement sites to Connect Grey, creating a single regional hub where residents can engage with both Grey County and their local municipality using one account.

To learn more about current projects on Connect Grey and create an account, visit connectgrey.ca.

Official Plan Review - Notice of Adoption

The Town would like to inform those interested in the Official Plan Review project that new documents have been posted to the project webpage. www.thebluemountains.ca

Following Council's initial adoption in June 2025, changes to the Planning Act required the Town to obtain authorization from the Minister of Municipal Affairs and Housing for certain policies related to complete application requirements. In late August 2026, the Ministry provided the required authorization, subject to four targeted policy revisions.

At the September 28, 2026, Council Meeting, Council formally adopted the Official Plan 5-Year Review incorporating the four Ministry-required revisions, with no other changes to the document previously approved by Council.

The Council-adopted Official Plan will now return to Grey County for final approval before it comes into full force and effect.

continued from page 1

- Mechanical and electrical rough-in work is 75 per cent complete, putting essential building systems in place.
- Landscaping has begun, with topsoil and fencing work underway.
- Asphalt paving is expected to begin the week of October 26th, marking another step forward on the building's exterior.

"With interior drywall nearing completion and work progressing outside, the RCPP is taking shape both inside and out," says Lisa Bertram, president, Bertram Construction. "It's rewarding for our team to see these spaces come together and to know the role this building will play in supporting the South Georgian Bay community."

Help raise the final $4 million

With 77 per cent of the fundraising goal reached, the GTHS is calling on the community to help raise the remaining $4 million needed to complete the campaign.

"We're grateful to everyone who has brought us this far, and there is still important work ahead," says Marsh. "If you've been considering a gift, we hope this progress inspires you to be part of what comes next. Your support will help us meet the needs of pets and people for years to come."

About The Georgian Triangle Humane Society

The Georgian Triangle Humane Society (GTHS) is a non-profit charity serving South Georgian Bay through animal sheltering, adoption, community veterinary care, humane education, and access-to-care programs that support pets and the people who love them. Through compassionate, community-based services, the GTHS helps animals in need while working to keep pets and families together whenever possible.

"An Author & A Filmmaker", features author Gwen Lamont, The View From Coffin Ridge: A Childhood Exhumed and Toronto filmmaker, Penny Eizenga, Dog Eared Productions, for an evening celebrating women's stories at **Marsh Street Centre on Friday October 30th at 7 p.m.** Gwen's memoir was released in spring 2024. 3000+ books have been sold, the book has been optioned by Toronto filmmaker Penny Eizenga for a full length feature film. The Clarksburg event will include two readings, the screening of film short "Barefaced" starring Sheila McCarthy, a conversation celebrating women's stories between filmmaker Penny Eizenga and Gwen, and a social time. The ticket price of $50 includes a signed second edition book, short film screening, bottle of Coffin Ridge wine, charcuterie and a drink.

Gwen's book The View From Coffin Ridge: A Childhood Exhumed tells quite a story. For over thirty years, the memories of her childhood were buried. Once those years were over, she never spoke of them. No one knew of her chaotic, poor family. No one knew she had been a child bride, or of her close brush with death at the hands of a man who claimed to love her.

Gwen didn't finish grade 9 but today she holds 4 degrees. The research for her Master of Social Work thesis, took her into prisons where she interviewed men who had killed their intimate partner. Her research is on her website gwenlamontauthor.ca

The community conversations sparked by Gwen Lamont's memoir and the events are continuing in meaningful ways. To date 18 municipal council members, 1 Federal MP, 35 women's centre staff & board members, 30 representatives of youth organizations, 14 police officers and 11 bookstore staff have attended as guests of the author. In each community Gwen donates to organizations providing support to women, children and youth; 51 community donations have been received.

Tickets available at https://www.coffinridge.ca/products/book-launch-the-view-from-coffin-ridge-a-childhood-exhumed or by contacting Mary Anne Alton, publicist for Gwen Lamont altonmaryanne@gmail.com 519 373 2020

Maple Bear Acquires Pretty River Academy, Expanding Global Access to Quality Education

TORONTO, Oct. 19, 2026 (GLOBE NEWSWIRE) -- Maple Bear, a global education network operating in 38 countries and part of Seb Education, a global education ecosystem with more than 60 years of experience in education, today announced it has acquired Pretty River Academy, a trusted provider of education from early childhood through Grade 8.

The acquisition combines Maple Bear's international network, resources, and proven educational expertise with Pretty River Academy's strong local presence and reputation for quality education in Collingwood, Ontario.

Under the terms of the agreement, Maple Bear has acquired the assets of Pretty River Academy, there will be no change in the day-to-day operations of the school.

As part of Seb Education, Maple Bear is connected to a broader global education ecosystem that brings together schools, educators, and learning communities across different countries and educational contexts. This connection expands opportunities for knowledge exchange, professional development, and international learning experiences while respecting the identity and local context of each school. The definitive agreement was signed on October 2, 2026.

What This Means

There are no planned changes to staffing, pricing, or curriculum, as a result of this acquisition. The school will continue to operate under its leadership, maintaining the same standards of quality that families and staff know today. Over time, students and educators will gain access to Maple Bear's global network of resources, professional development, and educational programs spanning early childhood through Grade 12.

The school will preserve its identity while expanding opportunities for students and broadening its academic offerings to include high school. The company will also invest in personalized learning and its continued development as an international school.

The acquisition reflects both organizations' shared commitment to expanding access to high-quality, globally benchmarked education in Canada, and positions the school for continued growth as part of the Maple Bear network over the next few years.

About Pretty River Academy

Pretty River Academy (PRA) is a premier independent, co-educational day school located in Collingwood, Ontario, serving students from Pre-K through Grade 8. Founded on a commitment to academic excellence, individual growth, and community values, PRA provides a supportive and dynamic learning environment for families across the Southern Georgian Bay region, including Collingwood, The Blue Mountains, and Meaford. Through small class sizes, dedicated faculty, and an enriched curriculum, Pretty River Academy empowers students to think critically, act compassionately, and achieve their full potential.

About Seb Education

Seb Education is a global education ecosystem with more than 60 years of experience in education, bringing together more than 500 schools and 78,000 students across approximately 40 countries. Its portfolio includes leading education brands and schools connected by a shared commitment to academic excellence, international perspectives, and innovation with responsibility.

About Maple Bear Global Schools

Founded in 2004, Maple Bear Global Schools is a world leader in bilingual education, offering high-quality programming from early childhood through high school. The network operates more than 500 schools in over 35 countries across five continents. A Maple Bear education is based on Canadian pedagogy, consistently ranked in the global top 10 by PISA, and is delivered in safe, stimulating, multicultural learning environments grounded in student-centred methodology.

Municipal Road Transfers

Grey County roads and local municipal roads play an important part in our region's overall roads network. Over time, our communities have grown, and driver habits have changed.

Grey County is working to improve the movement of people, goods, and services around the region. As part of this project, the Grey County Council has given initial support to a proposal to transfer some county roads to local municipalities and, and to assume some local municipal roads into the Grey County road network. The goal of these road transfers is to give local municipalities more control of the roads running through their urban areas and to re-align some rural County roads to match traffic patterns.

On July 9, 2026, Grey County Council ratified the minutes of the June 25 meeting directing staff to prepare a by-law that would set in motion plans to transfer roads on June 1, 2027.

Why is Grey County considering road transfers?

The municipal road transfers project can be summarized with one main goal: ensuring the right roads are owned and maintained by the right jurisdiction. There are several benefits to be observed through the proposed transfers.

Rural Roads

Transferring and or trading rural roads with local municipalities responds to changes in traffic patterns. Typically, drivers will travel a route that gets them to destinations quicker. As a result, some local roads are seeing higher traffic volumes than nearby County Roads. A transfer of roads between the County and municipalities may have several benefits including:

- Roads built to a higher standard where traffic counts are higher.
- More direct or convenient travel routes for drivers.
- More effect flow of people, goods and services.
- Some improved efficiency of winter road maintenance (plow routes)

Urban Roads

Transferring urban roads to the local municipalities will have a number of benefits for communities and municipalities.

Faster response to issues – Municipal public works staff are based right within the municipality and can respond quicker than Grey County deploying staff from a depot or patrol route several kilometres away.

Consistency with infrastructure – Right now, Grey County owns the road surface, but the local municipality owns most of the infrastructure under the road. Transferring roads will allow for more efficient and timely infrastructure repair and better project management for large scale replacement.

Public understanding – Many residents don't realize Grey County is the authority for some roads running through urban areas. This creates confusion when contacting the municipality to report issues, request permits, or ask questions.

Municipal Transitional Funding

Grey County recognizes that road transfers will have a financial impact on the operations and long-term capital planning of municipalities receiving roads. As part of the transfers, Grey County is committing to 10 years of transfer payments to help municipalities adapt and stabilize. This stabilization funding will also include the transfer of development charges which have already been collected by Grey County for future investments in these roads.

The amount of funding each municipality is receiving is calculated based on multiple factors, including length or roads beings assumed, number of traffic lights and other factors.

Grey County will provide approximately $42.8 million in payments over 10 years, which includes a minimum total transitional payment increase of no less than 5% annually as part of the transitional funding payments.

Municipality	***Total Funding (over 10 years)***
The Blue Mountains	$5,636,000
Grey Road 13 (Bruce St/ Marsh St) & Grey Road 113 (Alfred Street)	
Chatsworth	$185,000
Georgian Bluffs	$0
Grey Highlands	$3,347,000
Hanover	$9,112,000
Meaford	$2,453,000
Owen Sound	$15,249,000
Southgate	$1,704,000
West Grey	$5,136,000
Minimum Total Transfer:	**$42,822,000**

Extension of In-Water Work Permit Supports Completion of Outfall Installation

The Town of The Blue Mountains would like to provide the public with an update on the permit status and schedule for the installation of the new outfall for the Thornbury Wastewater Treatment Plant.

On Thursday, October 15, the Ministry of Natural Resources approved an extension of the in-water work permit for the outfall installation through to December 31, 2026. This extension will allow the contractor to continue in-water work to complete the outfall installation this year. All other applicable project approvals remain in place.

The extended permit requires additional measures to monitor fish habitat and protect fish. These measures include:

- Turbidity monitoring before work begins and throughout dredging operations.
- Installation of a turbidity curtain around the dredging area.
- Daily underwater camera and fish finder inspections to assess the presence of fish.
- Rescue and release of fish as needed.
- A "soft start" process, involving tapping on the lakebed before dredging begins to discourage fish from occupying the work area.

The contractor is responsible for implementing and complying with these additional mitigation measures, and will have a certified Aquatic Biologist on site for monitoring and assistance. Town staff and the Town's engineering consultant will also be monitoring the work to ensure the mitigation plan is followed.

Current Project Status

Clearway Construction resumed dredging on Wednesday, October 7, and has spent the past week cleaning up the section of trench closest to shore.

The contractor has also evaluated and revised their installation methodology to improve construction progress. Rather than installing the full 640 metre section of buried pipe as a single piece, they will now be installing it in shorter segments. This will reduce the length of trench that must be kept clear at one time, allowing them to focus work in smaller areas and make quicker progress. They are currently preparing to install the first 200 metre length of buried pipe. Subject to weather and site conditions, this work is anticipated to be completed within the next week.

To support the next stage of construction, the contractor will be mobilizing additional equipment to the project site including a heavy-duty jack-up barge and an additional excavator. This equipment will be floated from Owen Sound by tugboat as it is too large to be delivered directly to the installation or assembly sites.

Current schedules call for in-water work to be completed by mid-December. Shoreline restoration will be completed in the spring of 2027. Project updates will continue to be posted to the Town's project web page and emailed directly to project subscribers as work progresses.

Strong Oversight. Smart Execution. Clear Direction

Brayden DeWitt for Council

I'm running for Council because I believe residents deserve straight answers, responsible growth, and a local government that is easier to understand and engage with.

RE-ELECT

SHAWN McKINLAY

FOR COUNCILLOR

A lifelong resident and fifth-generation local, Councillor Shawn McKinlay is deeply woven into the agricultural, volunteer, and municipal fabric of the Town of The Blue Mountains.

A Vision For Balanced Growth & Working Families:
As a local contractor and business owner, Shawn understands the economic pressures facing everyday TBM residents and is focused on practical, long-term solutions.

Attainable Housing & Daycare Infrastructure:
Shawn is a vocal advocate for regional childcare facilities and fast-tracking attainable housing initiatives, recognizing that a sustainable economy requires keeping young families and local workers in the community.

Balanced Regional Development: He strongly champions an even-keeled approach to growth, focusing on creative zoning and planning solutions that prevent over-densification while preserving the town's natural and rural heritage.

ENDORSED BY THE CANDIDATE

Dear Residents,

When I entered this campaign, my primary concern was TBM's financial position and the need for **stronger financial oversight**. That remains a central focus for me.

At the same time, conversations with residents have reinforced important issues that we need to address.

Supporting Seniors
Over 34% of TBM residents are 65 or older, compared with 19% across Ontario. We need zoning and housing options that help residents remain in the community as they age.

Fixing Local Transit
The end of the Highway 26 Grey Transit Route has left fewer options for residents who do not drive. We need to explore practical alternatives, including shuttle services and rideshare partnerships.

Preserving Our Character
As our community grows, we need to protect wildlife habitats, agricultural land and the rural character that makes TBM distinctive.

Municipal elections come only once every four years, and with voter turnout at around 30% in 2022, every vote matters. **Please help shape our town's future by voting October 16–26.**

Sincerely, George

BEAVER VALLEY OUTREACH

Land Acknowledgment

We, at Beaver Valley Outreach, acknowledge that we live, work, learn and gather on the traditional land and waters of the Saugeen Ojibway Nation, including the Chippewas of Saugeen First Nation and the Chippewas of Nawash Unceded First Nation, and the traditional territories of the Anishinaabe peoples of the Three Fires Confederacy, as well as the Wendat, Wyandot and Haudenousaunee people who travelled, traded, lived and cared for this region over countless generations.

We give thanks for the waters of Georgian Bay, the Beaver River watershed, the Niagara Escarpment and the forests, wildlife and shorelines. This area is within the boundaries of Treaty 18 of 1818. We recognize the lasting impacts of colonial policies and broken treaty promises on Indigenous communities.

May this acknowledgment be more than words. As people who now share this land, may we listen to Indigenous voices and learn from their knowledge, may we walk gently along these shores, respecting the land and waters that connect us all, and may we work together toward respect, responsibility and reconciliation now, and for future generations.

OUR COMMUNITY. OUR TAX DOLLARS. OUR FUTURE.

By Sean Kelly, Candidate for Council — Town of The Blue Mountains

As voting days approach, October 16–26, I believe residents of the Town of The Blue Mountains should look beyond political alliances and focus on what is best for our community as a whole.

As a first-time candidate, it is becoming clear how this process works. Alliances are starting to take shape. Is this about getting elected or is it about holding your beliefs?

Is the message changing already based on the applause.

Local government decisions directly affect our taxes, services, infrastructure and quality of life. The decisions Council makes today will shape our town for years to come, sometimes for a lifetime.

Our town's budget is significant. Every taxpayer should expect Council to manage public money with the same care, responsibility and accountability they would apply to their own investments. You should not have to be here year-round to feel confident that your investment in this community is being protected.

Many residents do not live here full-time, but hope to in the future. We need to plan responsibly for the community we are becoming, rather than simply react to challenges as they arise.

ASK THE IMPORTANT QUESTIONS

1. Are responsible financial decisions being made every day?
2. Have development charges been used as intended to support growth?
3. Are we learning from past decisions and avoiding unnecessary costs and mistakes?
4. Are we protecting the tax base that residents and businesses have worked hard to build?
5. Are we receiving value for every tax dollar we spend?
6. Are Council's decisions serving the long-term interests of the entire community while preserving the quality of life we enjoy today?

I am not asking you simply to vote for me. I am asking you to vote for candidates who will address our town's immediate needs, and to consider whether I can make a difference. You don't have to vote for 5 councilors, just the ones you think support your views and needs of the Town. A random vote to fill the card could eliminate someone you support.

Addressing those needs will require change.

Change is never easy. But we need residents to participate in shaping it. Four thousand voters is not enough.

Look carefully at Council's past decisions. Are we hearing the same pitches and promises again? Is there a willingness to do things differently when circumstances require it? Are those we elect willing to seek guidance from residents with the expertise our town needs?

Our community has a tremendous pool of knowledge, skills and experience. If you have expertise that could benefit our town, please step forward and make your voice heard. I will be asking for your input.

Elected officials should actively seek out that knowledge and involve residents in finding solutions. We all have a stake in this community's future, and we all have something to contribute.

Those we elect will be entrusted with our town's finances, resources and infrastructure. That responsibility requires thoughtful governance, accountability and a willingness to draw on the knowledge available before making important decisions.

Before you vote, consider each candidate's passion, experience, priorities, record and approach to financial accountability. Ask whether they have spent enough time in this community to understand its character, its needs and the concerns of the people who call it home.

Think of your vote as the beginning of change for the present and future of the Town of The Blue Mountains. Council cannot succeed without the community's support and participation. Four thousand votes or 29 percent of eligible is not enough and does not reflect the true picture.

Give it a strong voice.
That change can begin in 2026.
Our community. Our tax dollars. Our future.

Sean Kelly, Candidate for Council
Local butcher since 2008, Town of The Blue Mountains

NOTICE OF MUNICIPAL ELECTION – October 26, 2026
INFORMATION FOR VOTERS

WHO MAY VOTE?

Any person who on election day (October 26, 2026) meets the following qualifications is eligible to vote:

1. Is a Canadian citizen
2. Is at least 18 years old on election day
3. Resides in the municipality or is the owner or tenant of land in the local municipality, or the spouse of such a person.
4. Any person not prohibited by law from voting.

VOTERS' LIST INFORMATION

From September 1, 2026 to October 26, 2026 Electors may contact the Town of The Blue Mountains, Clerk's Office, to confirm they are on the Voters' List, amend their information, or be added to the Voters' List.

An online tool is also available on the Town's website for electors to confirm that they are on the Voters' List, register to be added to the Voters' List or update their information.

WHAT SCHOOL BOARD DO I VOTE FOR?

Electors are entitled to vote in the school board election, if their qualifying property is residential. Each eligible elector may vote for school representation once in a school board jurisdiction.

The following is a list of the School Boards for which qualified electors will be entitled to vote unless there are acclamations.

1. **Bluewater District School Board**
2. **Conseil scolaire Viamonde** (must have French Language Education Rights)
3. **Bruce Grey Catholic District School Board - ACCLAIMED**
4. **Conseil scolaire catholique Providence - ACCLAIMED**

WHAT DEVICES CAN I USE TO VOTE?

Voters can use any device that connects to the internet, including computers, tablets, and smartphones. Voters can also use touch-tone telephones. Rotary phones may not be used. **There will be no paper ballots for this election.**

WHAT DO I NEED TO VOTE?

Voters need to have a Voter Information Letter in order to vote. This will be mailed to you in October.

This letter will have your instructions and your unique Personal Identification Number, required to log on to the internet election site or the telephone election platform.

METHOD OF VOTING

The Town of The Blue Mountains is using Internet and Telephone Voting for the 2026 Municipal and School Board Election. There will be no advance poll or proxy voting as Internet/Telephone Voting allows voters to cast a ballot anytime between Friday, October 16, 2026 at 10:00 a.m. and Monday, October 26, 2026 at 8:00 p.m. An Election Help Centre will be available in the Town Hall, 32 Mill Street, Thornbury, during the voting period, and during the extended hours as noted below:

October 16, 2026 – 10:00 a.m. – 4:00 p.m.
October 17, 2026 – 9:00 a.m. – 1:00 p.m.
October 19, 2026 – 9:00 a.m. – 6:00 p.m.
October 20, 2026 – 9:00 a.m. – 6:00 p.m.
October 21, 2026 – 9: 00 a.m. – 6:00 p.m.
October 22, 2026 – 9:00 a.m. – 6:00 p.m.
October 23, 2026 – 9:00 a.m. – 6:00 p.m.
October 24, 2026 - 9:00 a.m. – 1:00 p.m.
October 26, 2026 – 9:00 a.m. – 8:00 p.m.

At the Election Help Centre, you can:

- Ask questions
- Register to vote
- Receive voting assistance
- Vote independently

2026 AGM Invitation
November 14th at 10am

BEAVER RIVER WATERSHED INITIATIVE
what water wants

Please be advised of the Annual General Meeting of the Beaver River Watershed Initiative (BRWI) which will be held November 14th at 10am - Noon at the Kimberley Hall, 235309 Grey Rd 13, Kimberley.

We welcome BRWI members and non members to attend our AGM to learn about the current BRWI activities and elect our management team members. Your attendance will help support the Beaver River Watershed Initiative and our mission:

"To work with the community, agencies and organizations that share our vision to develop, promote and facilitate projects which will conserve, protect and enhance the ecological and social health of the Beaver River Watershed."

Brad Mulligan, Project Coordinator BRWI, will present a review of BRWI projects, both current and future.

We are pleased to have **Jack Imhof** as our keynote speaker.

Jack has been a dedicated volunteer with the BRWI since its inception, bringing over 50 years of expertise in river and watershed restoration. Specializing in restoration ecology, watershed science, and natural channel design, his efforts have significantly improved the health of Canada's watersheds. His outstanding contributions have earned him numerous accolades, including the 2012 Conservation Pioneer Award and being named a Legend in Fisheries and Aquatic Sciences in 2022. Before retiring in 2017 as National Biologist and Director of Conservation Ecology for Trout Unlimited Canada (now Freshwater Conservation Canada), Jack served as a provincial Aquatic Ecologist and Watershed Research Scientist with the Ministry of Natural Resources and Forestry. He also shared his knowledge as an adjunct professor at several Ontario universities. Today, Jack continues to shape environmental policy and support NGOs and municipalities, remaining both an invaluable expert and a cherished friend to the BRWI.

Pay It Forward Membership

We believe everyone deserves a place to move, connect and feel like they belong. This year, we're giving the gift of a Nov/Dec Lemonade Collective membership to someone in our community who could use a little extra support, connection and time for themselves. Know someone who could benefit but isn't currently in a position to treat themselves to a membership? Nominate them by the end of October. Nominations are completely confidential, and the recipient will not be publicly named or featured. Sometimes a little kindness can go a long way.
www.lemonadecollective.ca/pay-it-forward-membership
